THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 1

Chapter 22: **Sectors of the Indian Economy (Economics)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. A sugar mill in a village closes for lack of sugarcane. Which sectors are directly affected? 1

(a) Primary and secondary **(b)** Tertiary only
(c) None of the sectors **(d)** Public sector only

2. An economy's primary, secondary and tertiary outputs are Rs 800 crore, Rs 1,200 crore and Rs 2,000 crore of final goods. The share of the secondary sector in GDP is: 1

(a) 30 per cent **(b)** 40 per cent **(c)** 20 per cent **(d)** 50 per cent

3. Growth of IT-based services is mainly an example of: 1

(a) growth of the primary sector
(b) closure of industries
(c) decline of the tertiary sector
(d) emergence of new services in the tertiary sector

4. A farm needs four workers but six work on it. If two leave and output stays the same, this proves that they were: 1

(a) fully employed **(b)** seasonally employed
(c) in the organised sector **(d)** under-employed

5. Which of the following is the most accurate description of the unorganised sector? 1

(a) Only large companies
(b) Small scattered units, low irregular pay and no benefits
(c) Fully registered units with benefits
(d) Only government offices

6. A hospital owned by a company that charges patients commercial fees to earn a profit is best described as: 1

(a) primary sector **(b)** public sector
(c) private sector **(d)** unregistered sector

7. A software firm earning mostly from clients abroad performs an activity of the: 1

(a) secondary sector **(b)** tertiary sector **(c)** informal sector **(d)** primary sector

8. If intermediate goods worth Rs 500 crore were wrongly added to a GDP of Rs 4,000 crore, the reported GDP would be: 1

(a) Rs 3,500 crore **(b)** Rs 5,000 crore **(c)** Rs 4,000 crore **(d)** Rs 4,500 crore

9. **Assertion (A):** Only final goods and services are counted while calculating the GDP. 1
Reason (R): The value of final goods already includes the value of all the intermediate goods used in making them, so counting the latter again would be double counting.
Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** Cotton cultivation belongs to the primary sector. 1
Reason (R): Making cloth from cotton in a textile mill belongs to the secondary sector.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. A farmer sells cotton worth Rs 10,000 to a mill, which sells cloth worth Rs 25,000 to a tailor, who sells garments worth Rs 40,000. Find the GDP contribution. 2

12. Why does a faster rise in services than in jobs create a problem for farm families? 2

13. Give two reasons why creating small-scale industries in semi-rural areas helps under-employed farm workers. 2

14. Why is the sale of second-hand goods not treated as new production in GDP? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. A town has these activities: a wheat farm, a flour mill, a bakery, a delivery van. Place them in sectors and show the chain of dependence. 3

16. Why do people in the same family remain in farming even when they are under-employed? 3

17. Suggest three steps to protect farmers and small units in the unorganised sector. 3

OR

An economy has final output Rs 600 crore (primary), Rs 1,000 crore (secondary) and Rs 2,400 crore (tertiary). Find the percentage share of each sector. 3

18. Evaluate irrigation and food processing as two measures for rural jobs. 3

OR

Why is it difficult to improve working conditions in a small roadside unit compared with a big factory? 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** A farmer sells wheat to a flour mill for Rs 20 per kg. The mill grinds it and sells the flour to a biscuit company at Rs 25 per kg. The company makes biscuits from the flour, sugar and oil and sells four packets at Rs 20 each to consumers. A student wants to compute the contribution of this chain to GDP. 5
(i) Name the final good in this chain.
(ii) Name one intermediate good.
(iii) What is the value of the final good sold, if four packets are sold at Rs 20 each?
(iv) Why should only the final goods be counted in GDP?

20. A farmer sells wheat worth Rs 30,000 to a flour mill; flour worth Rs 48,000 goes to a biscuit firm; biscuits worth Rs 80,000 are sold to consumers; the biscuit firm also uses packaging worth Rs 6,000 (made in another unit). Find GDP contribution and value added by the mill and the biscuit firm. 5

OR

'The government must remain an important economic actor even in a market economy.' Justify with examples. 5

END OF QUESTION PAPER — Total: 40 Marks
