CLASS 10 — SOCIAL SCIENCE · HARD LEVEL UNIT TEST SET 1

Chapters 6–9: **Resources and Development (Geography), Forest and Wildlife Resources (Geography), Water Resources (Geography), Agriculture (Geography)** | RBSE Pattern | Session 2026–27

Time: 2 Hours Name: _____ Roll No.: _____ **Maximum Marks: 50**

General Instructions:

1. All questions are compulsory.
2. Q. 1–15 are Objective Type (1 mark each).
3. Q. 16–20 are Very Short Answer Type (2 marks each).
4. Q. 21–25 are Short Answer Type (3 marks each).
5. Q. 26–27 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 24–25 and Q. 26–27.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 15 × 1 = 15

Choose the correct option and write it in your answer book.

1. The first step in resource planning is 1

(a) sale of resources
(b) identification and inventory by surveying and mapping
(c) implementation of plans
(d) review

2. Joint Forest Management in India first began in 1

(a) Rajasthan in 1950 **(b)** Gujarat in 1972
(c) Kerala in 2000 **(d)** Odisha in 1988

3. Assertion (A): Water is a renewable resource. Reason (R): Its availability is unlimited at all places. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

4. Which crop is both a Kharif crop and an oilseed? 1

(a) gram **(b)** mustard **(c)** wheat **(d)** groundnut

5. Assertion (A): Water is a renewable resource. Reason (R): The water cycle continuously replenishes it. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

6. Assertion (A): Sacred groves are a form of traditional conservation. Reason (R): Communities protect them for religious reasons. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

7. A report says a dam has silted up. The effect is 1

(a) reduced storage capacity **(b)** greater storage capacity
(c) no change **(d)** more power

8. Which state pair is a major producer of both tea and coffee in the hills? 1

(a) Rajasthan and Punjab **(b)** Kerala and Karnataka
(c) Bihar and Jharkhand **(d)** Haryana and Delhi

9. Which farming method reduces soil loss on hill slopes? 1

(a) shifting cultivation **(b)** plantation farming
(c) terrace farming **(d)** dry farming

10. Assertion (A): Endemic species are at greater risk of extinction. Reason (R): They are found only in a limited area. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

11. Assertion (A): Johads help recharge groundwater. Reason (R): They store monsoon run-off, which percolates into the ground. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

12. Assertion (A): Agriculture is vital for India. Reason (R): It employs about two-thirds of the population. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

13. **Assertion (A):** Black soil is ideal for growing cotton. 1
Reason (R): Black soil is made of fine clayey material formed from volcanic rock and is good at retaining moisture.
Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

14. **Assertion (A):** Sacred groves have preserved many virgin forests in their pristine form. 1
Reason (R): Local people regard these patches of forest as the forests of gods and goddesses and ban any interference.
Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

15. **Assertion (A):** Jawaharlal Nehru called dams the 'temples of modern India'. 1
Reason (R): Multi-purpose dams integrate the development of agriculture and the village economy with rapid industrialisation and urban growth.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) 5 × 2 = 10

Answer in about 20–30 words each.

16. Why is soil called a resource? 2

17. How do forests help soil and water? 2

18. How do dams change river ecosystems? 2

19. Why do farmers' suicides link to debt? 2

20. Why must technology be used carefully with resources? 2

SECTION — C (Short Answer Type) 5 × 3 = 15

Answer in about 40–60 words each.

21. Explain how agricultural practices cause land degradation. 3

22. Explain how India's laws and community efforts complement each other. 3

23. Explain the idea of rights over water. 3

24. Explain the role of cooperatives in agriculture. 3

OR

Compare soil conservation methods for hills and plains. 3

25. Compare tiger conservation and rhino conservation. 3

OR

Examine why Tamil Nadu's rooftop law was effective. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 100–150 words each.

26. **Case study.** Ramesh, a farmer near Nagpur in Maharashtra, grows cotton on black soil. The soil is black in colour, becomes sticky when wet and develops wide cracks in the dry season. It was formed by the weathering of the volcanic rocks of the Deccan trap region and is rich in calcium carbonate, magnesium, potash and lime but poor in phosphoric content. 5
(i) By what other name is this soil known?
(ii) From which rocks is it formed?
(iii) Name one crop other than cotton suited to this soil.
(iv) Why is this soil called 'self-ploughing'?

27. Critically examine the benefits and costs of multipurpose river projects with examples. 5

OR

Evaluate the successes and failures of the Green Revolution. 5

END OF QUESTION PAPER Total: 50 Marks
