THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · HARD LEVEL UNIT TEST SET 2

Chapters 6–9: **Resources and Development (Geography), Forest and Wildlife Resources (Geography), Water Resources (Geography), Agriculture (Geography)** | RBSE Pattern | Session 2026–27

Time: 2 Hours Name: _____ Roll No.: _____ **Maximum Marks: 50**

General Instructions:

1. All questions are compulsory.
2. Q. 1–15 are Objective Type (1 mark each).
3. Q. 16–20 are Very Short Answer Type (2 marks each).
4. Q. 21–25 are Short Answer Type (3 marks each).
5. Q. 26–27 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 24–25 and Q. 26–27.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 15 × 1 = 15

Choose the correct option and write it in your answer book.

1. If winter rains fail, the crop most at risk is 1

(a) wheat **(b)** cotton **(c)** jute **(d)** rice

2. Assertion (A): Resources are 'functional'. Reason (R): Their utility depends on human technology, culture and needs. 1

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

3. Which attitude reflects colonial forest policy? 1

(a) conserving for community use

(b) treating forests mainly as sources of timber and revenue

(c) joint management with villagers

(d) seeing forests as sacred

4. Which factor does NOT increase water scarcity? 1

(a) pollution **(b)** population growth

(c) rainwater harvesting **(d)** overuse

5. Which factor promotes organic farming? 1

(a) cheaper chemical fertilisers

(b) subsidies on pesticides

(c) shortage of seeds

(d) health concerns and demand for chemical-free food

6. Which pair is INCORRECT? 1

(a) laterite - alluvial deposits of rivers **(b)** khadar - new alluvium

(c) regur - black soil **(d)** bhangar - old alluvium

7. Assertion (A): Project Tiger was launched in 1973. Reason (R): The tiger population had fallen sharply by the 1970s. 1

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

8. Assertion (A): Traditional water harvesting systems are obsolete. Reason (R): Tamil Nadu made rooftop harvesting compulsory in all houses. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

9. A drought in July would mainly affect 1

(a) Zaid watermelon **(b)** tea in Assam **(c)** Kharif sowing **(d)** Rabi harvest

10. Which soil needs fertilisers to be productive for plantation crops? 1

(a) black soil **(b)** laterite soil **(c)** alluvial soil **(d)** forest soil

11. Assertion (A): Large dams help to protect forests. Reason (R): They submerge large areas of forest. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

12. Which approach would help an arid region most? 1

(a) water imports by tanker **(b)** building a huge dam far away
(c) local rainwater harvesting **(d)** open canals only

13. **Assertion (A):** Wheat is a rabi crop. 1
Reason (R): Rabi crops are sown in winter and harvested in summer, and wheat needs a cool growing season and bright sunshine at ripening.
Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

14. **Assertion (A):** Laterite soil develops in areas of high temperature and heavy rainfall. 1
Reason (R): Red soil develops on crystalline igneous rocks in areas of low rainfall.
Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

15. **Assertion (A):** The Chipko movement started in the Himalayas. 1
Reason (R): The Beej Bachao Andolan in Tehri shows that diversified crop production without synthetic chemicals is possible.
Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 5 × 2 = 10

Answer in about 20–30 words each.

16. Why do tigers matter to forest ecosystems? 2

17. Why does irrigation need to be efficient? 2

18. Why is horticulture growth important? 2

19. How does overirrigation harm fertility? 2

20. Why are community forests often well managed? 2

SECTION — C (Short Answer Type) — 5 × 3 = 15

Answer in about 40–60 words each.

21. Explain why pulses production is low despite demand. 3

22. Analyse causes of land degradation in three states. 3

23. Explain the role of forests in tribal economies. 3

24. Explain how traditional structures adapt to climate. 3

OR

Explain the role of technology in raising yield. 3

25. Explain why Gandhi's quote remains relevant. 3

OR

Explain why forests are called lungs of the earth. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

26. **Case study.** Forests in India are classified by the Forest Department into three categories. More than half of the total forest land has been declared reserved forests, which are regarded as the most valuable for the conservation of forest and wildlife. Almost one-third of the total forest area is protected forest, which is protected from further depletion. The remaining forests and wastelands belong to both government and private individuals and communities. 5

(i) Name the three categories of forests.

(ii) Which category is regarded as the most valuable for conservation?

(iii) Which category forms almost one-third of the forest area?

(iv) Why is it important to protect forests as well as wildlife?

27. Discuss strategies to balance development needs and water conservation. 5

OR

Evaluate the claim that agriculture still determines India's prosperity. 5
