THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · HARD LEVEL UNIT TEST SET 3

Chapters 6–9: **Resources and Development (Geography), Forest and Wildlife Resources (Geography), Water Resources (Geography), Agriculture (Geography)** | RBSE Pattern | Session 2026–27

Time: 2 Hours Name: _____ Roll No.: _____ **Maximum Marks: 50**

General Instructions:

1. All questions are compulsory.
2. Q. 1–15 are Objective Type (1 mark each).
3. Q. 16–20 are Very Short Answer Type (2 marks each).
4. Q. 21–25 are Short Answer Type (3 marks each).
5. Q. 26–27 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 24–25 and Q. 26–27.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 15 × 1 = 15

Choose the correct option and write it in your answer book.

1. Which statement is correct? 1

(a) water is a limited resource **(b)** water is non-renewable
(c) water is infinite **(d)** water is a biotic resource

2. Which of these is a pulse? 1

(a) jowar **(b)** gram **(c)** ragi **(d)** maize

3. Which is a consequence of overgrazing? 1

(a) denser forests **(b)** soil erosion **(c)** higher fertility **(d)** heavier rainfall

4. The tiger population in India fell from about 55,000 in the early 1900s to 1

(a) 5,000 in 1973 **(b)** 20,000 in 1973 **(c)** 40,000 in 1973 **(d)** 1,827 in 1973

5. Assertion (A): Groundwater levels fall when extraction exceeds recharge. Reason (R): Tube wells draw water faster than rain refills it. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

6. Which practice helps conserve soil fertility in farming? 1

(a) overgrazing **(b)** crop rotation
(c) burning of stubble **(d)** monocropping

7. Which is a result of unplanned use of resources? 1

(a) equity **(b)** degradation and depletion
(c) sustainability **(d)** surplus

8. Assertion (A): Hunting and poaching are legal for all species in India. Reason (R): The Wildlife Act protects listed species. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

9. Assertion (A): Industrial growth increases demand for water. Reason (R): Factories use and pollute large quantities of water. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. Assertion (A): Wheat is a Rabi crop. Reason (R): It is sown in winter and harvested in summer. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

11. A state has abundant minerals but poor infrastructure. This shows the need for 1

(a) ending trade
(b) no planning
(c) careful resource planning
(d) stopping mining

12. Assertion (A): Mining is a major cause of deforestation. Reason (R): It requires clearing of large areas of land. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

13. **Assertion (A):** The Hirakud project is built in the Mahanadi basin. 1
Reason (R): The Bhakra-Nangal project uses the water of the Sutlej-Beas basin for hydel power and irrigation.
Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

14. **Assertion (A):** Jute is known as the golden fibre. 1
Reason (R): Jute grows well on well-drained fertile soils in flood plains where soils are renewed every year.
Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

15. **Assertion (A):** Khadar is the newer alluvium and is more fertile than bangar. 1
Reason (R): Bangar soil has a lower concentration of kankar nodules than khadar.
Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 5 × 2 = 10

Answer in about 20–30 words each.

16. How does water scarcity affect agriculture? 2

17. Why is agriculture in India said to be a gamble in the monsoon? 2

18. Why does overgrazing occur in Gujarat and Rajasthan? 2

19. Why has Joint Forest Management helped forests? 2

20. Why can dams intensify floods? 2

SECTION — C (Short Answer Type) — 5 × 3 = 15

Answer in about 40–60 words each.

21. Explain how dams influence regional inequality. 3

22. Explain the role of fruits and vegetable exports. 3

23. Explain the link between land use and population pressure. 3

24. Explain how the IUCN categories guide policy. 3

OR

Explain how Meghalaya's bamboo drip system is sustainable. 3

25. Evaluate the role of institutional reforms in improving agriculture. 3

OR

Explain why alluvial soil supports dense population. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

26. **Case study.** Multi-purpose river valley projects were launched after Independence with an integrated water resources management approach. For example, in the Sutlej-Beas river basin the Bhakra-Nangal project water is used both for hydel power production and irrigation, and the Hirakud project in the Mahanadi basin integrates conservation of water with flood control. 5

(i) What is a multi-purpose river project?

(ii) Name the river on which the Hirakud project is built.

(iii) Name one use of the Bhakra-Nangal project.

(iv) How do dams harm rivers and the people living near them?

27. Discuss ancient and medieval Indian hydraulic engineering. 5

OR

Discuss the role of institutional and technological reforms in agricultural development. 5

END OF QUESTION PAPER — Total: 50 Marks
