THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · HARD LEVEL UNIT TEST SET 2

Chapters 10–12: **Minerals and Energy Resources (Geography), Manufacturing Industries (Geography), Lifelines of National Economy (Geography)** | RBSE Pattern | Session 2026–27

Time: 2 Hours Name: _____ Roll No.: _____ **Maximum Marks: 50**

General Instructions:

1. All questions are compulsory.
2. Q. 1–15 are Objective Type (1 mark each).
3. Q. 16–20 are Very Short Answer Type (2 marks each).
4. Q. 21–25 are Short Answer Type (3 marks each).
5. Q. 26–27 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 24–25 and Q. 26–27.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 15 × 1 = 15

Choose the correct option and write it in your answer book.

1. Which approach helps both energy saving and the environment? 1

(a) using more oil **(b)** using public transport

(c) burning waste **(d)** buying more private cars

2. Which fuel is essential in steel making? 1

(a) coking coal **(b)** wood **(c)** solar energy **(d)** wind

3. Assertion (A): Pipelines are suitable for transporting liquids and gases. Reason (R): They give a continuous flow without loading and unloading. 1

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

4. Assertion (A): Natural gas is considered an environment-friendly fuel. Reason (R): It releases less carbon dioxide. 1

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

5. Assertion (A): Manufacturing is called the backbone of development. Reason (R): It creates jobs and earns foreign exchange through exports. 1

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

6. Which factor helps explain Kerala's high road density? 1

(a) hilly isolation

(b) absence of trade

(c) dense population and scattered settlements

(d) desert terrain

7. The Tarapur and Rawatbhata power stations are examples of 1

(a) nuclear power plants **(b)** solar parks

(c) hydel stations **(d)** wind farms

8. Assertion (A): Iron and steel is a basic industry. Reason (R): Many other industries depend on it for machinery and tools. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

9. The North-South corridor connects 1

(a) Kolkata and Chennai
(b) Kochi and Kolkata
(c) Srinagar and Kanyakumari
(d) Delhi and Mumbai

10. Assertion (A): Nuclear power is entirely free from risk. Reason (R): Thorium and uranium are available in India. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

11. A cause of the decline of the jute industry is 1

(a) cheaper synthetic substitutes
(b) high demand
(c) heavy rain
(d) surplus power

12. Assertion (A): Border roads help national security. Reason (R): They connect remote border areas. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

13. **Assertion (A):** Manganese is mainly used in the manufacturing of steel and ferro-manganese alloys. 1
Reason (R): It is also used in making bleaching powder, insecticides and paints.
Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

14. **Assertion (A):** The iron and steel industry is called a basic or key industry. 1
Reason (R): Bhilai, Durgapur, Rourkela and Bokaro are steel plants in the public sector.
Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

15. **Assertion (A):** Pipelines are an economical mode of transporting crude oil and natural gas over long distances. 1

Reason (R): After laying, their running cost is low and they avoid trans-shipment losses and delays.

Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 5 × 2 = 10

Answer in about 20–30 words each.

16. Why is a balanced trade important for a country? 2

17. Why does uneven distribution of minerals matter? 2

18. How did liberalisation affect industry? 2

19. How does air transport support trade in perishables? 2

20. Why are non-conventional sources expanding? 2

SECTION — C (Short Answer Type) — 5 × 3 = 15

Answer in about 40–60 words each.

21. Explain the role of ports in industrial growth. 3

22. Explain how improved ports raise exports. 3

23. Explain the role of government policy in energy security. 3

24. Explain how cooperatives promote rural development. 3

OR

Explain why India's exports are diversifying. 3

25. Explain the need for balance between mining and environment. 3

OR

Analyse why aluminium plants are in Odisha, Jharkhand. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

26. **Case study.** A paper mill beside a river in Uttar Pradesh releases hot water, chemicals and solid waste into the river. Local people report fish deaths downstream. Industries also cause air pollution from smoke and gases, noise pollution from machines, generators and drilling, and land pollution from solid wastes such as fly ash and slag. 5

(i) Name the type of pollution that occurs when hot water is discharged into rivers.

(ii) Name one solid waste mentioned.

(iii) Give one source of noise pollution.

(iv) Suggest two steps the mill should take to reduce water pollution.

27. Analyse the role of hydro, thermal and nuclear power in India's energy mix. 5

OR

Discuss the growth of IT, electronics and chemical industries. 5

END OF QUESTION PAPER — Total: 50 Marks
