THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 7 — SCIENCE · NCERT-TYPE CHAPTER TEST SET 1

Chapter 4: **Changes Around Us: Physical and Chemical** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. NCERT-type: questions in the style of the textbook examples and exercises.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. A change in which no new substance is formed is a: 1

(a) biological change only **(b)** nuclear change
(c) chemical change **(d)** physical change

2. Which of the following is a reversible change? 1

(a) melting of wax **(b)** cooking egg
(c) rusting **(d)** burning of candle

3. Rusting needs: 1

(a) air and moisture **(b)** only air **(c)** only water **(d)** only sunlight

4. A change in which one or more new substances are formed is a: 1

(a) reversible change only **(b)** physical change
(c) change of state **(d)** chemical change

5. Which of the following is an irreversible change? 1

(a) melting ice **(b)** folding paper
(c) freezing water **(d)** ripening of fruit

6. Rust is chemically: 1

(a) hydrated iron oxide **(b)** iron carbonate
(c) iron sulphide **(d)** iron chloride

7. Melting of ice is a: 1

(a) chemical change **(b)** decomposition **(c)** burning **(d)** physical change

8. Which of the following is a chemical change? 1

(a) stretching a rubber band **(b)** cutting hair
(c) burning of magnesium ribbon **(d)** breaking a glass

9. Rusting can be prevented by: 1

(a) painting **(b)** keeping in moist air
(c) exposing to acid **(d)** leaving in water

10. Burning of paper is a: 1

(a) physical change **(b)** reversible change
(c) change of state **(d)** chemical change

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. What is a physical change? Give two examples. 2

12. What are the conditions for rusting? 2

13. What happens when baking soda is added to vinegar? 2

14. What is a chemical change? Give two examples. 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Classify as physical or chemical change: melting of wax, burning of wood, rusting, boiling of water. 3

16. Describe an activity to show a chemical change using vinegar and baking soda. 3

17. How can one identify a chemical change by a change in smell or taste? Give an example. 3

OR

Describe the activity to show that rusting needs air and water. 3

18. List three changes that are natural and three that are man-made. 3

OR

What happens when a candle burns? Identify the changes. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. Describe the differences between physical and chemical changes with five examples each. 5

OR

What are the indications of chemical change? Describe three activities. 5

20. Explain the process of rusting, its conditions and the methods of preventing it. 5

OR

Explain why some changes are reversible and others irreversible, giving three examples. 5

END OF QUESTION PAPER — Total: 40 Marks
