THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 1

Chapters 1–4: **The Problem of Choice (Economics), The Price Puzzle (Economics), Shaping the Earth's Surface (Geography), Atmosphere and Climate (Geography)** | Class 9 Social_Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 15 × 1 = 15

Q.	Correct Option	Brief Reasoning
1	**(c)** To decide for whom to produce	Avoids wasting resources
2	**(d)** of the free-rider problem	Public goods
3	**(a)** a sinkhole	Karst
4	**(c)** floods	Too much water
5	**(c)** 2 uniforms	10/5 = 2
6	**(b)** Queue for a scarce vaccine at a low fixed price	Shortage
7	**(a)** Oxbow lake	Cut-off meander
8	**(b)** clear sunny weather	Sinking air
9	**(d)** Competition leads to quality and innovation	Competition
10	**(b)** the law of supply	Direct relation
11	**(a)** It is thinner, about 5-7 km	Oceanic crust
12	**(a)** Sweat evaporates slowly into air already full of water vapour	High vapour
13	**(a)** A car assembly line	Heavy machinery
14	**(b)** cut price	Surplus clears
15	**(b)** hanging valley	Glacial landform

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
16	Resources are limited (1); More of one good means less of the other (1).	1+1
17	Rise in price of a substitute raises demand for the other (1); Rise in price of a complement lowers demand for the other (1).	1+1
18	Weathering does not move material (1); Erosion transports it (1).	1+1
19	Absorbs harmful UV (1); Protects living things (1).	1+1
20	To ensure fair play and safety (1); To provide public goods and infrastructure (1).	1+1

SECTION — C (Short Answer) — Answers — 5 × 3 = 15

Q.	Expected Answer / Value Points	Marks
21	Revenue is limited (1); Used on infrastructure and welfare (1); Each project has an opportunity cost (1).	1+1+1
22	More people raise quantity at each price (1); Curve shifts right (1); Price tends to rise (1).	1+1+1
23	Road building and mining (1); Unplanned construction (1); Poor drainage (1).	1+1+1
24	Land heats faster than sea (1); Low pressure over land, high over sea (1); Moist winds blow in (1).	1+1+1
	OR: 20 pots for 10 plates (1); One plate costs 2 pots (1); Using the same resources for plates means fewer pots (1).	1+1+1
25	Supply falls (1); Price rises (1); Quantity demanded falls (1).	1+1+1
	OR: Plates carry continents and oceans (1); Their movement changes positions (1); Boundaries form mountains and ridges (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
26	Cost of capital versus cost of labour (1); Level of technology (1); Nature of the product (1); Laws and regulation (1); Scale of demand (1).	1+1+1+1+1

	OR: At Rs 40 shortage pushes price up (1); At Rs 150 surplus pulls price down (1); At Rs 100 equilibrium (1); Price signals guide buyers and sellers (1); Market clears (1).	1+1+1+1+1
27	Upper course: V-valley, waterfall (1); Middle course: meanders, oxbow lakes (1); Lower course: delta, levees (1); Gradient and energy fall (1); Humans settle in plains (1).	1+1+1+1+1
	OR: Insolation affects temperature (1); Humidity and precipitation (1); Pressure gives wind (1); Wind speed categories (1); Affects climate (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 2

Chapters 1–4: **The Problem of Choice (Economics), The Price Puzzle (Economics), Shaping the Earth's Surface (Geography), Atmosphere and Climate (Geography)** | Class 9 Social_Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 15 × 1 = 15

Q.	Correct Option	Brief Reasoning
1	**(c)** Nakshatras - 27 divisions of the Moon's path	Traditional knowledge
2	**(d)** shift to machines	Cost of labour affects technique
3	**(a)** future price expectations	Expectation of lower prices
4	**(d)** an avalanche	Melting reduces friction
5	**(c)** carbon footprint	Less fuel
6	**(d)** Firms follow targets without competition	Weak incentive
7	**(a)** raise price	Shortage
8	**(d)** Strong vertical erosion on a steep slope	Steep gradient
9	**(d)** the land-sea temperature difference is smaller at night	Difference small
10	**(c)** water saving and soil health	Sustainability
11	**(b)** the law of demand	Inverse relation
12	**(d)** River erodes outer bank and deposits on inner bank	Slows and swings
13	**(b)** Cycling to school	Low emission
14	**(c)** essential spending	Needs
15	**(d)** fill rooms and maximise revenue	Revenue

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
16	Booking speed and rivals' tariffs (1); Festivals and days to arrival (1).	1+1
17	Act as natural barrier (1); Reduce sea winds (1).	1+1
18	Gravity is weak (1); Air is very thin (1).	1+1
19	Wheat falls from 70 to 40 (1); 30 kg given up (1).	1+1
20	It has no effect (1); Market price stays above the floor (1).	1+1

SECTION — C (Short Answer) — Answers — 5 × 3 = 15

Q.	Expected Answer / Value Points	Marks
21	Six seasons of two months (1); Based on the division of the year (1); Vasanta to Shishira (1).	1+1+1
22	Advanced technology encourages machines (1); Limited technology means manual work (1); E.g. garment factory automating cutting (1).	1+1+1
23	Some families will not pay (1); Hope others will fund it (1); Park not built; government must provide (1).	1+1+1
24	Store freshwater as ice (1); Melt feeds rivers (1); Support farming and drinking water (1).	1+1+1
	OR: Gases trap heat (1); Human activity raises levels (1); Planet warms (1).	1+1+1
25	Firms must win customers (1); Quality and price improve (1); Innovation is rewarded (1).	1+1+1
	OR: Ceiling: below equilibrium creates shortage (1); Floor: above equilibrium creates surplus (1); Both distort market (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
26	Resources fixed and fully used (1); Barley rises 0 to 100 as wheat falls 100 to 0 (1); Each step costs more wheat (1); A point beyond the curve is unattainable (1); Choice depends on needs (1).	1+1+1+1+1

	OR: Monopoly raises price (1); Hoarding creates shortage (1); Black marketing is illegal trade (1); Essential Commodities Act and regulators (1); Penalties and price caps (1).	1+1+1+1+1
27	Hot desert: physical (1); Humid area: chemical and biological (1); Cold area: frost action (1); Weathering makes soil (1); Erosion removes it (1).	1+1+1+1+1
	OR: Save energy and water (1); Public transport (1); Renewable energy (1); Plant trees (1); Policies like NMM and Mission Mausam (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 3

Chapters 1–4: **The Problem of Choice (Economics), The Price Puzzle (Economics), Shaping the Earth's Surface (Geography), Atmosphere and Climate (Geography)** | Class 9 Social_Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 15 × 1 = 15

Q.	Correct Option	Brief Reasoning
1	**(a)** afforestation and better drainage	Prevent slope failure
2	**(b)** monsoon forecasts help farmers plan	Planning
3	**(d)** Less of the other good	Trade-off
4	**(b)** high tariff with full rooms	Demand
5	**(d)** physical weathering	Expansion and contraction
6	**(b)** 4	0.04% of 10,000
7	**(b)** for whom to produce	Target consumers
8	**(d)** Lower incentive to produce	Reduced supply incentive
9	**(a)** ventifact	Sandblasting
10	**(b)** carbon dioxide	Greenhouse gas
11	**(c)** opportunity cost rises as more barley is produced	Increasing cost
12	**(d)** fall	Complements
13	**(c)** stack	Remains after arch collapse
14	**(d)** Moist sea winds blow towards the heated low-pressure land	Moisture laden
15	**(a)** a problem of choice due to scarcity	Alternatives with limited funds

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
16	Large day-night temperature range (1); Rocks expand and contract (1).	1+1
17	Livestock lost in water (1); Sheds and fodder destroyed (1).	1+1
18	Output follows targets, not demand (1); No competition to improve quality (1).	1+1
19	Lower price cuts profit (1); Producers supply less (1).	1+1
20	Ice widens and deepens it (1); Scrapes the sides and floor (1).	1+1

SECTION — C (Short Answer) — Answers — 5 × 3 = 15

Q.	Expected Answer / Value Points	Marks
21	Movement: together versus apart (1); Landforms: mountains versus ridges (1); Examples: Himalaya versus Mid-Atlantic Ridge (1).	1+1+1
22	Rising temperature (1); Melting glaciers and sea rise (1); More floods and droughts (1).	1+1+1
23	Shows maximum possible combinations (1); Shows the trade-off between them (1); Helps pick the best combination (1).	1+1+1
24	Sugar is an input and complement (1); Cost of sweets rises (1); Demand for sweets falls (1).	1+1+1
	OR: Many plate boundaries meet there (1); Subduction melts crust (1); Part of the Ring of Fire (1).	1+1+1
25	Large branches sway (1); Umbrellas hard to use (1); Higher than light breeze (1).	1+1+1
	OR: Sugarcane pays more now but uses much water (1); Millets save water and soil (1); Choices today affect the future (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
26	A to B: 10 kg wheat (1); B to C: 20 kg wheat (1); C to D: 30 kg wheat (1); D to E: 40 kg wheat (1); Opportunity cost rises with more barley (1).	1+1+1+1+1

	OR: At low price demand exceeds supply (1); At high price supply exceeds demand (1); Equilibrium where equal (1); Market forces move price (1); Graph intersection point E (1).	1+1+1+1+1
27	Convergent: fold mountains and volcanoes (1); Divergent: ridges and volcanoes (1); Transform: earthquakes (1); Ring of Fire (1); Himalaya and Mid-Atlantic examples (1).	1+1+1+1+1
	OR: Troposphere for life and weather (1); Stratosphere for ozone (1); Mesosphere for meteors (1); Thermosphere for radio and aurora (1); Exosphere for satellites (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
