CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 2

Chapter 6: **Resources and Development (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Which is true about reserves? 1

(a) Are in use **(b)** Are potential

(c) Cannot be used **(d)** Can be used with present technology

2. Which is a consequence of over-grazing? 1

(a) Heavier rainfall **(b)** Higher fertility **(c)** Denser forest **(d)** Soil erosion

3. Which resource planning step is 'survey, mapping and measurement'? 1

(a) Implementation **(b)** Sale **(c)** Inventory **(d)** Review

4. Assertion (A): Resource planning is essential in India. Reason (R): Resources are unevenly distributed across regions. 1

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

5. If a state's economy is mineral rich but poor in infrastructure, then 1

(a) no problem **(b)** no planning

(c) resource planning is needed **(d)** no mining

6. Water cut off from use due to lack of technology to split hydrogen and oxygen is 1

(a) reserve **(b)** stock **(c)** developed **(d)** potential

7. Which international body gave sustainable development a global agenda? 1

(a) WHO **(b)** IMF **(c)** UN **(d)** WTO

8. Assertion (A): Gully erosion makes land unfit. Reason (R): Deep channels cut fields into badlands. 1

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

9. Assertion (A): Mining causes land degradation in Jharkhand. Reason (R): Deforestation accompanies mining. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. A farmer ploughs along contour lines in the Western Ghats. This reduces 1

(a) crop yield **(b)** humidity
(c) rainfall **(d)** water run-off and soil loss

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 20–30 words each.

11. Why is community involvement vital for conservation? 2

12. Why is the idea 'resources are a function of human activities' important? 2

13. Why are forests important in soil conservation? 2

14. Why is the colonial legacy relevant to resource distribution? 2

SECTION — C (Short Answer Type) 4 × 3 = 12

Answer in about 40–60 words each.

15. Analyse the regional imbalance in resource development with examples. 3

16. Explain the idea of resource conservation in the Rio Summit. 3

17. Explain how forest cover prevents erosion. 3

OR

Explain how colonialism affected resource use. 3

18. Evaluate the importance of sustainable development for India. 3

OR

Explain how gully erosion affects farmers. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 100–150 words each.

19. Analyse soil types of India and match each with suitable crops and conservation measures. 5

OR

Evaluate the ownership classification of resources with examples. 5

20. Compare erosion types and conservation techniques. 5

OR

Analyse the impact of mining and overgrazing on land. 5

END OF QUESTION PAPER Total: 40 Marks
