CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 3

Chapter 18: **Development (Economics)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. A country has doubled its total income, but its population has tripled. Its per capita income has: 1

(a) doubled **(b)** stayed same **(c)** fallen **(d)** risen

2. A state has the highest per capita income but poorest health and education. Which statement is correct? 1

(a) it has the best HDI **(b)** it is developed on all counts

(c) it is developed only in terms of income **(d)** it has sustainable development

3. Consider: (i) Per capita income = total income / population; (ii) Rich countries are those with low per capita income; (iii) The Human Development Report is issued by the UNDP. Which are correct? 1

(a) (ii) and (iii) only **(b)** (i) and (iii) only

(c) (i) and (ii) only **(d)** (i), (ii), (iii)

4. Assertion (A): Average income is a useful measure for comparing countries. Reason (R): It tells us exactly how income is shared among the people. 1

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

5. Consider: (i) Renewable resources can be exhausted by overuse; (ii) Non-renewable resources can be replenished easily; (iii) Sustainable development aims to protect future generations. Which are correct? 1

(a) (ii) only **(b)** (i) and (iii) only

(c) (ii) and (iii) only **(d)** (i) and (ii) only

6. A proposal to build a dam gives power to cities but submerges tribal villages. The best approach is: 1

(a) secrecy

(b) ignore villagers

(c) cancel all dams

(d) consider all affected persons' goals and compensate/resettle

7. Why may a girl's developmental goal be different from her brother's? 1

(a) it is a coincidence

(b) goals are decided by income

(c) their opportunities and constraints differ

(d) they have identical aspirations

8. Assertion (A): Money alone cannot buy a pollution-free environment. Reason (R): Environment is a collective need requiring public action. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

9. Which of these is a valid reason for Kerala's high literacy despite its lower income? 1

(a) low population
(b) large factories
(c) well-functioning public educational facilities
(d) high income

10. In judging development, why is it wrong to rely only on averages? 1

(a) Averages are not numbers
(b) They are always zero
(c) They do not capture variation among people
(d) They are only for rich countries

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why are averages convenient yet misleading? 2

12. How might a developed country be unsustainable? 2

13. Why can't income distribution be ignored in development planning? 2

14. Why is the assumption that more income means more development questionable? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Explain how overuse of non-renewable resources affects future generations. 3

16. Why does the chapter ask whether current development is sustainable? 3

17. Compare the effect of two policies: one raising average income and another raising public facilities. 3

OR

Discuss why health and education should be public goals. 3

18. Explain with an example why development is a multi-dimensional concept. 3

OR

Why is the idea of 'development for all' difficult? 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. Compare economic and social indicators of development. 5

OR

Assess the statement 'Averages can be misleading'. 5

20. Explain with examples that development goals differ between individuals and between nations. 5

OR

Analyse how a country can improve its HDI without necessarily raising per capita income immediately. 5

END OF QUESTION PAPER — Total: 40 Marks
