3. A potter making clay pots in a small workshop is in the: 1

(a) secondary sector **(b)** service sector **(c)** tertiary sector **(d)** primary sector

4. Cotton worth Rs 20,000 becomes yarn worth Rs 30,000 and then cloth worth Rs 50,000 sold to consumers. GDP contribution is: 1

(a) Rs 30,000 **(b)** Rs 1,00,000 **(c)** Rs 50,000 **(d)** Rs 80,000

5. The rapid rise of the tertiary sector may not create enough good jobs because: 1

(a) many services such as small shops pay low wages
(b) all services are highly paid
(c) services do not need any workers
(d) farming has stopped

6. Under MGNREGA, a household that gets 100 days of work at Rs 250 per day (illustrative wage) earns: 1

(a) Rs 2,500 **(b)** Rs 1,000 **(c)** Rs 25,000 **(d)** Rs 250

7. Why is the unorganised sector said to need protection? 1

(a) It pays high wages
(b) Rules exist but are not enforced and pay is low
(c) It is registered with the government
(d) It has too many holidays

8. The government gives a minimum support price because it wants to: 1

(a) reduce food stock **(b)** close mandis
(c) raise ration shop prices **(d)** protect farmers from low market prices

9. Which of the following pairs is correctly matched? 1

(a) Banking - secondary sector **(b)** Cloth mill - tertiary sector
(c) Fishing - tertiary sector **(d)** Forestry - primary sector

10. Why is a car bought by a family counted in GDP but the steel sold to the car maker is not counted separately? 1

(a) Steel is an intermediate good whose value is part of the car

(b) Steel has no value

(c) The government does not buy steel

(d) Cars are made only in the primary sector

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why does service sector growth not guarantee high income for all its workers? 2

12. A casual worker has no paid leave and may lose the job without notice. Which sector is this and why? 2

13. A bakery buys flour worth Rs 20,000 and sells bread worth Rs 30,000 to consumers. What is the value added by the bakery? 2

14. Find the number of disguised unemployed: a family of 7 works on a farm that needs 5 workers. 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. A farmer sells wheat worth Rs 5,000 to a mill; the mill sells flour worth Rs 7,000 to a bakery; the bakery sells bread worth Rs 12,000. Find the GDP contribution and the value added at each stage. 3

16. How can tourism and education create employment in a rural area? 3

17. Explain how an organised-sector job may become unorganised in nature. 3

OR

In a year, an economy produces final goods and services of Rs 600 crore in the primary sector, Rs 1,000 crore in the secondary sector and Rs 2,400 crore in the tertiary sector. Find GDP and the share of the tertiary sector. 3

18. Explain how the MGNREGA helps rural households and the village together. 3

OR

Why is the public sector essential for health and education in poor regions? 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. Describe how the structure of production in India has changed. Why has the tertiary sector grown? 5

OR

What are the functions of the public sector? Explain with examples. 5

20. Explain why India's employment pattern has not changed like its GDP pattern. Mention its consequences. 5

OR

Compare the private and public sectors with respect to aims, ownership and examples. Why do we need both? 5
