Q.	Expected Answer / Value Points	Marks
21	Liberal middle classes demanded constitutions, parliaments and national unity in many countries (1); They were suppressed by conservative monarchies backed by the army (1)	1+1
22	Brutal repression, as at Jallianwala Bagh, shocked and angered Indians (1); Arrests and censorship hardened opposition to the colonial rule and increased support for the national cause (1).	1+1
23	Assembly-line production made goods like cars cheaper (1); Higher wages let workers buy them, linking mass production to mass consumption (1).	1+1
24	They adopted the fly shuttle to raise productivity (1); They shifted to mill yarn and specialised in fine cloth (1).	1+1
25	Print made scientific discoveries available to many readers (1); Scientists like Newton were widely read, and debates became public (1).	1+1

26	Soil supports plant growth and forms the basis of agriculture (1); It provides nutrients, water and a home to living things (1).	1+1

SECTION — C (Short Answer) — Answers

Q.	Expected Answer / Value Points	Marks
27	Middle classes gained a secure right to property and an end to birth privileges (1); Equality before law helped businessmen in trade and administration (1); Women were treated as minors and denied equal rights (any correct limitation)	1+1+1
28	The massacre of unarmed civilians at Jallianwala Bagh shocked the entire country (1); Martial law, floggings and humiliations like the crawling order in Punjab increased anger (1); Gandhi launched the Non-Cooperation Movement as a response, turning the anger into a mass movement (1).	1+1+1
29	The G-77 used collective strength to demand a fairer international order (1); The NIEO sought control over resources, fair prices and market access (1); Though limited in success, it increased their voice in global negotiations (1).	1+1+1
30	Indian industries used merchant capital from trade (1); Some funds came from banks and managing agencies (1); Profits from the war years were reinvested (1).	1+1+1
31	Luther's printed Theses and translated Bible spread the Reformation (1); Without print, his ideas might not have reached so many (1); Print also helped the Church spread its own views, so it was linked but not the sole cause (1).	1+1+1
	OR: Overgrazing strips the vegetation (1); Over-irrigation causes salinity (1); Excess chemicals damage soil life (1).	1+1+1
32	Laws like the 1972 Act protect species and habitats (1); Communities guard forests and sacred groves (1); Together they strengthen conservation (1).	1+1+1
	OR: People need water as a right (1); Disputes arise over who controls it (1); Fair access should be ensured for all (1).	1+1+1

SECTION — D (Long Answer) — Answers

6 × 5 = 30

Q.	Expected Answer / Value Points	Marks
33	It liberated Greece, Italy and Germany from foreign or fragmented rule (1); It spread ideas of liberty, citizenship and equality before law (1); It excluded minorities and women within nation-states (1); In the Balkans it fuelled hatred and war (1); It was exploited by the Great Powers, leading to the First World War (1)	1+1+1+1+1
34	Salt was a symbol which was consumed by all and taxed by the government, so it united all Indians (1); Gandhi and 78 volunteers marched 240 miles from Sabarmati to Dandi and broke the salt law on 6 April 1930 (1); Thousands then broke the salt law, boycotted foreign cloth, picketed liquor shops and refused to pay taxes (1); The government arrested the leaders, including Gandhi, and used harsh repression (1); The movement ended temporarily with the Gandhi-Irwin Pact in 1931, and it showed Indians could challenge the colonial state through mass action (1).	1+1+1+1+1
35	Exports and imports of India nearly halved between 1928 and 1934 (1); Wheat and jute prices fell and the peasants' debts rose as revenue remained fixed (1); Gold was sold and India became a net exporter of gold, helping Britain (1); Urban people with fixed incomes found prices lower, while industrialists sought protection (1); Rural distress strengthened mass participation in the Civil Disobedience Movement of 1930 (1).	1+1+1+1+1
36	The colonial government gave little tariff protection to Indian industry (1); British goods flooded the market and Indian industry grew slowly (1); The Swadeshi movement boosted demand for Indian cloth (1); The First World War gave Indian mills a wartime boom (1); Industrialists supported the national movement to gain protection (1).	1+1+1+1+1
	OR: The Church tried to control print through the Index (1); Luther challenged the Church with printed Theses (1); Enlightenment authors challenged the monarchy (1); In India, the press criticised colonial rule (1); Authorities responded with censorship, but print continued to spread dissent (1).	1+1+1+1+1
37	Resources are unevenly distributed in India, so planning at national, state, regional and local levels is necessary (1); The first stage of planning is identification and inventory of resources through surveying, mapping and qualitative and quantitative estimation (1); The second stage is evolving a planning structure endowed with appropriate technology, skill and institutional set-up, and the third is matching resource development plans with the overall national development plans (1); Regional examples show the imbalance: Jharkhand, Chhattisgarh and Madhya Pradesh are rich in minerals but poor in infrastructure, Arunachal Pradesh has water but lacks infrastructure, and Rajasthan has solar and wind energy but little water (1); Planning has helped to some extent, but regional imbalance persists, so it must be backed by investment, technology and fair sharing of benefits (1).	1+1+1+1+1
	OR: The Indian Wildlife (Protection) Act of 1972 banned hunting, protected habitats, restricted trade in wildlife and listed protected species (1); It set up national parks and sanctuaries and provided for all-India lists of protected species, with Project Tiger launched in 1973 (1); Project Tiger created tiger reserves such as Corbett, Sunderbans, Bandhavgarh, Sariska, Manas and Periyar (1); It has helped tigers survive in protected habitats, but poaching, shrinking habitat and conflict with villagers continue (1); Effectiveness therefore depends on enforcement and community cooperation (1).	1+1+1+1+1

38	Multipurpose projects store water behind dams for irrigation, hydroelectric power, water supply and flood control, as at Bhakra-Nangal on the Sutlej and Hirakud on the Mahanadi (1); Jawaharlal Nehru called dams the temples of modern India because they promised agricultural and industrial growth (1); The costs include displacement of people and submergence of forests and farmland, as in the Narmada project (1); Sedimentation reduces the storage capacity, and dams alter river flow and block fish movement (1); Dams may also cause floods downstream and inter-state disputes, so careful planning and resettlement are needed (1).	1+1+1+1+1
	OR: The Green Revolution of the 1960s introduced HYV seeds, chemical fertilisers and assured irrigation, raising wheat and rice output and making India self-sufficient in foodgrains (1); The gains were concentrated in Punjab, Haryana and western Uttar Pradesh, where irrigation was available (1); Other regions and crops such as pulses lagged behind, widening regional disparities (1); Small farmers could not afford inputs, so inequality grew (1); Heavy use of chemicals and groundwater has harmed soil and water, so sustainability is questioned (1).	1+1+1+1+1
