ANSWER KEY & MARKING SCHEME SET 1

Chapters 6–9: **Resources and Development (Geography), Forest and Wildlife Resources (Geography), Water Resources (Geography), Agriculture (Geography)** | Class 10 Social_Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 15 × 1 = 15

Q.	Correct Option	Brief Reasoning
1	**(d)** rows of trees planted to check wind	Wind check
2	**(b)** natural home of an organism	Place
3	**(a)** underground tanks	Rajasthan
4	**(c)** Rabi oilseed	Winter
5	**(c)** iron	Iron oxide
6	**(a)** Himalayan yew	Anti-cancer
7	**(d)** water	Efficient
8	**(a)** monsoon	June
9	**(d)** land degradation	Problem
10	**(b)** the government, private individuals and communities	Others
11	**(d)** irrigation, hydroelectricity and flood control	Uses
12	**(a)** coarse grains	Nutritious
13	**(b)** sustainable use of resources	Planning
14	**(b)** variety of life	Life
15	**(d)** Sutlej	Punjab

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
16	Regur is another name for black soil (1); It is formed from lava rock and is ideal for cotton (1).	1+1
17	Wildlife means wild animals, birds, insects and plants that live in natural habitats (1); It is part of the biodiversity of a region (1).	1+1
18	Water scarcity is a shortage of usable water for people's needs (1); It is caused by overuse, pollution and uneven distribution (1).	1+1
19	The Green Revolution used HYV seeds, fertilisers and irrigation to raise foodgrain output (1); It began in the 1960s in Punjab and Haryana (1).	1+1
20	Soil erosion is the removal of the top layer of soil by wind or water (1); It reduces fertility and damages land (1).	1+1

SECTION — C (Short Answer) — Answers — 5 × 3 = 15

Q.	Expected Answer / Value Points	Marks
21	Potential resources (1); Developed resources (1); Stock and reserves (1).	1+1+1
22	Corbett National Park in Uttarakhand (1); Sunderbans in West Bengal (1); Manas in Assam, Periyar in Kerala or Bandhavgarh in MP (1).	1+1+1
23	Tankas (1); Johads (1); Khadins, kuls and rooftop harvesting (1).	1+1+1
24	Rice (1); Maize and jowar (1); Cotton, jute and groundnut (1).	1+1+1
	OR: It is made of fine clay and retains moisture (1); It cracks when dry and is sticky when wet (1); It is best for cotton (1).	1+1+1
25	Food and medicines (1); Tourism and income (1); Scientific research and ecological balance (1).	1+1+1
	OR: Growing population (1); Over-use and pollution (1); Industrialisation and unequal distribution (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks

26	Resources by origin are biotic and abiotic (1); By exhaustibility, renewable and non-renewable (1); By ownership, individual, community, national and international (1); By status, potential, developed, stock and reserves (1); Examples include forests, minerals, solar energy and coal (1).	1+1+1+1+1
	OR: India has about 8 per cent of the world's recorded species (1); It has over 47,000 plant species (1); It has many kinds of mammals, birds and reptiles (1); Its forests, wetlands and mountains provide habitats (1); Biodiversity is a great natural wealth (1).	1+1+1+1+1
27	India has only 4 per cent of the world's water but 16 per cent of its people (1); Demand has increased with population (1); Irrigation and industry use large quantities (1); Groundwater is over-extracted (1); Pollution reduces usable water (1).	1+1+1+1+1
	OR: Primitive subsistence farming uses simple tools on small plots (1); Intensive subsistence farming is practised where land is scarce (1); Commercial farming grows crops for sale with modern inputs (1); Plantation farming grows a single crop on a large estate (1); Examples are jhumming, rice in Odisha, wheat in Punjab and tea in Assam (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapters 6–9: **Resources and Development (Geography), Forest and Wildlife Resources (Geography), Water Resources (Geography), Agriculture (Geography)** | Class 10 Social_Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 15 × 1 = 15

Q.	Correct Option	Brief Reasoning
1	**(a)** pulses	World
2	**(b)** fertile	River-made
3	**(d)** deforestation	Loss
4	**(a)** rooftop harvesting	Meghalaya
5	**(a)** high-yielding variety (HYV) seeds	Seeds
6	**(b)** can be used to satisfy our needs	Use
7	**(d)** a wide variety of plants and animals	Habitat
8	**(b)** river	Barrier
9	**(a)** summer months	Short season
10	**(a)** the present as well as future generations	Principle
11	**(b)** an endangered species	Predator
12	**(c)** man-made waterway	Irrigation
13	**(d)** improve soil fertility and yield	Inputs
14	**(c)** alluvial	40%
15	**(c)** Uttarakhand	Tiger reserve

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
16	Afforestation is planting trees where there were none before (1); It restores forest cover and checks erosion (1).	1+1
17	A johad is a small earthen check dam that stores monsoon run-off (1); It helps recharge groundwater in Rajasthan (1).	1+1
18	Pulses are leguminous crops that give protein (1); Tur, urad, moong and gram are examples (1).	1+1
19	Contour ploughing is ploughing along the contour lines of a slope (1); It slows down the flow of water and reduces soil erosion (1).	1+1
20	A sanctuary is a protected area where wild animals are safe from hunting (1); Some human activities like grazing may be permitted (1).	1+1

SECTION — C (Short Answer) — Answers — 5 × 3 = 15

Q.	Expected Answer / Value Points	Marks
21	Minimum support price (1); Kisan Credit Card (1); Crop insurance (1).	1+1+1
22	Coal (1); Petroleum (1); Iron ore and other minerals (1).	1+1+1
23	Normal species (1); Endangered species and vulnerable species (1); Rare, endemic and extinct species (1).	1+1+1
24	Sringaverapura near Allahabad (1); Dams and lakes of Chandragupta Maurya's time (1); Bhopal Lake and Hauz Khas tank (1).	1+1+1
	OR: Groundnut (1); Mustard (1); Sesamum, castor or linseed (1).	1+1+1
25	Solar energy (1); Wind energy (1); Water and forests (1).	1+1+1
	OR: Black buck (1); Indian rhino (1); Crocodile or Indian wild ass (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
26	Alluvial soil is the most widespread in India (1); It is deposited by rivers like the Ganga, Indus and Brahmaputra (1); It has two types, bhangar (old) and khadar (new) (1); It is rich in potash and lime (1); It suits sugarcane, wheat and rice (1).	1+1+1+1+1

	OR: Project Tiger was launched in 1973 (1); Tiger numbers had fallen from 55,000 to 1,827 (1); It created tiger reserves such as Corbett, Sunderbans and Manas (1); Poaching and habitat loss threatened tigers (1); It has helped to protect tigers and forests (1).	1+1+1+1+1
27	Tankas store roof rainwater in Bikaner, Phalodi and Barmer (1); Johads store run-off and recharge groundwater (1); Khadins keep soil moisture for crops (1); These are cheap and suit dry regions (1); Villagers maintain them together (1).	1+1+1+1+1
	OR: Wheat is a Rabi crop (1); It needs a cool growing season (1); Bright sunshine is needed at ripening (1); It grows in the Ganga-Satluj plains (1); UP, Punjab and Haryana are main producers (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapters 6–9: **Resources and Development (Geography), Forest and Wildlife Resources (Geography), Water Resources (Geography), Agriculture (Geography)** | Class 10 Social_Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 15 × 1 = 15

Q.	Correct Option	Brief Reasoning
1	**(d)** Gujarat	Narmada
2	**(c)** Karnataka	Kodagu
3	**(a)** hilly and mountainous areas with adequate rainfall	Hilly
4	**(d)** extinct species	Lost
5	**(b)** Odisha	Mahanadi
6	**(d)** cash crop	Sugar source
7	**(b)** biotic resources	Living
8	**(c)** animals and plants	Fauna and flora
9	**(c)** Karnataka	Mysuru
10	**(d)** oilseed	Kharif
11	**(c)** renewable resource	Natural flow
12	**(b)** protected forest patches	Cultural
13	**(c)** deposit of silt	In reservoirs
14	**(c)** Rabi crop	Winter
15	**(a)** the removal of top soil by water or wind	Loss

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
16	Hydroelectric power is electricity produced from the energy of falling water (1); Dams like Bhakra-Nangal generate it (1).	1+1
17	Millets are coarse grains (1); Jowar, bajra and ragi are millets (1).	1+1
18	Stock is the material that could satisfy needs but cannot be used for lack of technology (1); For example, hydrogen in water as a source of energy (1).	1+1
19	An extinct species is no longer found in the areas where it lived (1); Examples are the Asiatic cheetah and pink head duck (1).	1+1
20	Rainwater harvesting is collecting and storing rainwater (1); It recharges groundwater (1).	1+1

SECTION — C (Short Answer) — Answers — 5 × 3 = 15

Q.	Expected Answer / Value Points	Marks
21	It is a 200-year-old system in Meghalaya (1); Bamboo pipes carry spring water to plants (1); Water is supplied drop by drop and little is wasted (1).	1+1+1
22	Wheat (1); Mustard (1); Gram, barley or peas (1).	1+1+1
23	It forms in hot, humid areas with heavy rain (1); It is leached and poor in nutrients (1); It suits tea, coffee and cashew (1).	1+1+1
24	They absorb carbon dioxide (1); They influence rainfall (1); They keep the air clean and moderate temperature (1).	1+1+1
	OR: People are displaced (1); Forests and farmland are submerged (1); Livelihoods and ecology are damaged (1).	1+1+1
25	Sugar (1); Gur or jaggery (1); Molasses (1).	1+1+1
	OR: Contour ploughing (1); Terrace farming and strip cropping (1); Shelter belts and afforestation (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
26	Laterite soil forms in hot, humid areas with alternating wet and dry seasons (1); Heavy rain leaches away nutrients (1); It lacks humus (1); It needs manure and fertilisers (1); It is suitable for tea, coffee and cashew (1).	1+1+1+1+1

	OR: In Alwar, villagers protected a forest as Bhairodev Dakav 'Sonchuri' (1); Sacred groves are protected for religious reasons (1); The Chipko movement saved trees in the Himalayas (1); JFM involves villagers and officials together (1); Local people thus conserve forests (1).	1+1+1+1+1
27	Ancient India had dams, lakes and canals (1); Sringaverapura had floodwater harvesting (1); Bhopal Lake was built in the eleventh century (1); Hauz Khas tank was made in the fourteenth century (1); These supplied water for farms and cities (1).	1+1+1+1+1
	OR: Sugarcane is a cash crop (1); It needs a hot, humid climate (1); It grows in Uttar Pradesh, Maharashtra and Karnataka (1); It gives sugar, gur and molasses (1); India is the second largest producer after Brazil (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
