THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 1

Chapters 10–12: **Minerals and Energy Resources (Geography), Manufacturing Industries (Geography), Lifelines of National Economy (Geography)** | Class 10 Social_Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 15 × 1 = 15

Q.	Correct Option	Brief Reasoning
1	**(d)** manganese	Used in ferro-manganese
2	**(d)** promote software exports	Provide infrastructure for IT
3	**(d)** Kochi	Natural harbour
4	**(b)** light, strong and a good conductor	Combines lightness with strength
5	**(d)** availability of raw cotton, port facilities and a warm humid climate	Raw material and markets
6	**(a)** flat land and high population density	Easy construction
7	**(a)** limestone	It is a calcium carbonate rock
8	**(b)** sugar mills in Maharashtra	Owned by producers
9	**(d)** backwater and ayurvedic tourism	Natural attractions
10	**(d)** transport of coal is cheaper	Bulky fuel is costly to move
11	**(c)** many deaths and permanent disabilities	Lack of safety
12	**(d)** gives door-to-door service and is flexible	Roads connect even small places
13	**(c)** copper	Copper belt
14	**(c)** old and outdated machinery and irregular power supply	Low productivity
15	**(a)** pipelines	Continuous flow

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
16	India is a tropical country with abundant sunshine (1); Solar power is renewable and suits remote villages (1).	1+1
17	They give assured buyers of cane (1); Farmers share the profit (1).	1+1
18	A deficit drains foreign exchange (1); A surplus strengthens the economy (1).	1+1
19	Mining destroys forests and land (1); It pollutes air, water and soil (1).	1+1
20	Imported raw material is easy to bring (1); Exports are easy by sea, as at Visakhapatnam (1).	1+1

SECTION — C (Short Answer) — Answers — 5 × 3 = 15

Q.	Expected Answer / Value Points	Marks
21	Limestone occurs in sedimentary rocks (1); It is the raw material for cement (1); It is used in smelting iron (1).	1+1+1
22	Industries use finite resources and pollute (1); Sustainable practice protects health (1); It ensures long-term growth (1).	1+1+1
23	Ticketless travel (1); Theft and damage to property (1); Old technology and overcrowding (1).	1+1+1
24	The Odisha-Jharkhand belt has Mayurbhanj and Kendujhar (1); Chhattisgarh has Bailadila (1); Karnataka has Kudremukh (1).	1+1+1
	OR: NMCC was set up in 2006 (1); It aims to raise manufacturing's share in GDP to 25 per cent (1); It focuses on competitiveness (1).	1+1+1
25	They carry oil and gas efficiently (1); No traffic or loading problems (1); Costs are low once built (1).	1+1+1
	OR: Peat has lowest carbon (1); Lignite and bituminous follow (1); Anthracite has the highest carbon and quality (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
26	Conventional sources are coal, oil, gas and hydel (1); They are widely used but finite except hydel (1); Non-conventional are solar, wind, biogas, tidal (1); They are renewable and eco-friendly (1); They are costlier to set up (1).	1+1+1+1+1

	OR: Public: government owned (1); Private: individuals owned (1); Joint: state and private (1); Cooperative: producers own (1); Each has aims and examples (1).	1+1+1+1+1
27	Problems include theft, ticketless travel and congestion (1); Old tracks slow trains (1); Solutions are modernisation and security (1); More lines and wagons are needed (1); Better management helps (1).	1+1+1+1+1
	OR: Thermal power uses coal and gas (1); Hydel uses falling water (1); Nuclear uses uranium (1); Solar and wind are renewable (1); Each has limits such as pollution, displacement, risk or site (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 2

Chapters 10–12: **Minerals and Energy Resources (Geography), Manufacturing Industries (Geography), Lifelines of National Economy (Geography)** | Class 10 Social_Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 15 × 1 = 15

Q.	Correct Option	Brief Reasoning
1	**(a)** coal	A fossil fuel
2	**(d)** recycling water and rainwater harvesting	Conserve water
3	**(c)** Visakhapatnam	Andhra Pradesh
4	**(c)** Nagercoil to Madurai	Tamil Nadu
5	**(c)** the process consumes a very large amount of electricity	Energy intensive
6	**(a)** Paradip	Deep-water port
7	**(a)** natural gas	Low carbon dioxide emission
8	**(a)** iron and steel	Bulky raw materials
9	**(b)** it reaches even distant villages	Largest postal network in the world
10	**(a)** CNG	Compressed natural gas
11	**(a)** high costs and limited availability of coking coal	Low labour productivity
12	**(d)** Kerala	Population density is high
13	**(b)** thorium for atomic energy	Thorium is a nuclear fuel
14	**(a)** competition from synthetic substitutes	Synthetic fibres compete
15	**(c)** gems and jewellery	Also software

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
16	They link distant regions (1); They carry goods and people, binding the nation (1).	1+1
17	Coal was formed in particular geological basins (1); It is concentrated in the Gondwana basins of eastern India (1).	1+1
18	Recycling reduces fresh water use (1); It lowers pollution of rivers (1).	1+1
19	Countries depend on each other's goods (1); This builds ties and joint interests (1).	1+1
20	India has large reserves of high-grade iron ore (1); Exports earn foreign exchange, especially to Japan and South Korea (1).	1+1

SECTION — C (Short Answer) — Answers — 5 × 3 = 15

Q.	Expected Answer / Value Points	Marks
21	Basic chemicals include sulphuric acid and fertilisers (1); Organic chemicals include petrochemicals (1); Others make paints, soaps and drugs (1).	1+1+1
22	It links the four metros (1); It reduces time and cost (1); It helps industries and trade (1).	1+1+1
23	Geothermal energy comes from the heat of the earth (1); Tidal energy uses ocean tides in the Gulf of Khambhat (1); Both are renewable but limited to special sites (1).	1+1+1
24	Cotton uses cotton fibre and jute uses jute fibre (1); Cotton is in Maharashtra and Gujarat, jute near the Hugli (1); Both are agro-based and face competition (1).	1+1+1
	OR: Ports load and unload cargo (1); They handle exports and imports (1); They link inland and world markets (1).	1+1+1
25	India has abundant sunshine (1); Photovoltaic cells convert it to power (1); It is useful in rural and remote areas (1).	1+1+1
	OR: Farmers who grow cane own the mills (1); Profits are shared (1); This assures them of a market (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
26	Manufacturing creates jobs (1); It earns exports (1); It modernises farming (1); It reduces poverty (1); It adds to GDP (1).	1+1+1+1+1

	OR: Tourism earns foreign exchange (1); It creates jobs (1); It promotes crafts (1); It can harm the environment (1); It needs planning (1).	1+1+1+1+1
27	Iron ore is of haematite and magnetite types (1); Odisha, Chhattisgarh and Karnataka have major deposits (1); Manganese is in Odisha (1); Bauxite is in Odisha, copper in Madhya Pradesh (1); These support steel and aluminium industries (1).	1+1+1+1+1
	OR: Old technology (1); Power shortage (1); Competition (1); Pollution (1); Poor infrastructure (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

MASTERMIND

THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 3

Chapters 10–12: **Minerals and Energy Resources (Geography), Manufacturing Industries (Geography), Lifelines of National Economy (Geography)** | Class 10 Social_Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 15 × 1 = 15

Q.	Correct Option	Brief Reasoning
1	**(b)** malleable, ductile and a good conductor of electricity	Wires and electronics
2	**(b)** reducing exports	Manufacturing raises exports
3	**(a)** trade deficit	Unfavourable balance
4	**(b)** solar energy	Non-conventional sources are renewable
5	**(d)** the clustering of industries around an urban centre sharing services	Banking, transport and labour
6	**(d)** crude oil	India imports petroleum
7	**(b)** availability of water and suitable relief	Flow and head of water
8	**(b)** do not burn large quantities of fuel	Knowledge based
9	**(b)** rugged terrain	Hills are difficult to build on
10	**(d)** iron ore	Exported through Visakhapatnam
11	**(c)** reduce the cost of transporting bulky raw materials	Weight-losing raw materials
12	**(b)** remote border areas	Strategic roads
13	**(a)** contains iron	Ferrous means iron-containing
14	**(c)** joint sector	Owned by government and private shareholders
15	**(b)** television	Mass medium

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
16	They provide jobs to educated youth (1); They also create related services (1).	1+1
17	Rural roads link villages to markets and towns (1); Farmers sell produce and get services (1).	1+1
18	Limestone is used as a flux in the blast furnace (1); It removes impurities from iron ore (1).	1+1
19	They raise crop yields (1); They support the Green Revolution (1).	1+1
20	Roads can go almost anywhere, even villages (1); Vehicles can be used for any distance and loads (1).	1+1

SECTION — C (Short Answer) — Answers — 5 × 3 = 15

Q.	Expected Answer / Value Points	Marks
21	Roads, rail and ports open markets (1); Industries locate in well-connected areas (1); Remote areas lag (1).	1+1+1
22	Mumbai High is offshore in the Arabian Sea (1); Gujarat has Ankleshwar (1); Assam has Digboi and Naharkatiya (1).	1+1+1
23	Hot water from plants is discharged into rivers (1); It lowers oxygen (1); Aquatic life suffers (1).	1+1+1
24	Personal communication is between individuals (1); Mass communication reaches many (1); Examples are letters and TV (1).	1+1+1
	OR: Mica occurs in Jharkhand, Andhra Pradesh and Rajasthan (1); It is an insulator (1); It is used in electrical industry (1).	1+1+1
25	Parks give infrastructure to firms (1); Software exports bring foreign exchange (1); They create jobs (1).	1+1+1
	OR: Trade needs transport, trade workers and services (1); Exports create factory jobs (1); Tourism adds jobs (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
26	Pipelines carry crude and gas (1); They reach refineries (1); Flow is continuous (1); Costs are low (1); They ensure energy supply (1).	1+1+1+1+1

	OR: Oil is a liquid fuel used in transport (1); Natural gas is cleaner and used as CNG (1); Oil is mostly imported (1); Gas is found with oil (1); Both are fossil fuels and limited (1).	1+1+1+1+1
27	Raw materials are iron ore, coking coal, limestone (1); Plants are at Bhilai, Durgapur, Rourkela, Bokaro (1); Visakhapatnam is port based (1); Problems are costs and coking coal (1); SAIL markets steel (1).	1+1+1+1+1
	OR: Roads are flexible and door-to-door (1); Railways carry heavy goods cheaply (1); Pipelines move oil and gas (1); Waterways are cheapest for bulk (1); Air is the fastest but costly (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
