THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 1

Chapter 2: **Understanding the Weather** | Class 7 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** time and place	It changes from hour to hour
2	**(b)** 23 degrees C	(30 + 16)/2
3	**(c)** wind direction	Pilots use it
4	**(a)** troposphere	Closest to the ground
5	**(d)** rain gauge	Records depth in mm
6	**(c)** humidity	Water vapour in the air
7	**(a)** temperature	Others are rainfall, humidity, pressure, wind
8	**(b)** water 5 mm deep would collect on level ground	Depth of rain
9	**(b)** 100 per cent	Saturated
10	**(a)** precipitation	Water returns to Earth

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	State of the atmosphere at a time and place (1); Changes quickly (1).	1+1
12	(36 + 24)/2 (1) (1); 30 degrees C (1) (1).	1+1
13	Wind vane (1); Anemometer (1).	1+1
14	Temperature and rainfall (1); Humidity and wind (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Weather is short-term (1); Climate is long-term average (1); Weather changes daily (1).	1+1+1
16	Has thermometers and gauges (1); Records data daily (1); Used for forecasts (1).	1+1+1
17	Hail is balls of ice (1); Sleet is frozen rain (1); Hail forms in storms (1).	1+1+1
	OR: Temperature - thermometer (1); Rainfall - rain gauge (1); Pressure - barometer (1).	1+1+1
18	Decide sowing (1); Plan irrigation (1); Protect crops (1).	1+1+1
	OR: Water evaporates (1); Vapour rises and cools (1); Condenses into droplets (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Temperature (1); Pressure (1); Wind (1); Humidity (1); Precipitation (1).	1+1+1+1+1
	OR: Set up in 1875 (1); Forecasts (1); Warnings (1); Farmers (1); Fishermen (1).	1+1+1+1+1
20	Max and min (1); Range (1); Mean (1); Example (1); Units (1).	1+1+1+1+1
	OR: Time scale (1); Examples (1); Elements (1); Changes (1); Importance (1).	1+1+1+1+1

Mistakes to avoid:

- Mixing up the instruments: **thermometer** - temperature, **rain gauge** - rainfall, **barometer** - pressure, **wind vane** - direction.
- Using the wrong formula for mean daily temperature; it is **(maximum + minimum) / 2**, not the difference.
- Writing that wind blows from low to high pressure; it blows from **high to low pressure**.
- Confusing weather with climate; weather is the **day-to-day** state of the atmosphere, climate is the long-term pattern.
- Forgetting the units: rainfall in **mm**, temperature in **degrees C**, pressure in **millibars**.
- Stating that clothes dry faster in high humidity; they dry faster when humidity is **low**.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 2: **Understanding the Weather** | Class 7 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** barometer	Units are millibars or hectopascals
2	**(c)** low	Air can take more vapour
3	**(b)** hail	Formed in storm clouds
4	**(a)** 1013 millibars	Standard pressure
5	**(a)** higher humidity	Evaporation from the sea
6	**(a)** humidity	Measured by a hygrometer
7	**(d)** decreases	Less air above
8	**(d)** has many instruments to record weather	Used by meteorologists
9	**(c)** thermometer	Often in degrees Celsius
10	**(a)** there is less oxygen in the thin air	Low air pressure

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Atmospheric pressure (1); In millibars (1).	1+1
12	Instrument to measure rain (1); Gives depth in mm (1).	1+1
13	Water falling from the sky (1); Rain, snow, hail (1).	1+1
14	Water vapour in the air (1); Measured by hygrometer (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Air heats unevenly (1); Pressure differs (1); Air moves from high to low (1).	1+1+1
16	Warnings of storms (1); Avoid going to sea (1); Protect boats (1).	1+1+1
17	Evaporation from the sea (1); More vapour (1); Air stays moist (1).	1+1+1
	OR: Decreases with height (1); Less air above (1); Breathing becomes difficult (1).	1+1+1
18	Range 14 degrees C (1); Mean 21 degrees C (1); Working shown (1).	1+1+1
	OR: Shows direction (1); Shows speed roughly (1); Used at airports (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Air pressure (1); High and low (1); Direction of wind (1); Examples (1); Instruments (1).	1+1+1+1+1
	OR: Farmers (1); Fishermen (1); Pilots (1); Cities (1); Disaster management (1).	1+1+1+1+1
20	Thermometer (1); Barometer (1); Rain gauge (1); Anemometer (1); Hygrometer (1).	1+1+1+1+1
	OR: Heating (1); Evaporation (1); Cooling (1); Condensation (1); Precipitation (1).	1+1+1+1+1

Mistakes to avoid:

- Mixing up the instruments: **thermometer** - temperature, **rain gauge** - rainfall, **barometer** - pressure, **wind vane** - direction.
- Using the wrong formula for mean daily temperature; it is **(maximum + minimum) / 2**, not the difference.
- Writing that wind blows from low to high pressure; it blows from **high to low pressure**.
- Confusing weather with climate; weather is the **day-to-day** state of the atmosphere, climate is the long-term pattern.
- Forgetting the units: rainfall in **mm**, temperature in **degrees C**, pressure in **millibars**.
- Stating that clothes dry faster in high humidity; they dry faster when humidity is **low**.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 2: **Understanding the Weather** | Class 7 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** 1875	It gives weather forecasts
2	**(b)** daily range of temperature	Max minus min
3	**(d)** high pressure to low pressure	Pressure difference causes wind
4	**(a)** when to sow and harvest	Better planning
5	**(b)** (maximum + minimum) / 2	The average of extremes
6	**(d)** direction of the wind	Points into the wind
7	**(a)** fishermen to stay ashore	Saves lives
8	**(d)** 14 degrees C	32 - 18
9	**(c)** wind speed	Rotating cups
10	**(b)** meteorology	Done by meteorologists

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Air is thin (1); Less oxygen (1).	1+1
12	34 - 22 (1) (1); 12 degrees C (1) (1).	1+1
13	Movement of air (1); From high to low pressure (1).	1+1
14	Weather forecasts (1); Warnings of storms (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Amount of vapour compared with maximum (1); 100 per cent means saturated (1); Clothes dry slowly when high (1).	1+1+1
16	Ants moving eggs (1); Pine cones closing (1); Red sky (1).	1+1+1
17	To see patterns (1); To forecast (1); To warn people (1).	1+1+1
	OR: Funnel collects rain (1); Measuring jar records depth (1); Reading in mm (1).	1+1+1
18	Temperature falls (1); Pressure falls (1); Air becomes thin (1).	1+1+1
	OR: Measures pressure (1); Falling pressure means storm (1); Rising means fair weather (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Meaning (1); Measurement (1); Relative humidity (1); Drying clothes (1); Coastal areas (1).	1+1+1+1+1
	OR: Temperature (1); Pressure (1); Oxygen (1); Snow (1); Example (1).	1+1+1+1+1
20	Rain (1); Snow (1); Hail (1); Sleet (1); Dew and fog (1).	1+1+1+1+1
	OR: Instruments (1); Readings (1); Time (1); Recording (1); Use (1).	1+1+1+1+1

Mistakes to avoid:

- Mixing up the instruments: **thermometer** - temperature, **rain gauge** - rainfall, **barometer** - pressure, **wind vane** - direction.
- Using the wrong formula for mean daily temperature; it is **(maximum + minimum) / 2**, not the difference.
- Writing that wind blows from low to high pressure; it blows from **high to low pressure**.
- Confusing weather with climate; weather is the **day-to-day** state of the atmosphere, climate is the long-term pattern.
- Forgetting the units: rainfall in **mm**, temperature in **degrees C**, pressure in **millibars**.
- Stating that clothes dry faster in high humidity; they dry faster when humidity is **low**.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
