THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 1

Chapter 3: **Climates of India** | Class 7 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** climate	Usually averaged over decades
2	**(a)** topography or relief	Shapes climate
3	**(a)** rain shadow	Leeward side
4	**(d)** revolves around the Sun with a tilted axis	Tilt and revolution
5	**(d)** cold winds of Central Asia	Act as a barrier
6	**(a)** Tamil Nadu coast	Retreating monsoon
7	**(c)** six	Vasanta, Grishma, Varsha, Sharad, Hemanta, Shishira
8	**(a)** microclimate	e.g. a park cooler than street
9	**(a)** Mawsynram	In Meghalaya
10	**(c)** Varsha	Associated with the monsoon

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Long-term pattern of weather (1); Of a region over years (1).	1+1
12	Climate of a small area (1); e.g. a garden or street (1).	1+1
13	Calm centre (1); Cloudless (1).	1+1
14	Vasanta, Grishma, Varsha (1); Sharad, Hemanta, Shishira (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Near Equator: rays vertical (1); Near poles: slanting (1); Warmer near Equator (1).	1+1+1
16	Onset in Kerala in June (1); Covers India by July (1); Withdraws from Sept (1).	1+1+1
17	Alpine in Himalaya (1); Arid in Thar (1); Tropical wet in west coast (1).	1+1+1
	OR: Temperature falls with height (1); Hill stations cool (1); Snow on peaks (1).	1+1+1
18	Winter winds (1); Rain to Tamil Nadu coast (1); Retreating monsoon (1).	1+1+1
	OR: Concrete and asphalt (1); Less greenery (1); Higher temperatures (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Latitude (1); Altitude (1); Relief (1); Distance from sea (1); Winds (1).	1+1+1+1+1
	OR: Sea (1); Mountains (1); Winds (1); Rainfall (1); Temperature range (1).	1+1+1+1+1
20	Meaning (1); Cause (1); Onset and withdrawal (1); Effects (1); Importance (1).	1+1+1+1+1
	OR: Himalaya (1); Thar (1); West coast (1); Temperature (1); Rainfall (1).	1+1+1+1+1

Mistakes to avoid:

- Writing the rate of fall of temperature with height wrongly; it is about **6.5 degrees C per 1,000 m**.
- Saying the sea raises the temperature range; coastal places have a **smaller** range because of the sea's moderating effect.
- Confusing the windward side (heavy rain) with the **rain shadow** (leeward side, little rain).
- Naming the wrong coast for cyclones; the **eastern coast** (Bay of Bengal) is more cyclone-prone.
- Forgetting that the monsoon first reaches **Kerala in early June** and that monsoon comes from the Arabic **mausim**.
- Listing the wrong number of traditional seasons; India recognised **six ritus**, not four.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 3: **Climates of India** | Class 7 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** warmer than its surroundings	Concrete traps heat
2	**(b)** much less rainfall than normal	Leads to drought
3	**(a)** nearly vertically	More direct heating
4	**(c)** mausim	Meaning season
5	**(b)** eye	Cloudless
6	**(a)** decreases	About 6.5 degrees C per 1,000 m
7	**(a)** land and ocean	Seasonal reversal
8	**(a)** warm tropical seas	Needs warm water
9	**(a)** altitude	Higher location
10	**(c)** low pressure	Draws in moist winds

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	A city warmer than surrounding areas (1); Concrete traps heat (1).	1+1
12	Force for disaster rescue (1); Rescue and relief (1).	1+1
13	Latitude (1); Altitude (1).	1+1
14	Seasonal reversing winds (1); Bring rain to India (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Sea moderates (1); Coast: small range (1); Inland: large range (1).	1+1+1
16	Agriculture (1); Rivers and water (1); Festivals (1).	1+1+1
17	Very hot (1); Dry (1); Loo (1).	1+1+1
	OR: Windward gets heavy rain (1); Leeward is dry (1); Western Ghats example (1).	1+1+1
18	Drought (1); Crop loss (1); Rising prices (1).	1+1+1
	OR: Mumbai near sea (1); Nagpur inland (1); Different ranges (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Summer (1); Monsoon (1); Autumn (1); Winter (1); Spring (1).	1+1+1+1+1
	OR: Meaning (1); Examples (1); Causes (1); Effects (1); Remedies (1).	1+1+1+1+1
20	Alpine (1); Subtropical (1); Arid (1); Tropical wet (1); Semi-arid (1).	1+1+1+1+1
	OR: Heat waves (1); Loo (1); Cold waves (1); Health (1); Precautions (1).	1+1+1+1+1

Mistakes to avoid:

- Writing the rate of fall of temperature with height wrongly; it is about **6.5 degrees C per 1,000 m**.
- Saying the sea raises the temperature range; coastal places have a **smaller** range because of the sea's moderating effect.
- Confusing the windward side (heavy rain) with the **rain shadow** (leeward side, little rain).
- Naming the wrong coast for cyclones; the **eastern coast** (Bay of Bengal) is more cyclone-prone.
- Forgetting that the monsoon first reaches **Kerala in early June** and that monsoon comes from the Arabic **mausim**.
- Listing the wrong number of traditional seasons; India recognised **six ritus**, not four.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 3: **Climates of India** | Class 7 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** eastern coast	Bay of Bengal is more cyclone-prone
2	**(c)** moderator of temperature	Reduces extremes
3	**(a)** early June	Onset
4	**(c)** NDRF	National Disaster Response Force
5	**(c)** smaller range of temperature	Moderating effect
6	**(a)** mid-July	Spreads north
7	**(c)** loo	Cause heat waves
8	**(c)** a large range of temperature	Far from the sea
9	**(c)** heavy rainfall	Windward side
10	**(c)** Rajasthan, Punjab and Haryana	North-west plains

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Hot dry loo winds (1); May-June (1).	1+1
12	Higher altitude (1); Temperature falls with height (1).	1+1
13	Much less rain (1); Leads to drought (1).	1+1
14	Sea moderates (1); Smaller range (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Block cold winds (1); Cause monsoon rain (1); Snow for rivers (1).	1+1+1
16	Warm sea (1); Low-pressure area (1); Spinning winds (1).	1+1+1
17	Aravallis do not stop winds (1); Monsoon branch passes (1); Low humidity (1).	1+1+1
	OR: Land heats faster (1); Low pressure over land (1); Moist winds from sea (1).	1+1+1
18	Winds and floods (1); Warnings (1); Shelters (1).	1+1+1
	OR: Rescue (1); Relief (1); Training (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Formation (1); Eye (1); Effects (1); Warnings (1); NDRF (1).	1+1+1+1+1
	OR: Kharif (1); Irrigation (1); Droughts (1); Floods (1); Prices (1).	1+1+1+1+1
20	Windward (1); Leeward (1); Rain shadow (1); Rivers (1); Vegetation (1).	1+1+1+1+1
	OR: Clothing (1); Housing (1); Food (1); Occupations (1); Festivals (1).	1+1+1+1+1

Mistakes to avoid:

- Writing the rate of fall of temperature with height wrongly; it is about **6.5 degrees C per 1,000 m**.
- Saying the sea raises the temperature range; coastal places have a **smaller** range because of the sea's moderating effect.
- Confusing the windward side (heavy rain) with the **rain shadow** (leeward side, little rain).
- Naming the wrong coast for cyclones; the **eastern coast** (Bay of Bengal) is more cyclone-prone.
- Forgetting that the monsoon first reaches **Kerala in early June** and that monsoon comes from the Arabic **mausim**.
- Listing the wrong number of traditional seasons; India recognised **six ritus**, not four.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
