THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 1

Chapter 3: **Climates of India** | Class 7 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** Rajasthan is inland and dry, Kerala is near the sea	Moderation by sea
2	**(c)** air sinks in the centre	Descending air
3	**(b)** higher altitude	Temperature drops with height
4	**(a)** Mumbai is near the sea	Sea moderates
5	**(d)** they lose the warm sea energy	Energy supply cut
6	**(a)** it first hits Kerala and moves north	Pattern
7	**(b)** moist monsoon winds are forced up and cool	Relief rain
8	**(b)** it has warmer and shallow waters	Favourable conditions
9	**(b)** they cool and add moisture	Transpiration
10	**(a)** rain shadow of the Western Ghats	Leeward

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Sea effect (1); Small range (1).	1+1
12	Lose warm sea (1); Friction (1).	1+1
13	Uneven rainfall (1); Monsoon variation (1).	1+1
14	Winds rise and cool (1); Relief rain (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Land heats in summer (1); Low pressure over north India (1); Winds from sea bring rain (1).	1+1+1
16	Based on observation (1); Linked to life (1); Festivals and food (1).	1+1+1
17	Crops chosen by rain (1); Season (1); Irrigation (1).	1+1+1
	OR: Agriculture (1); Hydropower (1); Water supply (1).	1+1+1
18	Foothills warm (1); Mid-hills temperate (1); High alpine cold (1).	1+1+1
	OR: Erratic rain (1); Heavy bursts (1); Drought (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Latitude (1); Altitude (1); Sea (1); Combined effect (1); Examples (1).	1+1+1+1+1
	OR: Meaning (1); Causes (1); Effects (1); Green cover (1); Cool roofs (1).	1+1+1+1+1
20	Heating of land (1); Low pressure (1); Onset (1); Rain distribution (1); Effects (1).	1+1+1+1+1
	OR: Floods (1); Droughts (1); Heat waves (1); Cyclones (1); Adaptation (1).	1+1+1+1+1

Mistakes to avoid:

- Writing the rate of fall of temperature with height wrongly; it is about **6.5 degrees C per 1,000 m**.
- Saying the sea raises the temperature range; coastal places have a **smaller** range because of the sea's moderating effect.
- Confusing the windward side (heavy rain) with the **rain shadow** (leeward side, little rain).
- Naming the wrong coast for cyclones; the **eastern coast** (Bay of Bengal) is more cyclone-prone.
- Forgetting that the monsoon first reaches **Kerala in early June** and that monsoon comes from the Arabic **mausim**.
- Listing the wrong number of traditional seasons; India recognised **six ritus**, not four.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 3: **Climates of India** | Class 7 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** early warnings, shelters and strong houses	Preparedness
2	**(d)** India	Seasonal wet and dry
3	**(d)** seasonal reversal of winds	Changes direction
4	**(c)** cooler air under a tree canopy	Small local differences
5	**(a)** a region receiving little rain behind mountains	Leeward side
6	**(c)** moist and rain-bearing	Blows from sea to land
7	**(c)** concrete and buildings hold heat	Urban heat island
8	**(a)** monsoon branches fail to bring much rain	Low rain
9	**(c)** from land to sea	High pressure over land
10	**(b)** drought and crop loss	Poor rain

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Clear skies (1); Heat escapes (1).	1+1
12	Withdrawal in October (1); Rain to Tamil Nadu (1).	1+1
13	Rain shadow (1); Leeward (1).	1+1
14	Cooler (1); Snow (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Windward (1); Leeward (1); Example Ghats (1).	1+1+1
16	Satellite tracking (1); IMD alerts (1); Evacuation (1).	1+1+1
17	Dams (1); Cropping plans (1); Disaster plans (1).	1+1+1
	OR: Distance from sea (1); Winds (1); Altitude and latitude (1).	1+1+1
18	North-east monsoon (1); Winds from the Bay of Bengal (1); Moisture (1).	1+1+1
	OR: Heavy rain (1); Humid (1); Moderate range (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Thar (1); Ghats (1); Himalaya (1); Rainfall (1); Temperature (1).	1+1+1+1+1
	OR: Vasanta (1); Grishma (1); Varsha (1); Sharad (1); Hemanta and Shishira (1).	1+1+1+1+1
20	Formation (1); Eye (1); Winds (1); Storm surge (1); Warnings (1).	1+1+1+1+1
	OR: Relief (1); Winds (1); Distance (1); Monsoon variability (1); Examples (1).	1+1+1+1+1

Mistakes to avoid:

- Writing the rate of fall of temperature with height wrongly; it is about **6.5 degrees C per 1,000 m**.
- Saying the sea raises the temperature range; coastal places have a **smaller** range because of the sea's moderating effect.
- Confusing the windward side (heavy rain) with the **rain shadow** (leeward side, little rain).
- Naming the wrong coast for cyclones; the **eastern coast** (Bay of Bengal) is more cyclone-prone.
- Forgetting that the monsoon first reaches **Kerala in early June** and that monsoon comes from the Arabic **mausim**.
- Listing the wrong number of traditional seasons; India recognised **six ritus**, not four.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 3: **Climates of India** | Class 7 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** India's seasonal variety	Traditional knowledge
2	**(b)** north-east monsoon	Retreating monsoon
3	**(b)** floods and landslides	Heavy rain
4	**(a)** weaker rainfall	Warm Pacific
5	**(a)** agriculture and water supply depend on it	Dependence
6	**(b)** winter	December-January
7	**(d)** green roofs and trees	Planning
8	**(d)** loo	Causes heatstroke
9	**(c)** monsoon winds meet the hills	Relief rain
10	**(b)** stop them and make them shed rain in the plains	Barrier

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Cool the air (1); Add moisture (1).	1+1
12	Agriculture (1); Water supply (1).	1+1
13	Concrete (1); Less green (1).	1+1
14	Evacuation (1); Save lives (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Crop loss (1); Disease (1); Migration (1).	1+1+1
16	Warm clothes (1); Houses with sloping roofs (1); Food (1).	1+1+1
17	Hot summers (1); Cold winters (1); Monsoon rain (1).	1+1+1
	OR: Cool (1); Moisture (1); Reduce heat island (1).	1+1+1
18	Light clothes (1); Thick-walled houses (1); Water storage (1).	1+1+1
	OR: Monsoon: seasonal (1); Cyclone: storm (1); Effects differ (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Himalayas (1); Western Ghats (1); Aravallis (1); Rain shadow (1); Winds (1).	1+1+1+1+1
	OR: Ladakh housing (1); Kerala housing (1); Food (1); Clothes (1); Occupations (1).	1+1+1+1+1
20	Agriculture (1); Festivals (1); Food (1); Houses (1); Songs (1).	1+1+1+1+1
	OR: Forecast (1); Warnings (1); NDRF (1); Relief (1); Community role (1).	1+1+1+1+1

Mistakes to avoid:

- Writing the rate of fall of temperature with height wrongly; it is about **6.5 degrees C per 1,000 m**.
- Saying the sea raises the temperature range; coastal places have a **smaller** range because of the sea's moderating effect.
- Confusing the windward side (heavy rain) with the **rain shadow** (leeward side, little rain).
- Naming the wrong coast for cyclones; the **eastern coast** (Bay of Bengal) is more cyclone-prone.
- Forgetting that the monsoon first reaches **Kerala in early June** and that monsoon comes from the Arabic **mausim**.
- Listing the wrong number of traditional seasons; India recognised **six ritus**, not four.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
