CLASS 7 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 2

Chapter 3: **Climates of India** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Which place has the largest annual range among the following? 1

(a) Thiruvananthapuram **(b)** Mumbai
(c) Delhi **(d)** Chennai

2. Why is rainfall prediction difficult for India? 1

(a) it is fixed
(b) it has no pattern
(c) the monsoon is influenced by many global factors
(d) it is steady

3. A village sees repeated drought and floods in successive years. This is a sign of 1

(a) permanent desert **(b)** cold climate
(c) variability of monsoon **(d)** no monsoon

4. A forecast says 'cyclone landfall expected at coast near Puri'. Which state is affected? 1

(a) Gujarat **(b)** Punjab **(c)** Odisha **(d)** Kerala

5. Which action reduces the impact of drought? 1

(a) rainwater harvesting and drought-resistant crops
(b) cutting forests
(c) more paddy
(d) more borewells only

6. Which is the strongest reason for planting trees in cities? 1

(a) they lower temperatures and reduce heat islands
(b) they block rain
(c) they stop wind
(d) they bring snow

7. The 'break in monsoon' refers to 1

(a) start of monsoon **(b)** cyclone
(c) end of monsoon **(d)** a dry spell during the rainy season

8. How might a rise in sea level affect coastal climate and settlement? 1

(a) flooding and salt intrusion **(b)** cooler climate
(c) more snow **(d)** no effect

9. **Assertion (A):** The south-west monsoon first reaches Kerala in early June. 1
Reason (R): The word monsoon comes from the Arabic word mausim, meaning season.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** Places near the sea have a larger range of temperature than inland places. 1
Reason (R): The sea has a moderating effect on temperature.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. What is meant by 'monsoon variability'? 2

12. Why are hill roofs sloped? 2

13. Why do heat waves affect the poor more? 2

14. Why is the east coast more prone to cyclones? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Compare the climate of two cities at the same latitude with different altitude. 3

16. Analyse how coastal vegetation and wetlands support climate resilience. 3

17. Discuss the climate adaptation methods used by farmers. 3

OR

Examine how climate change may alter cyclone frequency. 3

18. Evaluate the role of ICT in weather alerts. 3

OR

Explain how rain-shadow areas can be made more productive. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** In June, monsoon clouds arrive at the Kerala coast and bring heavy rain to Kochi. As the clouds cross the Western Ghats and move east, the winds reach Bengaluru and the Deccan interior with much less moisture, and rainfall there is low. 5
(i) Which winds bring rain to Kerala?
(ii) In which month do they first arrive in Kerala?
(iii) What name is given to the dry side of the Western Ghats?
(iv) Explain why the Deccan interior gets less rain.

20. Discuss how urban planning can reduce heat islands. 5

OR

Interpret rainfall and temperature data for a station and describe its climate. 5

END OF QUESTION PAPER — Total: 40 Marks
