THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 6 — SCIENCE · MEDIUM LEVEL CHAPTER TEST SET 2

Chapter 2: **Diversity in the Living World** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Medium level: multi-step questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. The roots of water plants like hydrilla are: 1

(a) small or reduced **(b)** very long **(c)** thick tap roots **(d)** woody

2. Which pair of animals can both fly? 1

(a) cow and horse **(b)** fish and frog **(c)** snake and lizard **(d)** crow and bat

3. A plant with a main root and branches likely has leaves with: 1

(a) parallel venation **(b)** no veins

(c) reticulate venation **(d)** straight veins

4. The stems of aquatic plants like lotus are: 1

(a) buried deep in soil **(b)** long and flexible

(c) short and woody **(d)** thick and hard

5. Which of these plants has a weak stem that spreads along the ground? 1

(a) rose **(b)** neem **(c)** mango **(d)** pumpkin

6. Which animal-habitat pair is correct? 1

(a) camel: desert **(b)** fish: forest floor

(c) whale: grassland **(d)** penguin: desert

7. Which of these features helps a fish stay balanced and move? 1

(a) horns **(b)** fins **(c)** claws **(d)** beak

8. Which of these plants has a fibrous root system? 1

(a) maize **(b)** radish **(c)** mango **(d)** carrot

9. Which animal is adapted to climbing trees? 1

(a) monkey **(b)** whale **(c)** fish **(d)** frog

10. Why are the nostrils of a crocodile at the top of its snout? 1

(a) to hunt on land

(b) to smell better

(c) so it can breathe while the body is under water

(d) for beauty

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 20–30 words each.

11. Why do ducks have webbed feet? 2

12. Why are plants called producers? 2

13. How do the teeth of herbivores differ from those of carnivores? 2

14. Explain why there is a hump in a camel. 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Compare herbivores and carnivores with respect to teeth, food and example. 3

16. Explain with examples two ways in which animals protect themselves. 3

17. Why do animals need different kinds of habitats? Give two examples. 3

OR

Explain how sparrow, duck and eagle differ in their beaks and feet. 3

18. Why do plants with tap roots survive better in dry places? 3

OR

Describe three ways in which humans depend on biodiversity. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. Explain the classification of animals by food habits and also by habitat with two examples each. 5

OR

Compare a fish, a bird and a snake on body covering and movement. 5

20. Describe how plants are adapted to deserts, water and mountains. 5

OR

Describe the features of animals that live in trees and in burrows. 5

END OF QUESTION PAPER — Total: 40 Marks
