THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 6 — SCIENCE · MEDIUM LEVEL UNIT TEST SET 3

Chapters 1–4: **The Wonderful World of Science, Diversity in the Living World, Mindful Eating: A Path to a Healthy Body, Exploring Magnets** | RBSE Pattern | Session 2026–27

Time: 2 Hours Name: _____ Roll No.: _____ **Maximum Marks: 50**

General Instructions:

1. All questions are compulsory.
2. Q. 1–15 are Objective Type (1 mark each).
3. Q. 16–20 are Very Short Answer Type (2 marks each).
4. Q. 21–25 are Short Answer Type (3 marks each).
5. Q. 26–27 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 24–25 and Q. 26–27.
7. Write the question number before each answer.
8. Medium level: multi-step questions.

SECTION — A (Objective Type Questions) 15 × 1 = 15

Choose the correct option and write it in your answer book.

1. Why should vegetables be cooked for a short time? 1

(a) to remove all water **(b)** to make them harder
(c) to retain vitamins **(d)** to remove colour

2. A steel spoon is attracted but a copper coin is not. This shows: 1

(a) copper is stronger **(b)** all metals are magnetic
(c) no metal is magnetic **(d)** only some metals are magnetic

3. A student changes both the amount of water and sunlight in an experiment on plant growth. Why is the test unfair? 1

(a) water is harmful
(b) sunlight is not needed
(c) it is too easy
(d) two things changed at once, so the cause is unclear

4. Which of these is NOT a basis for classifying animals? 1

(a) what they eat **(b)** the name given by a person
(c) where they live **(d)** body covering

5. Eating while watching TV is not mindful as: 1

(a) it is nice **(b)** we may eat too much without noticing
(c) it improves digestion **(d)** it saves time

6. Which of these is the safest place to keep a bar magnet? 1

(a) in a box with a keeper **(b)** near a mobile phone
(c) in the sun **(d)** on a stove

7. Which of the following correctly orders the steps? 1

(a) experiment, observation, conclusion, hypothesis
(b) hypothesis, conclusion, observation, experiment
(c) conclusion, experiment, hypothesis, observation
(d) observation, hypothesis, experiment, conclusion

8. A leaf has veins running from base to tip, parallel to one another. The plant has probably: 1

(a) no roots **(b)** tap root
(c) fibrous roots **(d)** aerial roots only

9. A person feels tired and looks pale. A likely deficiency is that of: 1

(a) vitamin D **(b)** vitamin C **(c)** iodine **(d)** iron

10. A bar magnet suspended by a thread rests with its marked end pointing north. That end is its: 1

(a) north-seeking pole **(b)** centre
(c) neutral **(d)** south pole

11. A thermometer is used by a nurse to: 1

(a) see the heart **(b)** measure body temperature
(c) measure height **(d)** measure weight

12. The roots of water plants like hydrilla are: 1

(a) woody **(b)** thick tap roots **(c)** very long **(d)** small or reduced

13. Why is it better to eat whole fruits than just fruit juice with added sugar? 1

(a) juice has more fibre than fruit
(b) whole fruits have fibre and no added sugar
(c) whole fruits contain no sugar
(d) juice contains all the vitamins of the fruit

14. Which sentence is correct? 1

(a) a magnet attracts plastic
(b) a magnet must touch iron
(c) a magnet can attract iron without touching it
(d) a magnet attracts wood

15. Which of these is a prediction? 1

(a) Ice is white.
(b) The ice cube melted.
(c) An ice cube is cold.
(d) The ice cube will melt faster on a metal plate.

SECTION — B (Very Short Answer Type) 5 × 2 = 10

Answer in about 20–30 words each.

16. Why is it better to eat different coloured vegetables? 2

17. Which is stronger, a magnet's pull at the pole or at the middle? Explain. 2

18. A student says 'The Sun goes around the Earth because it moves across the sky'. Is this a good conclusion? Why? 2

19. Explain why polar bears have white fur. 2

20. Why is sprouting beneficial? 2

SECTION — C (Short Answer Type) 5 × 3 = 15

Answer in about 40–60 words each.

21. Plan how to include all nutrients in a school lunch box. 3

22. Explain how a compass can be made with a needle, a cork and water. 3

23. Explain how the observation of a wet road may lead to different inferences. 3

24. Why do deserts have few plants and animals? Give three reasons. 3

OR

How can you plan meals for a person with low calcium? 3

25. Why does a suspended bar magnet oscillate before settling? 3

OR

How does the use of instruments improve the study of nature? 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

26. Explain how a hypothesis is formed, tested and accepted or rejected. Use the example of 'Plants need sunlight'. 5

OR

Explain how leaves and roots differ between a mango tree and a grass plant. 5

27. Describe an experiment to test for starch and fat in potato and butter and record the result. 5

OR

Explain with reasons: 5

(a) a magnet attracts iron pins through paper;

(b) a magnet does not attract copper coins;

(c) magnets are stored in pairs.

END OF QUESTION PAPER — Total: 50 Marks
