THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 6 — SCIENCE · NCERT-TYPE UNIT TEST SET 3

Chapters 5–8: **Measurement of Length and Motion, Materials Around Us, Temperature and its Measurement, A Journey through States of Water** | RBSE Pattern | Session 2026–27

Time: 2 Hours Name: _____ Roll No.: _____ **Maximum Marks: 50**

General Instructions:

1. All questions are compulsory.
2. Q. 1–15 are Objective Type (1 mark each).
3. Q. 16–20 are Very Short Answer Type (2 marks each).
4. Q. 21–25 are Short Answer Type (3 marks each).
5. Q. 26–27 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 24–25 and Q. 26–27.
7. Write the question number before each answer.
8. NCERT-type: questions in the style of the textbook examples and exercises.

SECTION — A (Objective Type Questions) 15 × 1 = 15

Choose the correct option and write it in your answer book.

1. Before using a clinical thermometer, it should be: 1

(a) covered in cloth **(b)** heated
(c) frozen **(d)** shaken to bring mercury below 35 °C

2. Clothes dry faster on a windy day because: 1

(a) wind carries away water vapour **(b)** wind adds water
(c) wind cools them **(d)** wind heats them

3. A tree appears to move backward to a person in a moving bus because: 1

(a) the road is moving **(b)** the wind is blowing
(c) the tree is moving **(d)** the person is moving

4. Which of the following is a natural material? 1

(a) wool **(b)** glass bottle **(c)** plastic **(d)** nylon

5. Which is a good conductor of heat? 1

(a) plastic **(b)** wood **(c)** cork **(d)** aluminium

6. A situation of excess rain leading to submerged land is: 1

(a) famine **(b)** flood **(c)** drizzle **(d)** drought

7. 1 centimetre equals: 1

(a) 1 millimetre **(b)** 100 millimetres **(c)** 1000 millimetres **(d)** 10 millimetres

8. Materials that allow only some light to pass through are: 1

(a) hard **(b)** translucent **(c)** opaque **(d)** transparent

9. Our sense of touch is not a reliable way to judge temperature because: 1

(a) skin is a thermometer **(b)** it measures time
(c) it is always correct **(d)** it can be misleading

10. The change of water vapour into liquid water is: 1

(a) evaporation **(b)** freezing **(c)** condensation **(d)** melting

11. If the end of a ruler is broken, we should: 1

(a) use the ruler upside down
(b) start measuring from a full mark like 1 cm and subtract it
(c) measure from the middle of the ruler
(d) start from the broken end and read directly

12. Which of these would sink in water? 1

(a) cork **(b)** dry leaf **(c)** thermocol **(d)** iron nail

13. A clinical thermometer should not be held by the: 1

(a) stem **(b)** bulb **(c)** top **(d)** scale

14. Clothes dry slowly on a humid day because: 1

(a) the Sun is bright **(b)** the wind is strong
(c) air already has much water vapour **(d)** air is dry

15. The motion of a spinning top about its own axis is: 1

(a) rotational **(b)** random **(c)** linear **(d)** periodic only

SECTION — B (Very Short Answer Type) 5 × 2 = 10

Answer in about 20–30 words each.

16. Why are cooking vessels made of metals? 2

17. Why does a wet cloth dry faster on a sunny, windy day? 2

18. Convert 2.5 m into centimetres. 2

19. Differentiate between transparent and opaque materials. 2

20. Why should we not trust our sense of touch to find temperature? 2

SECTION — C (Short Answer Type) 5 × 3 = 15

Answer in about 40–60 words each.

21. State three precautions while using a laboratory thermometer. 3

22. Explain the water cycle in three steps. 3

23. What are the problems with measuring using body parts? 3

24. How would you test whether a material is a good conductor of heat? 3

OR

What happens when hot water is mixed with cold water? 3

25. Why does the level of water in an open vessel fall with time? 3

OR

Explain how the measurement units developed in ancient times. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 100–150 words each.

26. Explain how to measure the length of a curved line and the circumference of a bottle using a thread and scale. 5

OR

Describe an activity to classify materials into transparent, translucent and opaque. 5

27. Describe the experiment to find the temperature of a liquid with a laboratory thermometer. **5**

OR

Explain the three states of water and the changes between them. **5**

END OF QUESTION PAPER **Total: 50 Marks**
