THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 7 — SCIENCE · NCERT-TYPE CHAPTER TEST SET 2

Chapter 9: **Life Processes in Plants** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. NCERT-type: questions in the style of the textbook examples and exercises.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. The relation between Rhizobium and legume plant is an example of: 1

(a) symbiosis **(b)** parasitism **(c)** saprotrophy **(d)** predation

2. The oxygen we breathe is mostly from: 1

(a) photosynthesis **(b)** respiration of plants

(c) digestion **(d)** burning

3. The raw materials for photosynthesis are: 1

(a) carbon dioxide and water **(b)** starch and oxygen

(c) oxygen and glucose **(d)** nitrogen and water

4. Loss of water vapour from the leaves is called: 1

(a) digestion **(b)** respiration **(c)** photosynthesis **(d)** transpiration

5. Plants respire through: 1

(a) flowers only **(b)** stomata and roots

(c) fruits only **(d)** leaves only

6. Which of the following is needed for opening of stomata? 1

(a) veins **(b)** flowers **(c)** guard cells **(d)** roots

7. The food prepared by the plants is: 1

(a) protein only **(b)** glucose (starch) **(c)** salt **(d)** fat only

8. Transpiration helps in: 1

(a) making food **(b)** cooling the plant and pulling water up

(c) making seeds **(d)** making flowers

9. Roots take in oxygen from the: 1

(a) air spaces in soil **(b)** leaves

(c) sunlight **(d)** flowers

10. Stomata remain mostly closed during: 1

(a) morning only **(b)** noon only **(c)** day **(d)** night

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 20–30 words each.

11. Name the modes of nutrition other than autotrophic in plants. 2

12. Why are plants called producers? 2

13. What is the role of chlorophyll? 2

14. What are stomata? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Explain how water and minerals move up from the roots to the leaves. 3

16. How does Rhizobium help in the nitrogen needs of plants? 3

17. Explain the importance of transpiration. 3

OR

Explain how plants take in carbon dioxide and release oxygen. 3

18. Explain the term guard cells and their role. 3

OR

Why does the leaf of a plant kept in the dark not give a starch test? 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. Describe the different modes of nutrition in plants with examples. 5

OR

Describe how nitrogen gets from the air to the plants, with the role of bacteria. 5

20. Describe the transport of water, minerals and food in plants. 5

OR

Explain how plants make proteins and fats from glucose and minerals. 5

END OF QUESTION PAPER — Total: 40 Marks
