THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 9 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 2

Chapter 4: **Atmosphere and Climate (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Rainfall, humidity and wind speed recorded at a weather station each day describe the 1

(a) soils of the place **(b)** geology of the place

(c) climate of the place **(d)** weather of the place

2. The south-west monsoon begins to withdraw first from 1

(a) north-west India (Rajasthan) **(b)** Kerala

(c) Tamil Nadu **(d)** Assam

3. The south-west monsoon first reaches the Indian mainland over 1

(a) Punjab **(b)** Kerala **(c)** Assam **(d)** Rajasthan

4. If CO2 levels continue to increase, long-term effect is likely to be 1

(a) global warming **(b)** no change **(c)** global cooling **(d)** more oxygen

5. Assertion (A): Weak embankments and building near rivers worsened the Punjab floods. Reason (R): Human activities can increase flood damage. 1

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

6. Assertion (A): Land breeze blows from land to sea at night. Reason (R): Land cools faster than the sea after sunset. 1

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

7. Which choice produces the highest transport emissions per person for a 10 km trip? 1

(a) Travelling by electric metro **(b)** Cycling

(c) Walking **(d)** Driving alone in a petrol car

8. Which activity contributes MOST to a household carbon footprint? 1

(a) Planting trees **(b)** Walking

(c) Frequent use of petrol car **(d)** Switching off lights

9. Why do Himalayan states have autumn and spring in addition to the four IMD seasons? 1

(a) they receive no sunlight in winter
(b) their altitude gives them a different local climate
(c) they lie on the equator
(d) they are in the rain shadow of the Western Ghats

10. A drought year is most likely when 1

(a) winds are strong **(b)** the monsoon is heavy
(c) the monsoon is weak **(d)** there is no winter

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. How does knowledge of nakshatras support farming? 2

12. Why do coastal places have mild climate? 2

13. Why should carbon footprint be measured? 2

14. State two reasons for the Punjab floods that were avoidable. 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Why is climate change an issue for health and agriculture? 3

16. Why does Indian farming still rely on seasonal knowledge like the ritus? 3

17. Discuss why disaster preparedness matters even with good forecasts. 3

OR

A table shows pressure at sea level 1013, at 5 km about 540 units. Explain why. 3

18. Explain how greenhouse gases and aerosols alter weather. 3

OR

Explain why people living along the Satluj, Beas and Ravi were severely affected in 2025. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. Examine the mechanism of the Indian monsoon and why it matters. 5

OR

Discuss the effect of altitude on temperature, pressure and life using atmosphere layers. 5

20. Explain how the elements of weather vary and interact to produce climate. 5

OR

Explain how traditional knowledge and modern science together improve understanding of rainfall. 5

END OF QUESTION PAPER — Total: 40 Marks
