THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 1

Chapter 4: **The Age of Industrialisation (History)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** decline of many Indian handloom weavers	Machine-made cloth was cheaper
2	**(c)** British planters	The chapter mentions Parsi, Marwari and Bengali businessmen
3	**(c)** iron ore, coal and water were available nearby	Raw materials were close by
4	**(a)** machines were costly and demand was seasonal	Cheap labour made machines unattractive
5	**(d)** eliminate middlemen and supervise weavers	They controlled supply of cloth and prevented dealing with other buyers
6	**(d)** supply British mills	Raw cotton exports rose from the early nineteenth century
7	**(c)** there was an abundance of cheap labour and demand was seasonal	Owners avoided costly machines
8	**(c)** shipping, mining and plantations	He invested in many fields before his enterprises collapsed
9	**(d)** cotton and jute	Textiles led factory growth
10	**(c)** favoured British manufactured goods	Indian industry had little tariff protection

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	They forced weavers to sell at low prices set by the Company (1); They punished weavers who dealt with other buyers (1).	1+1
12	Machines were costly and demand for many goods was seasonal (1); Hand labour was cheaper and more flexible, so owners used machines selectively (1).	1+1
13	It appointed gomasthas to supervise weavers and prevent them from selling to other merchants (1); It gave advances and thereby bound the weavers to the Company (1).	1+1
14	Weavers were paid low prices and lost freedom to sell (1); They left villages or refused advances to resist the Company's control (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	During the First World War Manchester mills made army goods and imports into India fell (1); Indian mills got orders for army cloth, jute bags and others, and expanded (1); Industrial output and profits rose, and new factories were set up (1).	1+1+1
16	Demand for many goods was seasonal, e.g., in London's printing and gas works (1); Hiring extra hand labour in the busy season was cheaper (1); Machines would lie idle in off seasons (1).	1+1+1
17	Machines were costly to install and repair, so owners used them where profit was clear (1); Cheap labour in Britain made hand work attractive (1); Seasonal demand and varied goods favoured hand labour (1).	1+1+1
	OR: Capital was limited and machinery had to be imported (1); Manchester imports were cheap and tariff protection was little (1); The colonial government favoured British manufactures (1).	1+1+1
18	The movement to boycott foreign cloth increased demand for Indian mill cloth (1); Mills in Bombay and Ahmedabad expanded (1); Industrialists supported the national movement (1).	1+1+1
	OR: Indian merchants such as Tagore and Petit earned fortunes from trade with China, exporting raw cotton and opium (1); Their capital was later invested in shipping, mills and industries (1); Thus Indian industrial pioneers came from trading communities (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	During the First World War Manchester mills produced war goods (1); Imports into India fell (1); Indian mills supplied cloth and jute bags for the army (1); New factories were set up and profits rose (1); Swadeshi had earlier raised the demand for Indian cloth (1).	1+1+1+1+1

	OR: Merchants in proto-industrial networks built trade links and capital (1); Rural labour got skills in textile work (1); Merchants later invested in factories (1); Commercial networks and markets were already formed (1); This helped Europe's shift to factory production (1).	1+1+1+1+1
20	Machines such as the steam engine and cotton mill raised output (1); Factories led to growth of industrial cities (1); Hand labour and the putting-out system declined in some trades (1); Workers faced long hours and low pay (1); Society saw new classes of industrialists and factory workers (1).	1+1+1+1+1
	OR: Handloom weavers made fine cloth that mills could not copy (1); They used cheap mill yarn (1); They adopted the fly shuttle (1); Demand for varied cloth remained (1); Handloom output expanded in the twentieth century (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 4: **The Age of Industrialisation (History)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** appeal to Indian buyers	The divine images gave goods sanctity
2	**(a)** British mills were busy producing for the war	Indian mills captured the home market
3	**(a)** handloom weavers needed it	The mills sold the yarn to weavers
4	**(c)** cotton	Cotton and metals led industrialisation
5	**(c)** they lost bargaining power and were forced to sell at low prices	The Company eliminated rival buyers
6	**(c)** they feared losing their jobs	Women who depended on hand spinning attacked jennies
7	**(b)** jobbers took bribes and favours for giving jobs	Jobbers controlled access to jobs
8	**(c)** trade with China	They earned wealth in the opium and cotton trade with China
9	**(c)** rural families worked for low wages	They avoided guild rules and urban wages
10	**(d)** their plots were small and income from land was low	Cottagers and poor peasants needed extra income

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Advertisements created new consumers and taste (1); They widened the market for mill-made goods (1).	1+1
12	Jobbers took bribes and gifts for giving jobs (1); They had the power to dismiss or favour workers (1).	1+1
13	Merchants lived in towns and gave raw material to rural households (1); They collected the finished goods and sold them in town markets and abroad (1).	1+1
14	Machine-made Manchester cloth was cheaper than handloom cloth (1); It flooded Indian markets, forcing weavers to lose buyers (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Small workshops met local needs with cheap and specialised goods (1); Handloom weavers adopted fly shuttles and used mill yarn (1); Demand for fine and varied cloth supported them (1).	1+1+1
16	Mills drew workers from nearby villages and districts (1); Many returned to farming at harvest time (1); So workers remained in touch with villages, and many were temporary migrants (1).	1+1+1
17	Mills produced coarse yarn which handloom weavers bought (1); Handlooms made fine and specialised cloth that mills could not copy (1); Both co-existed, though mill cloth took the mass market (1).	1+1+1
	OR: Jobbers recruited workers from villages and took bribes (1); Workers worked long hours for low wages in crowded conditions (1); They had no job security and depended on jobbers (1).	1+1+1
18	Upper classes preferred hand-made goods as status symbols (1); Fashion changed seasonally and needed varied products (1); Mass demand favoured machine goods, yet specialised handwork continued (1).	1+1+1
	OR: The Company wanted to control supplies and costs by eliminating competition (1); Gomasthas supervised weavers, gave advances and punished them (1); Weavers lost freedom to sell, received low prices, and many left weaving (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Many women worked as spinners in households under the putting-out system (1); The spinning jenny threatened their jobs and women attacked it (1); Women later worked in factories but for low wages (1); They faced long hours and crowded living (1); Their earnings were important for family incomes (1).	1+1+1+1+1
	OR: Labour was cheap and plentiful, so many owners used hand workers (1); Machines were costly to install and repair (1); Demand was seasonal, so extra labour could be hired and dismissed (1); Fashion changed and needed specialised hand-made goods (1); Hence machine and hand production co-existed (1).	1+1+1+1+1

20	Britain's industrialisation began early with technology and capital, and Indian industry grew under colonial rule (1); India supplied raw cotton and bought British goods (1); Britain protected its industry, but India had little tariff protection (1); In Britain hand and machine production coexisted; in India small units persisted (1); India's entrepreneurs came from trading communities and relied on the Swadeshi and wars (1).	1+1+1+1+1
	OR: The Company monopolised the textile trade and eliminated rival buyers (1); Gomasthas supervised weavers and forced them to sell at low prices (1); Weavers lost bargaining power and many left weaving (1); Old ports like Surat and Hooghly declined and Bombay and Calcutta rose (1); Later British machine goods ruined Indian cloth exports (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 4: **The Age of Industrialisation (History)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** urban crafts and trade guilds were powerful and restricted entry	Guilds controlled production and prices
2	**(b)** British mills were busy making war goods and imports from Manchester fell	Indian mills supplied army demand
3	**(a)** Its use spread slowly	Even by the mid-nineteenth century hand labour was widely used
4	**(b)** they met local demand with cheap, specialised goods	Small-scale units dominated
5	**(b)** they were a sign of class and refinement	Machine goods were for the masses
6	**(d)** little tariff protection and competition from British goods	Imports were not taxed heavily
7	**(b)** weavers made fine and specialised cloth which mills could not copy	They also adopted the fly shuttle
8	**(b)** raised productivity	Fly-shuttle looms increased output per worker
9	**(d)** Indian cotton mills	Boycott of foreign cloth raised demand for Indian cloth
10	**(c)** made people want products	They popularised new goods

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Handloom weavers needed yarn, so mills had a ready market (1); Spinning was easier to mechanise and Manchester dominated the cloth trade (1).	1+1
12	Handlooms made fine, specialised cloth which mills could not match (1); Weavers adopted the fly shuttle and used cheap mill yarn (1).	1+1
13	Swadeshi encouraged the boycott of foreign cloth (1); This raised the demand for Indian mill cloth and expanded production (1).	1+1
14	The Company's monopoly reduced weavers' bargaining power and freedom (1); It drove down prices and ruined weaver communities and old ports (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Advertisements used images of Indian gods and goddesses to appeal to religious feelings (1); Calendars reached even non-literate people (1); Nationalist ads asked people to buy Swadeshi to help the country (1).	1+1+1
16	Proto-industrial production was in villages and homes, with merchants controlling supply and sale (1); Factory production brought machines and workers together under one roof (1); Factories raised output, ensured discipline and changed the pattern of work and cities (1).	1+1+1
17	Ads created wants and shaped taste (1); They used images and slogans to popularise products (1); They made new goods appear modern or patriotic (1).	1+1+1
	OR: Raw cotton exports were encouraged for British mills (1); Indian industries had little tariff protection (1); British goods were favoured, limiting Indian industrial growth (1).	1+1+1
18	Jobs were limited, with more job seekers than jobs (1); Jobbers controlled recruitment and took bribes (1); Workers had to depend on contacts and were often hired only seasonally (1).	1+1+1
	OR: TISCO began production in 1912 at Jamshedpur (1); It made iron and steel for railways and construction (1); It showed that Indians could set up heavy industry, and it grew during the world wars (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks

19	Indian entrepreneurs like Tagore and Petit earned capital in the China trade (1); They invested in shipping, mines and mills (1); Tata set up iron and steel works in 1912 (1); Hukumchand set up a jute mill in 1917 (1); They faced British competition and little tariff protection but still built Indian industry (1).	1+1+1+1+1
	OR: Advertisements made products seem desirable (1); Labels showed the manufacturer and quality (1); Images of gods on calendars and labels sold goods to Indians (1); Nationalist ads promoted Swadeshi (1); Consumer culture thus changed taste and market (1).	1+1+1+1+1
20	Workers came from nearby villages through jobbers (1); Jobbers took money for jobs (1); Work hours were long and wages low (1); Housing was crowded and unhygienic (1); Jobs were insecure and workers kept ties with villages (1).	1+1+1+1+1
	OR: The colonial state exported raw cotton and imported British goods (1); Indian industries had little tariff protection (1); British managing agencies dominated industry (1); The Swadeshi and war years helped Indian mills (1); Industrial growth was therefore limited and uneven (1).	1+1+1+1+1
