ANSWER KEY & MARKING SCHEME SET 1

Chapter 4: **The Age of Industrialisation (History)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** Both A and R are true and R is the correct explanation of A.	Both true; R explains A
2	**(d)** A is false but R is true.	A false; R true
3	**(b)** Bombay cotton mill 1854, jute mill 1855, Ahmedabad mill 1861, TISCO 1912	Mills came in the 1850s-60s, steel in 1912
4	**(a)** Both A and R are true and R is the correct explanation of A.	Both true; R explains A
5	**(c)** handloom weavers	They get cheap yarn
6	**(c)** James Watt - improved the steam engine	Watt improved Newcomen's engine
7	**(b)** they lost markets to machine-made cloth	Many had fewer buyers
8	**(a)** bribery in recruitment	Jobbers took money for jobs
9	**(b)** the cotton mill	He set up the first cotton mill
10	**(d)** a handloom	Labels, calendars and ads created consumers

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	They adopted the fly shuttle to raise productivity (1); They shifted to mill yarn and specialised in fine cloth (1).	1+1
12	Women depended on hand spinning for their income (1); The jenny spun several threads at once and reduced the need for labour (1).	1+1
13	British mills were busy with war production, so imports fell (1); Indian mills supplied army demand and expanded production (1).	1+1
14	Boycott of foreign cloth increased the demand for Indian cloth (1); Mills and handlooms expanded to meet it (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Indian industries used merchant capital from trade (1); Some funds came from banks and managing agencies (1); Profits from the war years were reinvested (1).	1+1+1
16	British entrepreneurs had early technology, capital and state support (1); Indian entrepreneurs came from trading communities and relied on China trade capital (1); Indians faced competition, little tariff protection and colonial bias (1).	1+1+1
17	British imports fell as Manchester mills made war goods (1); Indian mills supplied army orders and expanded (1); New factories were set up and the factory workforce grew (1).	1+1+1
	OR: Weavers bought mill yarn and sold cloth in markets (1); They used the fly shuttle to raise output (1); Merchants and mills linked them to markets (1).	1+1+1
18	The colonial state favoured British imports and raw material exports (1); Indian industries had little tariff protection (1); Managing agencies dominated investment, and Indian capital was limited (1).	1+1+1
	OR: Ads used patriotic appeals to buy Indian goods (1); Labels and calendars carried images of national leaders and gods (1); These created consumer loyalty to Swadeshi (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	The colonial government gave little tariff protection to Indian industry (1); British goods flooded the market and Indian industry grew slowly (1); The Swadeshi movement boosted demand for Indian cloth (1); The First World War gave Indian mills a wartime boom (1); Industrialists supported the national movement to gain protection (1).	1+1+1+1+1
	OR: In Britain, factories and putting-out co-existed (1); Labour was cheap, machines costly (1); Demand was seasonal and fashion varied (1); The upper classes preferred handmade goods (1); In India too, handlooms and small units co-existed with mills (1).	1+1+1+1+1

20	Advertisements made products appear desirable (1); Labels showed manufacturer and quality (1); Images of gods on calendars appealed to Indian buyers (1); Nationalist ads promoted Swadeshi (1); Together they created a market for mill-made goods (1).	1+1+1+1+1
	OR: Colonial policy favoured British goods and kept Indian industry weak (1); India remained a raw material exporter (1); Small-scale units dominated and heavy industry was slow (1); Indian business groups grew through nationalism and wartime profits (1); These patterns shaped India's economy after independence (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 4: **The Age of Industrialisation (History)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** little tariff protection for Indian industries	Industry grew without protection
2	**(a)** exploitation under the East India Company	Company control over weavers
3	**(b)** it was gradual	Hand and machine production coexisted
4	**(d)** A is false but R is true.	A false; R true
5	**(a)** Both A and R are true and R is the correct explanation of A.	Both true; R explains A
6	**(a)** Both A and R are true and R is the correct explanation of A.	Both true; R explains A
7	**(a)** Both A and R are true and R is the correct explanation of A.	Both true; R explains A
8	**(a)** growth of the factory workforce	The factory workforce grew
9	**(d)** they wanted protection from foreign competition	They organised the FICCI in 1927
10	**(c)** rural families spinning for a merchant	Production for a market before factories

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Iron and steel were needed for railways, machines and buildings (1); Entrepreneurs like Tata wanted to build Indian heavy industry and reduce imports (1).	1+1
12	Gomasthas paid low prices and prevented weavers from selling to other buyers (1); Weavers lost their freedom of choice and bargaining power (1).	1+1
13	Ads and calendars used national symbols and slogans (1); They appealed to buyers to support Indian goods as a duty to the nation (1).	1+1
14	Low tariffs on British goods exposed Indian mills to cheap imports (1); The colonial state gave little protection or support to Indian industry (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	The Company appointed gomasthas to supervise weavers (1); It prevented them from dealing with other buyers through advances (1); Thus it replaced independent merchants and set prices (1).	1+1+1
16	Industrialisation raised production and created jobs (1); But workers suffered long hours, low pay and bad housing (1); Craft workers and weavers lost livelihoods, so it brought hardship too (1).	1+1+1
17	The colonial state promoted raw cotton exports to Britain (1); Farmers grew cotton for export markets (1); Indian mills had to buy raw cotton at high prices (1).	1+1+1
	OR: Cheap mill goods competed with small producers (1); Advertisements shifted consumers to branded goods (1); Small producers survived by specialising or working for large units (1).	1+1+1
18	The upper classes preferred hand-made goods as status symbols (1); Seasonal fashions created demand for varied goods (1); Mass consumers bought cheaper machine-made goods (1).	1+1+1
	OR: Swadeshi boycott raised demand for Indian mill cloth (1); Handlooms also gained as people shifted to Indian cloth (1); But it did not protect Indian industry from imports in the long run (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	After 1850 cheap British cloth hurt handlooms (1); Mills at first made coarse yarn and cloth (1); Handlooms survived by making fine cloth and adopting the fly shuttle (1); During Swadeshi and the world wars both expanded (1); By the 1930s handlooms still supplied a large share of Indian cloth (1).	1+1+1+1+1

	OR: Women in Britain worked as spinners under the putting-out system (1); Jenny and factories took away their earnings (1); In factories they received lower wages than men (1); Women also did homework with long hours (1); In India women worked in mills but faced harsh conditions (1).	1+1+1+1+1
20	Manchester mills produced for war and imports fell (1); Indian mills received army orders for cloth and jute (1); New factories were set up (1); Profits and the workforce grew (1); The war thus strengthened Indian industrialists (1).	1+1+1+1+1
	OR: Dwarkanath Tagore invested in shipping, mining and plantations (1); Petit and Tata made fortunes in the China trade (1); Tata set up iron and steel works in 1912 (1); Hukumchand set up a jute mill in 1917 (1); They built industry despite competition and limited state support (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 4: **The Age of Industrialisation (History)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** Seth Hukumchand	He was a Marwari businessman
2	**(d)** A is false but R is true.	A false; R true
3	**(c)** production for the war by British mills	Britain made army supplies
4	**(b)** attract Indian buyers	Divine images appealed to Indians
5	**(d)** A is false but R is true.	A false; R true
6	**(d)** increased imports from Manchester	Imports fell
7	**(b)** a link between mill and handloom sectors	Both sectors depended on each other
8	**(d)** A is false but R is true.	A false; R true
9	**(b)** Tata - jute mill in Calcutta	Hukumchand set up the jute mill, not Tata
10	**(c)** seasonal demand	Hand labour was suited to seasonal work

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Town guilds were powerful and restricted production and entry (1); So merchants moved to villages where labour was cheaper and unrestricted (1).	1+1
12	Early Indian mills made coarse yarn and cloth that required less skill (1); They could not compete with the fine cloth of Manchester (1).	1+1
13	There were more job seekers than jobs (1); Workers depended on jobbers and could be easily replaced (1).	1+1
14	It created extra income for rural families and a skilled labour force (1); It created merchant capital, networks and markets for factories (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Tata Steel needed iron ore, coal and water near its site (1); It used modern technology and skilled workers (1); It produced steel for railways and industry (1).	1+1+1
16	Machines were costly and needed repair and skilled operators (1); Labour was cheap and demand seasonal (1); Owners hesitated until profit was certain, so adoption was gradual (1).	1+1+1
17	Women worked as spinners in factories and homes (1); They earned wages but received less than men (1); Mechanisation took away jobs such as hand spinning (1).	1+1+1
	OR: Marwari and Parsi merchants earned money in the China trade (1); They used their trade networks to raise capital and find markets (1); They then invested in mills, shipping and steel (1).	1+1+1
18	After 1850, cheap Manchester imports and the fall of Company support ruined many weavers (1); Loss of the export market and the shift to raw cotton exports hurt them (1); Some survived by making fine, specialised cloth, using fly shuttles and mill yarn (1).	1+1+1
	OR: Workers faced long hours and low wages (1); Jobbers took bribes and controlled recruitment (1); They often protested through strikes and by returning to villages (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	The Company monopolised the textile trade and eliminated rival merchants (1); Gomasthas supervised weavers and forced them to sell at low prices (1); Weavers lost independence and were punished for disobedience (1); Many left weaving or moved to other villages (1); Old ports declined and Indian exports fell, later destroyed by British machine goods (1).	1+1+1+1+1
	OR: Industrialisation in Britain first affected cotton and metals, not all industries (1); Many industries still used hand labour (1); Technology spread slowly because of cost (1); Seasonal demand favoured hand work (1); Both traditional and modern methods thus co-existed (1).	1+1+1+1+1

20	Workers came from villages through jobbers (1); Jobbers took bribes and gifts (1); Wages were low and hours long (1); Housing was crowded (1); Jobs were insecure and many workers returned to villages (1).	1+1+1+1+1
	OR: Indian mills used imported machines and exported yarn to China (1); Raw cotton and jute were exported to Britain (1); Indian industry depended on British imports and policies (1); Merchants' capital came from the China trade (1); Global wars and the Depression affected Indian industry (1).	1+1+1+1+1
