THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · MEDIUM LEVEL CHAPTER TEST SET 2

Chapter 6: **Resources and Development (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Medium level: multi-step questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Why is soil called a living resource? 1

(a) it contains living organisms and supports plant life
(b) it is formed in a day
(c) it is made only of rocks
(d) it never changes

2. Which soil is most likely found in the Deccan lava plateau? 1

(a) arid soil **(b)** alluvial soil **(c)** black soil **(d)** laterite soil

3. Sheet erosion occurs when 1

(a) glaciers scrape the land
(b) wind blows away soil
(c) water flows as a sheet and removes the top layer of soil
(d) deep channels are cut by running water

4. Khadar is more fertile than bhangar because it 1

(a) gets fresh deposits of silt each year **(b)** is always dry
(c) is sandy **(d)** is much older

5. A farmer grows crops on steps cut into a hill slope. This method is 1

(a) terrace farming **(b)** strip cropping
(c) contour ploughing **(d)** shelter belt planting

6. Which state is rich in minerals but economically backward? 1

(a) Goa **(b)** Jharkhand **(c)** Delhi **(d)** Punjab

7. Which soil is acidic with low humus content in the snow-covered Himalayan areas? 1

(a) arid soil **(b)** alluvial soil **(c)** black soil **(d)** forest soil

8. Which soil needs heavy manuring and is suitable for tea, coffee and cashew? 1

(a) laterite soil **(b)** alluvial soil **(c)** arid soil **(d)** black soil

9. Which of the following is an example of sustainable development? 1

(a) using up all resources now
(b) stopping all use
(c) using resources wisely so that future needs are also met
(d) mining alone

10. Water was a potential resource until technology made hydroelectric power possible. This shows that 1

(a) technology is unnecessary

(b) water is a stock

(c) resources are created by human use and technology

(d) water is not a resource

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 20–30 words each.

11. Why is alluvial soil suitable for intensive farming? 2

12. Why does laterite lack humus? 2

13. Why do gullies form on slopes? 2

14. Why is black soil sticky when wet and cracks when dry? 2

SECTION — C (Short Answer Type) 4 × 3 = 12

Answer in about 40–60 words each.

15. Explain why laterite soil needs manure. 3

16. Explain why India's soil diversity matters. 3

17. Explain how overgrazing leads to degradation. 3

OR

Explain how strip cropping and contour ploughing differ. 3

18. Explain how community resources are managed. 3

OR

Explain why soil is a living resource. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 100–150 words each.

19. Describe the soil types of India and their distribution. 5

OR

Explain sustainable development with the Rio Summit and Gandhi's idea. 5

20. Explain land degradation in different states and remedies. 5

OR

Explain different kinds of resources and why they need conservation. 5

END OF QUESTION PAPER Total: 40 Marks
