# THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

## CLASS 10 — SOCIAL SCIENCE · MEDIUM LEVEL CHAPTER TEST SET 2

Chapter 8: **Water Resources (Geography)** | RBSE Pattern | Session 2026–27

**Time: 1 Hour 30 Minutes** Name: _____ Roll No.: _____ **Maximum Marks: 40**

**General Instructions:**

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Medium level: multi-step questions.

## SECTION — A (Objective Type Questions) 10 × 1 = 10

*Choose the correct option and write it in your answer book.*

**1.** Which farming practice most increases the demand for water? 1

**(a)** keeping land fallow **(b)** single cropping
**(c)** purely rain-fed farming **(d)** multiple cropping with irrigation

**2.** Which hill city of the North-East practises rooftop rainwater harvesting? 1

**(a)** Ahmedabad **(b)** Bhubaneswar **(c)** Shillong **(d)** Kolkata

**3.** A village builds small check dams to hold monsoon run-off and recharge groundwater. These are 1

**(a)** tankas **(b)** johads **(c)** kuls **(d)** canals

**4.** Rainwater harvesting at Gendathur village in Karnataka is mainly through 1

**(a)** tubewells **(b)** big dams
**(c)** rooftop harvesting **(d)** canals

**5.** Which multipurpose project is on the Mahanadi river? 1

**(a)** Hirakud **(b)** Tehri **(c)** Sardar Sarovar **(d)** Bhakra-Nangal

**6.** India has about 4 per cent of the world's renewable water but supports about 16 per cent of its people. This shows 1

**(a)** great pressure on water resources **(b)** no problem
**(c)** a surplus of water **(d)** no scarcity

**7.** Which dam was opposed for displacing tribals and others in Gujarat, Madhya Pradesh and Maharashtra? 1

**(a)** Hirakud **(b)** Bhakra **(c)** Tehri **(d)** Sardar Sarovar

**8.** Canals lose a large amount of water through 1

**(a)** seepage and evaporation **(b)** soil nutrients
**(c)** rainfall **(d)** dams

**9.** Inundation channels used to irrigate fields from floodwater are traditional in 1

**(a)** Kerala backwaters **(b)** the Deccan plateau
**(c)** the Thar desert **(d)** the flood plains of Bengal

**10.** A 'multipurpose' river project is one that 1

**(a)** serves only floods

**(b)** serves more than one use such as irrigation, power and flood control

**(c)** serves only fishing

**(d)** serves only power

## SECTION — B (Very Short Answer Type) 4 × 2 = 8

*Answer in about 20–30 words each.*

**11.** How does rooftop harvesting recharge groundwater? 2

**12.** How do dams affect farmers downstream? 2

**13.** Why do big dams often fail to prevent floods? 2

**14.** Why is conservation vital for the future? 2

## SECTION — C (Short Answer Type) 4 × 3 = 12

*Answer in about 40–60 words each.*

**15.** Explain the role of government policy in water use. 3

**16.** Explain how tankas and khadins suit Rajasthan. 3

**17.** Explain how the Shillong system works. 3

OR

Explain the arguments for and against multipurpose projects. 3

**18.** Explain traditional systems of Bengal. 3

OR

Explain how pollution reduces water availability. 3

## SECTION — D (Long Answer Type) 2 × 5 = 10

*Answer in about 100–150 words each.*

**19.** Evaluate multipurpose river projects: benefits and costs. 5

OR

Analyse inter-state water disputes and possible solutions. 5

**20.** Explain how forests and water are linked. 5

OR

Discuss ancient and modern approaches to water management. 5

## END OF QUESTION PAPER Total: 40 Marks
