Our body needs food to grow strong. But all foods are not equally good. Some foods, like fruits, vegetables, milk, pulses and eggs, are healthy. Others, like chips, cold drinks and sweets, give us only sugar and fat. If we eat too much of them, we become weak and fat.

A healthy meal has many colours. Green vegetables give us iron, oranges give us vitamin C, and milk gives us calcium for strong bones. We should drink at least eight glasses of water a day.

Good habits keep us fit. We should wash our hands before eating, chew food well and eat at fixed times. A little exercise or play every day also keeps our body active. Remember, a healthy body keeps the mind happy.
