CLASS 5 ENGLISH — READING PAPER SET 09

Reading Comprehension | RBSE & CBSE Primary Pattern

Time: 40 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 20**

General Instructions:

1. All questions are compulsory.
2. Section A has one passage with 10 questions (1 mark each).
3. Section B has one story or poem with 10 questions (1 mark each).
4. Read the passage twice before you answer. Write neatly.

SECTION — A (Reading: Information Passage / Notice / Table) 10 Marks

Read the passage and answer the questions.

1. *Read the passage carefully and answer the questions that follow.* 10

Water on the Earth goes round and round. This is called the water cycle. The heat of the Sun warms the water of rivers, lakes and seas. The water turns into tiny drops of vapour and rises into the sky. This is called evaporation.

High up in the sky, the air is cold. The vapour cools down and becomes tiny drops of water that join together to make clouds. This is called condensation.

When the clouds become heavy, the water falls down as rain. In very cold places, it may fall as snow or hail. The rain water flows into rivers and seas, and the cycle starts again. Without the water cycle, there would be no rain, and no life on Earth.

(i) The water cycle begins with the heat of the: 1

(a) clouds **(b)** Sun **(c)** wind **(d)** Moon

(ii) Water turning into vapour is called: 1

(a) rain **(b)** condensation **(c)** evaporation **(d)** freezing

(iii) Clouds are made of tiny drops of: 1

(a) smoke **(b)** cotton **(c)** dust **(d)** water

(iv) In very cold places water may fall as: 1

(a) fog **(b)** dew **(c)** snow **(d)** mist

(v) Rain water finally flows into: 1

(a) mountains **(b)** rivers and seas

(c) clouds **(d)** the sun

(vi) Why does the vapour cool down in the sky? 1

(vii) What is condensation? 1

(viii) State whether True or False: There would be no rain without the water cycle. 1

(ix) Find a word in the passage which means 'very small'. 1

(x) Write the correct order: rain, evaporation, clouds. 1

SECTION — B (Reading: Story / Poem) 10 Marks

Read the text and answer the questions.

2. *Read the story carefully and answer the questions that follow.* 10

Sita's grandmother lived in a village. Every summer holiday, Sita went there. She loved to run in the fields and eat fresh mangoes from the garden.

One day Grandmother said, "Today we will plant a mango seed." They dug a small hole and put the seed in it. Sita watered it every morning. Many days passed, but nothing happened.

She became sad and said, "Dadi, will it ever grow?" Grandmother smiled, "Wait with patience, my child."

After two weeks, a tiny green shoot came out of the soil. Sita jumped with joy. She learned that good things take time. Years later, the little plant became a tall tree and gave sweet mangoes to the whole village.

(i) Sita went to her grandmother's house during the: 1

(a) Diwali **(b)** exams
(c) summer holidays **(d)** winter holidays

(ii) They planted a: 1

(a) banana **(b)** rose **(c)** coconut **(d)** mango seed

(iii) Sita watered the seed: 1

(a) every morning **(b)** every night
(c) once a week **(d)** never

(iv) The shoot came out after: 1

(a) ten minutes **(b)** two days **(c)** two weeks **(d)** one year

(v) The plant finally became a: 1

(a) flower **(b)** creeper **(c)** bush **(d)** tall tree

(vi) Why did Sita become sad? 1

(vii) What did Grandmother tell her? 1

(viii) State whether True or False: Sita learned that good things take time. 1

(ix) Find a word in the story which means 'a very small, young growth of a plant'. 1

(x) How did the tree help the village? 1

END OF QUESTION PAPER **Total: 20 Marks**
