ANSWER KEY & MARKING SCHEME SET A

Chapter 1: **Wonderful World of Science** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** curiosity	starts science
2	**(a)** record observations and draw conclusions	scientific method
3	**(d)** Observation	skills
4	**(b)** To make sure the result is reliable	repeatability
5	**(c)** Analyses them to find patterns	analysis
6	**(d)** Others can check and build on them	collaboration
7	**(c)** Water, soil and pot size	controlled variables
8	**(a)** biology	branch
9	**(b)** Science	inquiry
10	**(d)** technology	application

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	The urge to know things; it makes us ask questions that science investigates.	1+1
12	A guess or proposed explanation that can be tested by experiments.	1+1
13	Observe, ask a question, make a hypothesis, test by experiment (also analyse, conclude).	1+1
14	So we know which change caused the result (fair test).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Observe and ask (1); hypothesis and experiment (1); analyse and conclude (1), e.g. testing why a pen does not write.	1+1+1
16	Observe and ask (1); guess causes like the cell, bulb or switch and test each (1); conclude (1).	1+1+1
17	Curiosity (1); honesty and patience (1); open-mindedness (1).	1+1+1
	OR: Questions lead to discoveries (1.5); help us understand how and why things happen (1.5).	1½+1½
18	Observation is what we notice (1.5); conclusion is the meaning drawn from the evidence (1.5).	1½+1½
	OR: Medicines and vaccines (1); mobile phones and satellites (1); weather forecasts (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Systematic way of finding answers (1). (ii) Observe, question, hypothesis, test, conclude (2.5). (iii) Ensures reliable results (1.5).	1+2½+1½
	OR: (i) Testable guess (1). (ii) Plants need light; ice melts faster in sun (1). (iii) By experiments (1.5). (iv) Revise and test again (1.5).	1+1+1½+1½
20	(i) Do plants need light? (1). (ii) Plants need light to grow green (1). (iii) Water, soil, pots (1). (iv) Sunlight is needed for healthy growth (2).	1+1+1+2
	OR: (i) Everywhere (1). (ii) Examples (3). (iii) To understand and improve our world (1).	1+3+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

THE MASTERMIND COACHING CLASSES
CBSE / RBSE • NURSERY – CLASS XII • JAIPUR
Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET B

Chapter 1: **Wonderful World of Science** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** asking questions and observing	inquiry
2	**(c)** changing only one thing at a time	controlled variable
3	**(b)** to know	knowledge
4	**(b)** cooking, sports and weather	daily life
5	**(b)** the answer drawn from the observations	final step
6	**(b)** Open-mindedness and honesty	attitude
7	**(a)** ISRO	space research
8	**(c)** astronomy	branch
9	**(d)** scientific method	process
10	**(d)** observe it carefully	observation

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Cooking food, using a magnet, watching weather, riding a bicycle (any two).	1+1
12	Microscope for tiny things; telescope for distant objects.	1+1
13	Noticing things carefully using our senses and instruments.	1+1
14	To check that the result is reliable.	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Give the same soil, water and pot (1.5); change only the light to compare (1.5).	1½+1½
16	To remember results (1); compare later (1); share with others (1).	1+1+1
17	Place identical plants one in sunlight and one in the dark (1.5); compare growth after some days (1.5).	1½+1½
	OR: Instruments like microscopes extend our senses (1.5); satellites and computers help study the world (1.5).	1½+1½
18	Check the steps (1); repeat the experiment (1); rethink the hypothesis (1).	1+1+1
	OR: Others can verify (1.5); ideas can be improved by working together (1.5).	1½+1½

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Curiosity, patience, honesty (2). (ii) Explanation (2). (iii) Open-mindedness (1).	2+2+1
	OR: (i) Eraser sinks; wood floats (1). (ii) Why do some objects float? (1). (iii) Lighter materials float (1). (iv) Try many objects and record (2).	1+1+1+2
20	(i) Knowledge vs use (2). (ii) Examples (2). (iii) Technology applies science (1).	2+2+1
	OR: (i) Senses are limited (1). (ii) Microscope, telescope, thermometer (3). (iii) Accuracy (1).	1+3+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
