THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 6 — SCIENCE CHAPTER TEST SET A

Chapter 1: **Wonderful World of Science** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Draw neat, labelled diagrams wherever required.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. The desire to know more about things around us is called: 1

(a) boredom **(b)** curiosity **(c)** memory **(d)** fear

2. After doing an experiment we should: 1

(a) record observations and draw conclusions **(b)** throw away data
(c) change the question **(d)** ignore the results

3. Which of these is a scientific skill? 1

(a) Guessing only **(b)** Copying others
(c) Ignoring evidence **(d)** Observation

4. Why do scientists repeat experiments? 1

(a) To avoid writing **(b)** To make sure the result is reliable
(c) To change the question **(d)** To waste time

5. What does a scientist do with observations? 1

(a) Hides them **(b)** Forgets them
(c) Analyses them to find patterns **(d)** Burns them

6. Why is it good to share findings with others? 1

(a) To hide errors **(b)** To show off
(c) To avoid work **(d)** Others can check and build on them

7. An experiment to test whether a plant needs light should keep which things the same? 1

(a) Colour of the room **(b)** Name of the plant only
(c) Water, soil and pot size **(d)** Light only

8. The study of living things is called: 1

(a) biology **(b)** geology **(c)** astronomy **(d)** chemistry

9. Which of these asks ‘how’ and ‘why’ about the world? 1

(a) Only luck **(b)** Science **(c)** Only art **(d)** Only sports

10. The use of science to make useful products is: 1

(a) grammar **(b)** mythology **(c)** geography **(d)** technology

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 10–15 words each.

11. What is curiosity? How is it related to science? 2

12. What is a hypothesis? 2

13. Name any four steps of the scientific method. 2

14. Why should we change only one thing at a time in an experiment? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 30–40 words each.

15. Describe the steps of the scientific method with a simple example. 3

16. A torch does not glow. Suggest a method to find out why, using the scientific method. 3

17. What are the qualities of a good scientist? 3

OR

Why is it important to ask questions? 3

18. Differentiate between observation and conclusion. 3

OR

How is science useful in our daily life? Give three examples. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 80–100 words each.

19. (i) Define the scientific method. 5
(ii) Explain its steps with the example of finding why a pen is not writing.
(iii) Why is each step important?

OR

(i) What is a hypothesis? 5
(ii) Give two examples.
(iii) How is it tested?
(iv) What if it is wrong?

20. **Case study:** Meena planted bean seeds in two pots: A in sunlight and B in a dark cupboard, both watered equally. After a week A grew green leaves and B was pale. 5
(i) What question is she investigating?
(ii) What is her hypothesis?
(iii) Which things were kept the same?
(iv) State the conclusion.

OR

(i) How is science used in daily life? 5
(ii) Give examples from kitchen, health, transport and communication.
(iii) Why should we learn science?

END OF QUESTION PAPER — Total: 40 Marks
