CLASS 6 — SCIENCE CHAPTER TEST SET B

Chapter 1: **Wonderful World of Science** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Draw neat, labelled diagrams wherever required.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Science begins with: 1

(a) asking questions and observing **(b)** copying notes
(c) guessing without testing **(d)** memorising facts

2. A fair test means: 1

(a) not recording **(b)** guessing the answer
(c) changing only one thing at a time **(d)** changing everything

3. The word ‘science’ comes from a Latin word meaning: 1

(a) to sing **(b)** to know **(c)** to cook **(d)** to build

4. Everyday science can be seen in: 1

(a) only spacecraft **(b)** cooking, sports and weather
(c) only books **(d)** only laboratories

5. A ‘conclusion’ in an experiment is: 1

(a) a guess before testing **(b)** the answer drawn from the observations
(c) the apparatus **(d)** the question

6. Which of the following shows good scientific attitude? 1

(a) Carelessness **(b)** Open-mindedness and honesty
(c) Cheating **(d)** Stubbornness

7. The Indian space agency that launched Chandrayaan is: 1

(a) ISRO **(b)** CERN **(c)** ESA **(d)** NASA

8. The study of stars and planets is called: 1

(a) zoology **(b)** botany **(c)** astronomy **(d)** biology

9. The steps taken to answer a question scientifically are called the: 1

(a) social method **(b)** short cut
(c) art method **(d)** scientific method

10. The first step to find why a plant is wilting is to: 1

(a) ignore it **(b)** cut it down
(c) add more soil **(d)** observe it carefully

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 10–15 words each.

11. Give two examples of science in everyday life. 2

12. Name two instruments scientists use to see very small and very far things. 2

13. What is meant by ‘observation’? 2

14. Why do scientists repeat experiments? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 30–40 words each.

15. Explain a fair test using an example of plant growth. 3

16. Why do we record observations in a notebook? 3

17. Explain how a scientist might test if plants need sunlight. 3

OR

What is the role of technology in studying nature? 3

18. What would you do if your experiment gave an unexpected result? 3

OR

How does sharing findings help science grow? 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 80–100 words each.

19. (i) What qualities should a scientist have? 5
(ii) Explain how curiosity and honesty help in research.
(iii) Name one scientific attitude.

OR

Case study: A student notes that a rubber eraser sinks in water but a piece of wood floats. 5
(i) State the observation.
(ii) Ask a question.
(iii) Give a hypothesis.
(iv) How will you test with other objects?

20. (i) Differentiate between science and technology. 5
(ii) Give two examples of each.
(iii) How are they related?

OR

(i) Why do we need instruments in science? 5
(ii) Name three instruments and their uses.
(iii) What do they improve?

END OF QUESTION PAPER — Total: 40 Marks
