THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 6 — SCIENCE CHAPTER TEST SET A

Chapter 2: **Diversity in the Living World** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Draw neat, labelled diagrams wherever required.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. The variety of living things found on Earth is called: 1

(a) biography **(b)** geology **(c)** ecology **(d)** biodiversity

2. Plants with many woody stems branching near the base are: 1

(a) shrubs **(b)** trees **(c)** herbs **(d)** climbers

3. The pattern of veins in a leaf is called: 1

(a) photosynthesis **(b)** germination **(c)** venation **(d)** adaptation

4. The stem of a cactus is thick and green to: 1

(a) hide from animals **(b)** be eaten

(c) store water and make food **(d)** attract insects

5. Polar bears have thick fur and fat to survive: 1

(a) dry deserts **(b)** extreme cold **(c)** tall mountains **(d)** heat

6. Which of these is a vertebrate? 1

(a) Butterfly **(b)** Snail **(c)** Earthworm **(d)** Pigeon

7. Plants and animals living on land are called: 1

(a) terrestrial **(b)** marine **(c)** aquatic **(d)** amphibious

8. Grouping living things by their similarities is called: 1

(a) evolution **(b)** germination **(c)** adaptation **(d)** classification

9. The thick bark of a tree helps in: 1

(a) photosynthesis **(b)** flying **(c)** protection **(d)** swimming

10. Insects have how many legs? 1

(a) 10 **(b)** 6 **(c)** 4 **(d)** 8

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 10–15 words each.

11. What is biodiversity? 2

12. What is a habitat? Give two examples. 2

13. What is an adaptation? Give one example. 2

14. Differentiate between herbs and shrubs. 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 30–40 words each.

15. Describe the three types of plants based on their height and stem. 3

16. Differentiate between climbers and creepers with examples. 3

17. Explain parallel and reticulate venation with examples. 3

OR

How are plants adapted to live in water? 3

18. How are desert animals adapted to survive? 3

OR

Why do mountain animals have thick fur? 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 80–100 words each.

19. (i) What is an adaptation? 5
(ii) Explain adaptations of a camel, a fish and a polar bear.
(iii) Why are they necessary?

OR

(i) Classify plants based on stem and height. 5
(ii) Give two examples of each.
(iii) Draw a leaf with its venation.

20. **Case study:** A student made a table: Neem – tall, hard trunk; Tulsi – small, soft stem; Rose – woody, many stems; Pea – weak stem climbing. 5
(i) Classify each.
(ii) Which has a trunk?
(iii) Which needs support?
(iv) Give one use of neem.

OR

(i) Differentiate between aquatic and terrestrial habitats. 5
(ii) Give two animals and plants of each.
(iii) Why can't a fish live on land?

END OF QUESTION PAPER — Total: 40 Marks
