(a) Fruits and vegetables **(b)** Oil
(c) Salt **(d)** Sugar

MASTERMIND

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 10–15 words each.

11. Name the components of food. 2

12. Why do we need proteins? Name two sources. 2

13. How do you test for starch in food? 2

14. How do you test for fat in a food item? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 30–40 words each.

15. Write the sources and functions of carbohydrates and proteins. 3

16. Explain the test for starch with iodine solution. 3

17. Explain a simple test to detect fat in food. 3

OR

List the functions of vitamins and minerals. 3

18. Write the deficiency diseases caused by lack of vitamins A, C and D. 3

OR

What are the effects of eating too much junk food? 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 80–100 words each.

19. (i) Name the components of food and give one source of each. 5
(ii) State one function of each.
(iii) Which are called energy-giving foods?

OR

(i) Describe the test for starch. 5
(ii) Describe the test for fat.
(iii) Why are these tests useful?

20. **Case study:** A student tested potato, boiled egg, butter and apple. Potato turned blue-black; butter left an oily spot; egg showed protein; apple showed little change. 5
(i) Which contains starch?
(ii) Which has fat?
(iii) Which is rich in protein?
(iv) Which is a good source of fibre and vitamins?

OR

(i) What is a balanced diet? 5
(ii) Plan a balanced one-day diet for a 12-year-old.
(iii) Why is variety important?

END OF QUESTION PAPER — Total: 40 Marks
