ANSWER KEY & MARKING SCHEME SET A

Chapter 4: **Exploring Magnets** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** magnetic materials	iron, nickel, cobalt
2	**(a)** north–south direction	Earth's magnetism
3	**(a)** compass	direction finder
4	**(c)** refrigerator doors and compasses	uses
5	**(b)** a sheet of paper	force passes through thin non-magnetic materials
6	**(a)** south pole	south-seeking
7	**(b)** non-magnetic	not attracted
8	**(d)** soft iron keepers across their poles	storage
9	**(c)** north–south	directional property
10	**(c)** the fridge door is made of a magnetic metal	iron in steel

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Magnetic are attracted (iron, nickel); non-magnetic are not (wood, plastic).	1+1
12	The two ends of a magnet where its attraction is strongest.	1+1
13	Like poles repel; unlike poles attract.	1+1
14	Magnetise a needle and let it float on water or hang on a thread; it settles north–south.	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Bring the marked north pole near each end (1); the end that is repelled is north (1); the other is south (1).	1+1+1
16	Collect items (1); test with a magnet (1); tabulate results (1).	1+1+1
17	Place it flat (1); wait for the needle to settle (1); rotate dial so N meets the needle (1).	1+1+1
	OR: Attract magnetic materials (1); have two poles (1); point north–south when freely suspended (1).	1+1+1
18	Magnetic force is a non-contact force (1.5); it acts through thin non-magnetic materials (1.5).	1½+1½
	OR: Keep with soft iron keepers (1.5); away from heat and hammering (1.5).	1½+1½

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Definition (1). (ii) Procedure (2). (iii) Table with iron nail, paper, coin etc. (2).	1+2+2
	OR: (i) Ends of strongest force (1). (ii) Like repel, unlike attract (2). (iii) Diagram (2).	1+2+2
20	(i) North–south (1). (ii) Earth's magnetism (1). (iii) North and south poles (1). (iv) Compass from the needle (2).	1+1+1+2
	OR: (i) Magnetised needle pivoted (2). (ii) Steps (2). (iii) Away from iron and magnets (1).	2+2+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET B

Chapter 4: **Exploring Magnets** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** Iron nail	magnetic material
2	**(a)** north pole	north-seeking
3	**(c)** magnet	freely pivoted
4	**(b)** navigation	sailors
5	**(a)** poles	ends
6	**(c)** attract	unlike poles
7	**(c)** strong magnets or iron objects	disturbs the needle
8	**(b)** Magnesia, a place in Greece	history
9	**(d)** Steel spoon	steel contains iron
10	**(d)** lodestone	natural magnet

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Each piece becomes a magnet with two poles.	1+1
12	Compass, door latches, fridge magnets, separating iron pieces.	1+1
13	Because Earth behaves like a giant magnet.	1+1
14	Move a magnet over the mixture; iron sticks to it.	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Used by sailors to navigate seas (1.5); lodestone was the early magnet (1.5).	1½+1½
16	They repel (1.5); like poles push each other away (1.5).	1½+1½
17	Compass, fridge door seal, magnetic toys (1+1+1).	1+1+1
	OR: It contains iron (3).	1+2
18	They disturb the needle (3).	1+2
	OR: See if it points north–south when suspended, or attracts iron pins (3).	1+2

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Five uses (2). (ii) Details (2). (iii) Iron separation (1).	2+2+1
	OR: (i) Like poles (1). (ii) North of the unlabelled magnet (1). (iii) South (1). (iv) Mark N and S (2).	1+1+1+2
20	(i) Stroke with magnet (2). (ii) Attract pins, point N–S (2). (iii) Heating, hammering (1).	2+2+1
	OR: (i) Earth acts as a giant magnet (2). (ii) Compass for directions (2). (iii) Sense of magnetic field (1).	2+2+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
