THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET A

Chapter 9: **Methods of Separation in Everyday Life** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** mixture	definition
2	**(d)** light husk is blown away while heavy grains fall	difference in weight
3	**(c)** sedimentation	settle
4	**(b)** churning	dairy
5	**(d)** evaporating the filtrate	stepwise
6	**(b)** Distilled water	pure substance
7	**(b)** filtrate	collected below
8	**(d)** heated	solubility increases
9	**(d)** evaporation and condensation	distillation
10	**(c)** Settle, filter and boil	safe water

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Two or more substances physically mixed; salt water, air.	1+1
12	To remove harmful or unwanted parts and get useful ones.	1+1
13	Picking out unwanted pieces by hand; removing stones from rice.	1+1
14	Separating heavier grains from lighter husk using wind.	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Mixture of grain and husk is dropped from a height (1); wind blows lighter husk away (1); heavier grain falls in a heap (1).	1+1+1
16	Magnet removes iron (1); dissolve in water, filter sand (1); evaporate to get salt (1).	1+1+1
17	Mud settles (1.5); clear water poured off (1.5).	1½+1½
	OR: Fold paper into a cone (1); place in the funnel and pour mixture (1); collect filtrate (1).	1+1+1
18	Add alum and let it settle (1); decant and filter (1); boil (1).	1+1+1
	OR: Evaporation (1.5); salt is dissolved and passes through the filter (1.5).	1½+1½

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Definition (1). (ii) Five methods (2). (iii) Examples (2).	1+2+2
	OR: (i) Explanation (2). (ii) Agriculture and kitchens (1). (iii) Weight, force, size (2).	2+1+2
20	(i) Magnet (1). (ii) Dissolve and filter (1). (iii) Evaporate (1). (iv) Each uses a different property (2).	1+1+1+2
	OR: (i) Steps (2). (ii) Diagram (2). (iii) Kills germs (1).	2+2+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET B

Chapter 9: **Methods of Separation in Everyday Life** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** separation	purpose
2	**(b)** sieving	different sizes
3	**(d)** decantation	separating liquid
4	**(a)** a magnet	magnetic separation
5	**(b)** Churning/centrifuging	dairy
6	**(a)** solute	e.g. salt
7	**(a)** decantation (using a separating funnel)	immiscible liquids
8	**(c)** make suspended particles in water settle	water purification
9	**(b)** lighter than milk	centrifuge
10	**(c)** centrifuge (cream separator)	spinning

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Separation of particles of different sizes using holes.	1+1
12	Settling of heavy particles; pouring off the clear liquid.	1+1
13	Separating insoluble solids from a liquid using a filter.	1+1
14	By evaporating the water.	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Sieving separates solid particles of different size (1.5); filtration separates insoluble solid from liquid (1.5).	1½+1½
16	Threshing, winnowing, sieving (3).	3
17	Separates butter from curd and cream from milk (3).	1+2
	OR: Let it stand; oil floats; decant or use a separating funnel (3).	1+2
18	A solution is a uniform mixture like salt water; a mixture may be non-uniform like sand and water (3).	1+2
	OR: Iron objects are picked up from waste (3).	1+2

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Definitions (2). (ii) First settle, then pour (2). (iii) Rice washing (1).	2+2+1
	OR: (i) Threshing (1). (ii) Winnowing (1). (iii) Handpicking/sieving (1). (iv) Winnowing (2).	1+1+1+2
20	(i) Definition (1). (ii) Steps (2). (iii) Residue—sand; filtrate—water (2).	1+2+2
	OR: (i) Heating dissolves solid left (2). (ii) Salt pans (2). (iii) Free energy (1).	2+2+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
