THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 6 — SCIENCE TWO-CHAPTER TEST SET B

Chapters 1 & 2: **Wonderful World of Science, Diversity in the Living World** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Draw neat, labelled diagrams wherever required.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Observation means: 1

(a) carefully using our senses to notice things
(b) dreaming
(c) copying
(d) guessing

2. The idea ‘science and technology help people’ is shown by: 1

(a) only toys **(b)** vaccines, mobile phones and satellites
(c) only music **(d)** none of these

3. The study of matter and its changes is chiefly: 1

(a) geography **(b)** chemistry **(c)** botany **(d)** astronomy

4. When your hypothesis turns out wrong, a scientist should: 1

(a) stop forever **(b)** revise the idea and test again
(c) hide the result **(d)** blame others

5. A conclusion should be based on: 1

(a) evidence from observations **(b)** rumour
(c) opinion alone **(d)** luck

6. Animals having feathers and laying eggs are: 1

(a) mammals **(b)** birds **(c)** fish **(d)** amphibians

7. The animal that can live both on land and in water is: 1

(a) sparrow **(b)** camel **(c)** lion **(d)** frog

8. The forest ecosystem has: 1

(a) only trees **(b)** many types of plants and animals
(c) few species **(d)** only insects

9. Which animal has a streamlined body and flippers? 1

(a) Hen **(b)** Lizard **(c)** Camel **(d)** Dolphin

10. Which of these is a flowering plant? 1

(a) Moss **(b)** Rose **(c)** Algae **(d)** Fern

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 10–15 words each.

11. Name two branches of science and what they study. 2

12. Why should we follow safety rules in experiments? 2

13. Name the five main vertebrate groups. 2

14. Why do we group living things? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 30–40 words each.

15. Why must scientists use standard measurements? 3

16. Group the following: tiger, eagle, frog, shark, snake, whale — into vertebrate groups. 3

17. What are the different ways to find answers to questions? 3

OR

A student guesses that salt dissolves faster in hot water. How can she test it? 3

18. What do you understand by ‘terrestrial’ adaptations? Give an example. 3

OR

Why do trees have thick bark? 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 80–100 words each.

19. (i) Why is recording data important? 5
(ii) How can data be shown?
(iii) How does it help draw conclusions?

OR

Case study: A student thinks a toy car moves farther on smooth floors. 5
(i) What is being investigated?
(ii) What should be measured?
(iii) What should be kept the same?
(iv) Write a conclusion if it goes 4 m on tiles and 1 m on carpet.

20. (i) Describe how birds are adapted for flight. 5
(ii) Name two birds adapted to water and desert.

OR

Case study: A forest has trees, shrubs, herbs, insects, birds and deer. 5
(i) Name its habitat.
(ii) How many types of plants are mentioned?
(iii) Which animals are vertebrates?
(iv) What happens if trees are cut?

END OF QUESTION PAPER — Total: 40 Marks
