THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 6 — SCIENCE TWO-CHAPTER TEST SET C

Chapters 1 & 2: **Wonderful World of Science, Diversity in the Living World** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Draw neat, labelled diagrams wherever required.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. The first step of the scientific method is usually to: 1

(a) write the conclusion **(b)** publish results
(c) repeat the experiment **(d)** observe and ask a question

2. Which of these is a question that science can investigate? 1

(a) Which song is the best? **(b)** Do plants grow faster in sunlight?
(c) Who is the kindest? **(d)** Which colour is the prettiest?

3. When a bulb does not light, a good first step is to: 1

(a) throw the bulb
(b) guess and give up
(c) check the bulb, wires and battery one by one
(d) break the wire

4. Science is compared to a giant jigsaw puzzle because: 1

(a) it is finished
(b) it has no pieces
(c) each new discovery adds a piece to the picture
(d) it is only for children

5. Which tool helps us see distant stars? 1

(a) Telescope **(b)** Spring balance **(c)** Microscope **(d)** Thermometer

6. Plants with soft green stems and small in size are: 1

(a) herbs **(b)** shrubs **(c)** trees **(d)** climbers

7. Plants that spread along the ground are: 1

(a) climbers **(b)** creepers **(c)** shrubs **(d)** trees

8. A desert plant like cactus has leaves modified into: 1

(a) flowers **(b)** spines **(c)** roots **(d)** tendrils

9. Camels are adapted to deserts because they: 1

(a) live in water
(b) can store fat in the hump and go long without water
(c) have thick fur
(d) swim well

10. Which of these is an invertebrate? 1

(a) Frog **(b)** Fish **(c)** Butterfly **(d)** Dog

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 10–15 words each.

11. What does a conclusion tell us? 2

12. Why is science compared to a jigsaw puzzle? 2

13. What are terrestrial and aquatic habitats? 2

14. Name two adaptations of a polar bear. 2

SECTION — C (Short Answer Type) 4 × 3 = 12

Answer in about 30–40 words each.

15. Explain with an example that science is not only about memorising facts. 3

16. Name three insects and write the common features of insects. 3

17. What is the importance of working in teams in science? 3

OR

How do you apply the scientific method in daily life? 3

18. What are the differences between herbs and trees? Give two examples each. 3

OR

Explain with an example how a habitat provides for an animal's needs. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 80–100 words each.

19. (i) Why is science called a continuing journey? 5
(ii) How do new discoveries change old ideas?
(iii) Give an example.

OR

(i) What can we do to be curious? 5
(ii) Write five questions about the Sun and Moon.
(iii) Choose one and plan to answer it.

20. (i) Describe adaptations in animals of cold regions. 5
(ii) Give two examples.
(iii) Why is thick fat useful?

OR

(i) Why do mountain plants have conical shapes? 5
(ii) Describe two features of mountain animals.

END OF QUESTION PAPER Total: 40 Marks
