ANSWER KEY & MARKING SCHEME SET A

Chapters 9 & 10: **Methods of Separation in Everyday Life, Living Creatures: Exploring their Characteristics** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** handpicking	method
2	**(b)** size	particle size
3	**(d)** filtration	removes suspended particles
4	**(c)** filtration	sand insoluble
5	**(c)** strainer (sieve)	kitchen
6	**(b)** photosynthesis	uses sunlight
7	**(d)** touch-me-not (Mimosa)	movement
8	**(c)** germination	seed starts to grow
9	**(c)** cotyledons	seed leaves
10	**(c)** egg → larva → pupa → adult	complete metamorphosis

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Beating harvested stalks to separate grains.	1+1
12	Spinning milk or cream to separate butter; butter from curd.	1+1
13	Egg, larva, pupa, adult.	1+1
14	Removal of waste by living things.	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Filtration or decantation (3).	1+2
16	Time a living thing lives; housefly few days, tortoise many years (3).	1+2
17	Add water, filter chalk, evaporate sugar (3).	1+2
	OR: Components differ in properties (3).	1+2
18	By wind, water, animals; reduces crowding (3).	1+2
	OR: No; it does not grow by itself, reproduce or respond (3).	1+2

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Churning/centrifuging (1). (ii) Cream is lighter (1). (iii) Butter (1). (iv) Cream separator (2).	1+1+1+2
	OR: (i) Differences (3). (ii) Examples (2).	3+2
20	(i) No (1). (ii) Growth, reproduction, respiration (2). (iii) Food (1). (iv) Puppy grows and reproduces (1).	1+2+1+1
	OR: (i) Gives energy (1). (ii) Animals lungs/gills; plants stomata (2). (iii) Respiration inside cells (2).	1+2+2

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET B

Chapters 9 & 10: **Methods of Separation in Everyday Life, Living Creatures: Exploring their Characteristics** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** solvent	e.g. water
2	**(c)** Sedimentation and filtration	water treatment
3	**(a)** particle size	sieving
4	**(a)** handpicking	simple
5	**(d)** chromatography	advanced
6	**(d)** oviparous	e.g. hen
7	**(d)** Fish and fern	both alive
8	**(d)** cell	basic unit
9	**(a)** movement in response to light	tropism
10	**(d)** A balloon being blown up	non-living

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Using a magnet.	1+1
12	Solute dissolves in the solvent forming a solution.	1+1
13	Touch-me-not folding; sunflower turning.	1+1
14	Release of energy from food using oxygen.	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Funnel, filter paper, beaker, stand (3).	1+2
16	Plants make food, fixed; animals eat food, move (3).	1+2
17	No more solute dissolves; heat the solution (3).	1+2
	OR: Sea water is evaporated in the sun leaving salt (3).	1+2
18	Seed, seedling, plant, flower, fruit and seed (3).	1+2
	OR: It responds to light (3).	1+2

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Magnet, water, filter, evaporate (3). (ii) Steps (2).	3+2
	OR: (i) Sugar (1). (ii) Water (1). (iii) Increases dissolving (1). (iv) Evaporate water (2).	1+1+1+2
20	(i) Seed coat, cotyledon, embryo (1). (ii) Diagram (2). (iii) Functions (2).	1+2+2
	OR: (i) Sprouted (1). (ii) Water, air, warmth (2). (iii) Germination (1). (iv) Nutritious sprouts (1).	1+2+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET C

Chapters 9 & 10: **Methods of Separation in Everyday Life, Living Creatures: Exploring their Characteristics** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** winnowing	agriculture
2	**(c)** threshing	harvest
3	**(b)** evaporation	heating
4	**(d)** evaporation	salt is dissolved
5	**(b)** Sea water	salts dissolved
6	**(b)** food	heterotrophs
7	**(b)** growth	characteristic
8	**(d)** Sunlight	seeds germinate in the dark too
9	**(c)** seed → seedling → plant	life cycle
10	**(d)** tadpole	aquatic stage

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Residue is the solid left on the filter; filtrate is the clear liquid below.	1+1
12	It makes the suspended particles settle.	1+1
13	Food, water and air.	1+1
14	To make food by photosynthesis.	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Water boiled to vapour and cooled to water (3).	1+2
16	Heat kills the embryo so it won't germinate (3).	1+2
17	They are harmful and unwanted (3).	1+2
	OR: Handpicking uses hands for large impurities; sieving uses holes for size (3).	1+2
18	It grows, reproduces and needs nutrients (3).	1+2
	OR: It feeds and stores food for the adult stage (3).	1+2

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) To get pure substances (2). (ii) Examples (3).	2+3
	OR: (i) Comparison (3). (ii) Insoluble vs dissolved (2).	3+2
20	(i) Removal of waste (3). (ii) Sweat, urine, shed leaves (2).	3+2
	OR: (i) Continuation (1). (ii) Seeds (2). (iii) Eggs/young (2).	1+2+2

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET D

Chapters 9 & 10: **Methods of Separation in Everyday Life, Living Creatures: Exploring their Characteristics** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** residue	left behind
2	**(a)** No more solute can dissolve in it	definition
3	**(a)** Sieving and handpicking	cleaning grains
4	**(d)** So heavy particles can settle	process
5	**(c)** fine flour from coarse bran	size difference
6	**(c)** Stone	no life processes
7	**(b)** softens the seed coat and activates growth	role of water
8	**(d)** growth	increase in size
9	**(a)** Both reproduce	common
10	**(a)** span (limited lifetime)	dies eventually

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Strainer; handpicking.	1+1
12	Filtration removes the finer particles left.	1+1
13	The time for which a living thing lives.	1+1
14	Egg, tadpole, froglet, adult.	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	It settles; sedimentation (3).	1+2
16	Moisture starts germination (3).	1+2
17	Purifying water, cleaning grains, making butter (3).	1+2
	OR: Pour through a strainer (3).	1+2
18	The embryo uses it until leaves can make food (3).	1+2
	OR: Both grow, respire, reproduce, respond (3).	1+2

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Separating colours (1). (ii) Spot ink on filter paper, dip in water (2). (iii) Colours spread (2).	1+2+2
	OR: (i) Cannot dissolve more (1). (ii) More dissolves on heating (2). (iii) Sugar in hot water (2).	1+2+2
20	(i) Stages (2). (ii) Wind, water, animals (2). (iii) Reduce competition (1).	2+2+1
	OR: (i) Differences (4). (ii) Fungi such as mushroom (1).	4+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
