THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 6 — SCIENCE TWO-CHAPTER TEST SET D

Chapters 9 & 10: **Methods of Separation in Everyday Life, Living Creatures: Exploring their Characteristics** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Draw neat, labelled diagrams wherever required.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. The solid left on the filter paper is called: 1

(a) filtrate **(b)** solute **(c)** solvent **(d)** residue

2. Which of these is a saturated solution? 1

(a) No more solute can dissolve in it **(b)** It is empty

(c) It is solid **(d)** It is a gas

3. Which separation method is used in a flour mill to remove stones? 1

(a) Sieving and handpicking **(b)** Evaporation

(c) Churning **(d)** Magnet

4. Why do we keep the mixture undisturbed in sedimentation? 1

(a) to colour it **(b)** to cool it

(c) to heat it **(d)** So heavy particles can settle

5. A sieve with very small holes can separate: 1

(a) salt from water **(b)** cream from milk

(c) fine flour from coarse bran **(d)** iron from sand

6. Which of these is a non-living thing? 1

(a) Mushroom **(b)** Grass **(c)** Stone **(d)** Ant

7. Seeds need water to germinate because water: 1

(a) cools the seed

(b) softens the seed coat and activates growth

(c) colours the seed

(d) makes it heavy

8. A tree grows taller each year. This shows: 1

(a) decay **(b)** excretion **(c)** movement **(d)** growth

9. Which characteristic do mushrooms and cows share? 1

(a) Both reproduce **(b)** Both photosynthesise

(c) Both have legs **(d)** Both are green

10. Every living thing has a life: 1

(a) span (limited lifetime) **(b)** only in water

(c) no end **(d)** only in soil

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 10–15 words each.

11. Which methods are used for separating tea leaves and stones from rice? 2

12. Why is it better to filter water after decantation? 2

13. What is the life span? 2

14. Name the stages of a frog's life cycle. 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 30–40 words each.

15. What would happen if sand is kept in water for some time? Name the process. 3

16. Why do we observe sprouts in damp pulses left overnight? 3

17. State the importance of separation in daily life. 3

OR

Describe the method to get tea from tea leaves and water. 3

18. Explain what happens to the stored food in seed during germination. 3

OR

List the similarities between a plant and a human being as living things. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 80–100 words each.

19. (i) What is chromatography? 5
(ii) How can you separate colours of black ink on paper?
(iii) What is observed?

OR

(i) What is a saturated solution? 5
(ii) How does temperature affect solubility?
(iii) Give an example.

20. (i) Explain the life cycle of a flowering plant. 5
(ii) How do seeds travel?
(iii) Why?

OR

(i) List differences between plants and animals. 5
(ii) Name one organism that is neither clearly plant nor animal.

END OF QUESTION PAPER — Total: 40 Marks
