THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 6 — SCIENCE UNIT TEST SET C

Chapters 5–8: **Measurement of Length and Motion, Materials Around Us, Temperature and its Measurement, A Journey through States of Water** | RBSE Pattern | Session 2026–27

Time: 2 Hours Name: _____ Roll No.: _____ **Maximum Marks: 50**

General Instructions:

1. All questions are compulsory.
2. Q. 1–12 are Objective Type (1 mark each).
3. Q. 13–17 are Very Short Answer Type (2 marks each).
4. Q. 18–23 are Short Answer Type (3 marks each).
5. Q. 24–25 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 22 to 25.
7. Write the question number before each answer.
8. Draw neat, labelled diagrams wherever required.

SECTION — A (Objective Type Questions) 12 × 1 = 12

Choose the correct option and write it in your answer book.

1. The motion of a ball dropped from a height is: 1

(a) random only **(b)** oscillatory **(c)** linear **(d)** circular

2. The length of a curved line can be measured using a: 1

(a) protractor only **(b)** thread and a ruler

(c) stopwatch **(d)** thermometer

3. The length of a table measured in handspans differs from person to person because: 1

(a) handspans are not standard **(b)** tables change

(c) ruler is long **(d)** hands are equal

4. The amount of matter in an object is its: 1

(a) lustre **(b)** colour **(c)** texture **(d)** mass

5. Which state of matter has a fixed volume but no fixed shape? 1

(a) Solid **(b)** Rock **(c)** Gas **(d)** Liquid

6. The way a surface feels to touch is its: 1

(a) texture **(b)** lustre **(c)** solubility **(d)** opacity

7. A wooden spoon in hot tea stays cooler because wood is: 1

(a) a poor conductor of heat **(b)** magnetic

(c) a good conductor **(d)** transparent

8. A fever means body temperature is: 1

(a) exactly normal **(b)** higher than normal

(c) zero **(d)** lower than normal

9. A clinical thermometer should NOT be used to measure the temperature of: 1

(a) a healthy person **(b)** a child

(c) boiling water **(d)** a person with fever

10. Why do we feel cool when we sweat and a breeze blows? 1

(a) it is a magic

(b) air is always cold

(c) Evaporation of sweat takes heat from the body

(d) sweat is cold

11. When we breathe out on a cold mirror, a mist appears. It is due to: 1

(a) condensation of water vapour **(b)** melting

(c) freezing **(d)** evaporation

12. Snow is: 1

(a) cotton **(b)** frozen water in the form of ice crystals
(c) dust **(d)** frozen smoke

SECTION — B (Very Short Answer Type) — 5 × 2 = 10

Answer in about 10–15 words each.

13. How do you measure the length of a curved line? 2

14. What do we mean by hardness? Name a hard and a soft material. 2

15. Name the two common types of thermometers. 2

16. Name any two factors that affect the rate of evaporation. 2

17. Why do wet clothes dry faster on a windy day? 2

SECTION — C (Short Answer Type) — 6 × 3 = 18

Answer in about 30–40 words each.

18. Why is it better to use a metre scale than footsteps to measure a classroom? 3

19. Why are some materials used for making certain objects? Explain with three examples. 3

20. What is the lowest and highest temperature on a laboratory thermometer? Why does it have such a range? 3

21. State three differences between evaporation and condensation. 3

22. Why does a stone sink but a piece of wood floats in water? 3

OR

Explain with examples the properties of metals. 3

23. Distinguish between a clinical thermometer and a laboratory thermometer. 3

OR

A person has body temperature 38.5 °C. Is it normal? Explain and suggest what to do. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 80–100 words each.

24. (i) Why do objects float or sink? 5
(ii) Describe an experiment.
(iii) Predict for wood, stone, iron, cork, wax.

OR

(i) What are properties of materials? 5
(ii) Describe lustre, hardness, solubility and texture.
(iii) Give an example each.

25. (i) How are clouds formed? 5
(ii) How does rain occur?
(iii) Mention other forms of precipitation.

OR

(i) What is evaporation? 5
(ii) Describe the factors that affect it with activities.
(iii) Give three daily-life examples.

END OF QUESTION PAPER — Total: 50 Marks
