THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 7 ENGLISH — READING SKILL PAPER SET 02

Reading Comprehension | RBSE Board Pattern | Session 2026–27

Time: 45 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 20**

General Instructions:

1. All questions are compulsory.
2. Section A has one factual passage with 10 questions (1 mark each).
3. Section B has one story or poem with 10 questions (1 mark each).
4. Write the question number before each answer.

SECTION — A (Reading Comprehension: Factual Passage) 10 Marks

Read the passage and answer the questions.

1. *Read the passage carefully and answer the questions that follow.* 10

Where Does the Rain Come From?

The rain that falls on our fields has a long story behind it. It begins when the heat of the sun warms the water in oceans, rivers and ponds. Some of this water turns into an invisible gas called water vapour and rises into the air. This process is known as evaporation. Plants also give out water vapour through their leaves.

As the vapour rises, it meets colder air and cools down. The cooled vapour changes back into tiny drops of water. This is called condensation. Millions of such drops gather around dust particles and join together to form clouds. When the drops become too heavy to stay in the air, they fall to the earth as rain. In very cold places the drops freeze and fall as snow or hail.

The rainwater flows into streams and rivers, soaks into the ground or fills lakes and ponds, and the journey starts again. This endless movement of water is called the water cycle. Because the same water is used again and again, the earth never runs out of it, but clean and drinkable water is limited. That is why we should not waste it and should save rainwater wherever we can.

(i) The process by which water turns into vapour is called: 1

(a) condensation **(b)** evaporation **(c)** melting **(d)** freezing

(ii) Clouds are formed when: 1

(a) the sun sets **(b)** dust rises from the ground

(c) the wind blows hard **(d)** tiny water drops join together

(iii) In very cold places the drops may fall as: 1

(a) snow or hail **(b)** dew **(c)** steam **(d)** fog

(iv) State whether True or False: Plants also give out water vapour. 1

(a) True **(b)** False

(v) The writer suggests that we should: 1

(a) dig more wells **(b)** avoid rivers

(c) save rainwater **(d)** stop using water

(vi) What makes water in oceans and rivers turn into vapour? 1

(vii) What is the name of the process in which vapour changes back into drops? 1

(viii) What happens to the rainwater after it falls on the earth? 1

(ix) Find a word in the passage that means 'cannot be seen'. 1

(x) Why is it important not to waste water even though the water cycle never ends? 1

SECTION — B (Reading Comprehension: Story / Poem) — 10 Marks

Read the text and answer the questions.

2. *Read the poem and answer the questions that follow.* — 10

The Rain Song

The sky wears a coat of grey today,
And the thunder begins to drum;
The crows fly home in a noisy line
To say that the rains have come.

The dusty road turns shining wet,
The leaves bend down to drink;
A frog sits up on a little stone
And gives me a bright green wink.

My paper boat, so small and white,
Goes sailing down the lane;
It dips and bobs and spins around,
Then sails off in the rain.

Mother calls me in for tea,
But I would rather stay
And dance with the drops on the open road
Till the clouds have gone away.

(i) The poet says the sky wears a coat of: — 1

(a) grey **(b)** red **(c)** gold **(d)** white

(ii) The crows fly home because: — 1

(a) they are hungry **(b)** the rains have come
(c) it is night **(d)** they are afraid of the frog

(iii) The leaves 'bend down to drink' means that they: — 1

(a) are falling **(b)** are dying
(c) are heavy with rain **(d)** are dry

(iv) State whether True or False: The poet's paper boat sinks at once. — 1

(a) True **(b)** False

(v) The poet's mood in the poem is: — 1

(a) frightened **(b)** lonely **(c)** joyful **(d)** angry

(vi) What does the thunder sound like in the poem? — 1

(vii) What does the frog do? — 1

(viii) Why does Mother call the poet inside? — 1

(ix) Pick out a pair of rhyming words from the first stanza. — 1

(x) Why does the poet not want to go in? Answer in one sentence. — 1

END OF QUESTION PAPER — Total: 20 Marks
