ANSWER KEY & MARKING SCHEME SET A

Chapter 14: **India's Urban Landscape** | Class 8 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** 5,000	Definitions differ across countries
2	**(d)** square kilometre	Total population ÷ area
3	**(d)** 40	Chapter figure
4	**(c)** 1919	Largest industrial city of Jharkhand
5	**(b)** concentration of software firms, start-ups and higher education institutions	IT cluster
6	**(c)** the cost of operations is lower than in larger cities	Emerging urban centres
7	**(a)** IT and BPO companies	Part of the National Capital Region
8	**(d)** the prime ministers of India	A cultural hub
9	**(d)** vacant land is available and affordable housing is lacking	Migration pressure
10	**(a)** Both A and R are true and R is the correct explanation of A	R explains A

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Rural areas have mostly agriculture-based occupations (1). Urban areas have varied jobs in industry, trade and services (1).	1+1
12	Number of people living per unit area, usually per sq km (1). Density = total population ÷ area in sq km (1).	1+1
13	Shift of population from rural to urban areas (1). Share of people in rural areas falls as a result (1).	1+1
14	Location near rivers for easy transport (1). Crossroads of trade routes or access to raw materials (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Mumbai on the Arabian Sea became a port (1). Kolkata near the eastern coast became a trade port (1). Jamshedpur grew near iron ore (1).	1+1+1
16	Port location and trade (1). Bombay Stock Exchange set up in 1875 (1). Talent gathered; modern infrastructure and film industry developed (1).	1+1+1
17	Concentration of software firms and start-ups (1). Close link with higher education institutions (1). Innovation with technologies like AI (1).	1+1+1
	OR: They specialise in particular industries (1). Moradabad—brass; Tirupur—textiles (1). Channapatna—toys, Kanchipuram—silk (1).	1+1+1
18	Visitors come to the Taj Mahal or sacred places (1). Demand for transport, hospitality and food vending (1). Handicrafts and souvenirs give livelihoods (1).	1+1+1
	OR: Capital, trade and culture from early times; expansion strained housing and water (1). NCR created with NOIDA and Ghaziabad (1). Roads, highways and metro helped expansion (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Rural origin with farm work (1). New infrastructure such as factories and banks (1). Shift to secondary and tertiary jobs, small towns (1). Population grows and attracts more people (1). Metropolitan areas with high-rises, malls and metro (1).	1+1+1+1+1
	OR: Jamshedpur: iron ore, Tata steel plant and planned city (1). Mumbai: coastal port, Stock Exchange 1875 (1). Mumbai film industry and infrastructure (1). Bengaluru: IT cluster and educational institutions (1). Hyderabad or other cities also grew through technology (1).	1+1+1+1+1

20	Agra and the Taj Mahal draw visitors (1). Amritsar and Varanasi for pilgrims (1). Delhi as capital and administration centre (1). Mumbai’s vaḍā pāv and Kolkata’s Durga Puja show cultural mixing (1). Museums, libraries and stadiums add to culture (1).	1+1+1+1+1
	OR: Air pollution (1). Water scarcity and flooding (1). Traffic jams and unplanned roads (1). Slums and lack of housing (1). Waste generation, reduced green spaces and higher crime (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET B

Chapter 14: **India's Urban Landscape** | Class 8 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** 220	Japan uses 50,000
2	**(b)** 300 persons per sq km	6,000 ÷ 20 = 300
3	**(b)** 68 per cent	Up from 55 per cent now
4	**(b)** Sir Dorabji Tata	Part of the Tata vision of a township
5	**(c)** brass work	Specialised small city
6	**(c)** Taj Mahal	Tourism livelihood
7	**(d)** hires another service provider to do some business functions	Business Process Outsourcing
8	**(b)** 50	Higher AQI means greater health risk
9	**(b)** desilting, repairing bunds and planting native species	Collective action
10	**(a)** Both A and R are true and R is the correct explanation of A	R explains A

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	It lay close to rich iron ore deposits (1). The Tata family planned a township with modern facilities there (1).	1+1
12	Mumbai lies on the Arabian Sea and Kolkata near the eastern coast (1). This helped domestic and international trade (1).	1+1
13	Moradabad for brass work (1). Channapatna for wooden toys or Kanchipuram for silk sarees (1).	1+1
14	Cost of operations is lower than in larger cities (1). They can still serve customers across India and abroad (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	People from many regions share food, language and festivals (1). Vaḍā pāv in Mumbai (1). Kolkata's Durga Puja, UNESCO listed in 2021 (1).	1+1+1
16	Cultural centres and libraries (1). Museums such as the Pradhanmantri Sangrahalay (1). Sports stadiums and spaces for gatherings (1).	1+1+1
17	AQI often above 400 against a safe limit of 50 (1). Vehicles and construction add to pollutants (1). Serious health risk to residents (1).	1+1+1
	OR: Not enough affordable housing for migrants (1). Found near the periphery, railway tracks and industrial areas (1). Residents do informal work such as vending and domestic help (1).	1+1+1
18	Lakes fell from about 1,000 to 200 and many were polluted (1). NGOs, RWAs and communities desilted and repaired bunds (1). Planting native species and restocking fish restored water and ecology (1).	1+1+1
	OR: Grid pattern with rectangular chowkris (1). Wide streets, gardens and nine public squares (1). A 20-foot wall with seven gates and pink sandstone buildings (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Once about 1,000 lakes, now about 200 (1). Groundwater overuse, no rainwater harvesting and encroachment (1). Foam and fires in Bellandur and Varthur (1). NGOs and RWAs desilted lakes and repaired bunds (1). Native plants and fish; more water and balance in ecology (1).	1+1+1+1+1
	OR: Vidyadhar Bhattacharya was chief planner in 1727 (1). Based on vāstu and śhilpa shāstra with grid and chowkris (1). Wide streets, gardens and nine public squares (1). 20-foot wall with seven gates for security (1). Pink sandstone, shaded markets and water supply suited the dry climate (1).	1+1+1+1+1

20	Concept Plan for 40 years; Master Plan every 5 years (1). Mixed-use spaces with homes, offices and parks nearby (1). Mass Rapid Transit, cycling and walking corridors (1). Vertical and rooftop gardens — ‘garden city’ (1). Housing for seniors with healthcare, childcare and green spaces (1).	1+1+1+1+1
	OR: Sabarmati Riverfront has promenades, parks and Atal Bridge (1). Blends ecology with public use (1). Gangtok’s M.G. Road is pedestrian-only and clean (1). Technology and citizen participation, waste and water services, e-governance (1). Balance growth with care for people and nature (1).	1+1+1+1+1
