THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET A

Chapter 1: **Natural Resources and Their Use** | Class 8 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** life and non-life forms humans did not create	Totality of the environment not made by humans
2	**(a)** culturally unacceptable	Cultural acceptability
3	**(d)** returning something to its original healthy state	After damage
4	**(c)** it is harvested faster than it regenerates	Natural rhythm is disturbed
5	**(b)** ecosystem services	Clean water, pollination
6	**(a)** Karnataka, Tamil Nadu, Kerala and Puducherry	Needs negotiation
7	**(a)** water-intensive crops and free power for pumping	Green Revolution crops
8	**(c)** 2016	All farmland certified organic
9	**(b)** France	Sunshine-rich countries
10	**(b)** Both A and R are true but R is not the correct explanation of A	Both true; melting is a threat but is not the reason for the title

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Totality of life and non-life forms in the environment (1). Not created by humans (1).	1+1
12	When humans use or convert it (1). Trees into furniture (1).	1+1
13	Technologically accessible (½). Economically feasible (½). Culturally acceptable (1).	½+½+1
14	Restoration returns to the original healthy state (1). Regeneration creates new life and thriving conditions (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Resources essential for life: air, water (1). For materials: wood, marble (1). For energy: coal, sunlight (1).	1+1+1
16	Technology needed to reach it (1). Cost must be justified (1). Society must accept extraction (1).	1+1+1
17	Natural rhythm of restoration and regeneration must not be disturbed (1½). Harvesting timber faster than the forest grows depletes it (1½).	1½+1½
	OR: Tree decomposes (1). Feeds bacteria, fungi and insects (1). Enriches soil for new trees (1).	1+1+1
18	Industrialisation and deforestation raised temperatures (1). Himalayan glaciers melt faster than precipitation replaces (1). They are the water tower for the plains (1).	1+1+1
	OR: Communities refrained from fishing in spawning season (1½). Commercial over-fishing, e.g. decline of tuna (1½).	1½+1½

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Technological access (1). Economic feasibility (1). Cultural acceptance (1). Examples (1). Importance (1).	1+1+1+1+1
	OR: By use: life, materials, energy (2). By renewability: renewable, non-renewable (1). Examples (2).	2+1+2
20	Restoration (1). Regeneration (1). Harvesting faster than renewal (1). Timber example (1). Fish or glacier example (1).	1+1+1+1+1
	OR: Settlements near resources (1). Trade networks (1). Displacement (1). Kaveri dispute (1). Wootz steel and skills (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME — SET B

Chapter 1: **Natural Resources and Their Use** | Class 8 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** their wood is used to make furniture	Use turns nature into a resource
2	**(d)** essential for life	Life is impossible without them
3	**(b)** create new life and conditions for thriving	Goes beyond restoration
4	**(c)** the spawning season	Fish populations were maintained
5	**(a)** 275	Compared with human need of about 350 litres
6	**(d)** grow more slowly	They may not build industries
7	**(d)** 80%	Water drawn faster than restored
8	**(a)** compost, neem and garlic repellents and multiple crops	Natural farming
9	**(b)** Rajasthan	Large solar park
10	**(a)** Both A and R are true and R is the correct explanation of A	Higher prices explain higher incomes

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Renewable: restored by Nature, e.g. wind (1). Non-renewable: cannot be replenished fast, e.g. coal (1).	1+1
12	Functions: inherent ways Nature works (1). Services: benefits humans receive (1).	1+1
13	They are unevenly distributed and cross boundaries (1). Kaveri water dispute (1).	1+1
14	Resource-rich regions may grow slowly (1). Because they fail to build industries that add value (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Reserves may last only about 50 years (1½). It is non-renewable so sustainable options are needed (1½).	1½+1½
16	Industries create local jobs (1). People may be displaced and sacred places threatened (1). Trade and international relations depend on resources (1).	1+1+1
17	Resource-rich areas may develop slowly (1). India invested in processing industries (1). Knowledge, governance and planning matter (1).	1+1+1
	OR: HYV wheat and paddy need more water (1). Free power, pesticides and fertilisers (1). Water table fell, 80% area over-exploited (1).	1+1+1
18	Traditional water harvesting and pond rejuvenation (1). Reducing wasteful use and reusing water (1). Natural fertilisers, mulching, multi-cropping (1).	1+1+1
	OR: Used for homes, roads, bridges (1). Dust harms health and crops (1). Alternatives: stone, mud, recycled materials (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Meaning (1). Failure to add value (1). Slow growth (1). India invests in industries (1). Role of knowledge and governance (1).	1+1+1+1+1
	OR: Definition of stewardship (1). Punjab case (1½). Cement case (1). Sikkim case (1½).	1+1½+1+1½
20	Causes: HYV crops, free power (1½). Effects: falling water table, chemicals (1½). Remedies: harvesting, pond revival, reuse, natural fertilisers (2).	1½+1½+2
	OR: Meaning of the term (1). Surapala (1). Contents (1). Soil organisms and mixed cropping (1). Relevance to organic farming (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
