THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET A

Chapters 1 & 7: **Natural Resources and Their Use, Factors of Production** | Class 8 Social Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 12 × 1 = 12

Q.	Correct Option	Brief Reasoning
1	**(c)** Rajasthan	Large solar park
2	**(b)** 2016	All farmland certified organic
3	**(c)** it is harvested faster than it regenerates	Natural rhythm is disturbed
4	**(a)** water-intensive crops and free power for pumping	Green Revolution crops
5	**(d)** 275	Compared with human need of about 350 litres
6	**(d)** France	Sunshine-rich countries
7	**(d)** 65%	Demographic dividend
8	**(c)** economic benefit from a large young working population	Needs education, health and skills
9	**(c)** identifies a problem, takes risks and combines factors	Starts a business
10	**(a)** lead and mercury	Environmental responsibility
11	**(d)** revive handloom by changing factor proportions	Technology changes proportions
12	**(d)** Drones and weather apps	Application of scientific knowledge

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
13	Totality of life and non-life forms in the environment (1). Not created by humans (1).	1+1
14	Resource-rich regions may grow slowly (1). Because they fail to build industries that add value (1).	1+1
15	Resources or inputs combined to produce goods or services (1). Land, labour, capital, entrepreneurship (1).	1+1
16	Started Tata Airlines in 1932 (1). Awarded Bharat Ratna in 1992 and expanded the Tata Group (1).	1+1
17	Land – rent, Labour – wages (1). Capital – interest, Entrepreneurship – profit (1).	1+1

SECTION — C (Short Answer) — Answers — 6 × 3 = 18

Q.	Expected Answer / Value Points	Marks
18	Industries create local jobs (1). People may be displaced and sacred places threatened (1). Trade and international relations depend on resources (1).	1+1+1
19	Communities refrained from fishing in spawning season (1½). Commercial over-fishing, e.g. decline of tuna (1½).	1½+1½
20	A culture of hard work raises quality (1½). Japanese kaizen or German work ethic (1½).	1½+1½
21	UPI payments (1). Drones and weather updates in farming (1). GPS in transport or robots in surgery (1).	1+1+1
22	Machines reduce labour use (1½). 3-D printing revives handloom (1½).	1½+1½
	OR: 65% below age 35 (1). Can drive growth (1). Needs quality education, health and skills (1).	1+1+1
23	Technology needed to reach it (1). Cost must be justified (1). Society must accept extraction (1).	1+1+1
	OR: Used for homes, roads, bridges (1). Dust harms health and crops (1). Alternatives: stone, mud, recycled materials (1).	1+1+1

SECTION — D (Long Answer) — Answers — 1 × 5 = 5

Q.	Expected Answer / Value Points	Marks
24	Environmental duties (1). Leather and e-waste examples (1). Fair wages (1). Safe conditions and rights (1). CSR (1).	1+1+1+1+1
	OR: Meaning (1). Education and training (1). Healthcare (1). Social-cultural influence (1). Challenges (1).	1+1+1+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET B

Chapters 1 & 7: **Natural Resources and Their Use, Factors of Production** | Class 8 Social Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 12 × 1 = 12

Q.	Correct Option	Brief Reasoning
1	**(b)** essential for life	Life is impossible without them
2	**(b)** ecosystem services	Clean water, pollination
3	**(b)** Both A and R are true but R is not the correct explanation of A	Both true; melting is a threat but is not the reason for the title
4	**(d)** 80%	Water drawn faster than restored
5	**(d)** returning something to its original healthy state	After damage
6	**(d)** the spawning season	Fish populations were maintained
7	**(d)** A is false but R is true	A false; R true
8	**(c)** factors of production	Combined to produce goods
9	**(c)** Fair wages and safe conditions	Workplace rights
10	**(c)** application of scientific knowledge	Enabler of production
11	**(c)** 1992	Industrialist and philanthropist
12	**(c)** Bank loans and personal savings	Also stock market

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
13	Renewable: restored by Nature, e.g. wind (1). Non-renewable: cannot be replenished fast, e.g. coal (1).	1+1
14	They are unevenly distributed and cross boundaries (1). Kaveri water dispute (1).	1+1
15	Technologically accessible (½). Economically feasible (½). Culturally acceptable (1).	½+½+1
16	Personal savings or family and friends (1). Bank loans or stock market (1).	1+1
17	Labour: basic physical and mental effort (1). Human capital: skills, knowledge and expertise (1).	1+1

SECTION — C (Short Answer) — Answers — 6 × 3 = 18

Q.	Expected Answer / Value Points	Marks
18	Reserves may last only about 50 years (1½). It is non-renewable so sustainable options are needed (1½).	1½+1½
19	Industrialisation and deforestation raised temperatures (1). Himalayan glaciers melt faster than precipitation replaces (1). They are the water tower for the plains (1).	1+1+1
20	Started Tata Airlines in 1932 (1). Expanded Tata Group into steel, cars, power, chemicals (1). Believed businesses should help society (1).	1+1+1
21	Labour-intensive: agriculture, construction, handicrafts (1½). Capital-intensive: semiconductor chips, satellites (1½).	1½+1½
22	Tree decomposes (1). Feeds bacteria, fungi and insects (1). Enriches soil for new trees (1).	1+1+1
	OR: Traditional water harvesting and pond rejuvenation (1). Reducing wasteful use and reusing water (1). Natural fertilisers, mulching, multi-cropping (1).	1+1+1
23	Gaps in adult literacy, males 85%, females 70% (1). Need for quality education and health (1). Need for skilling for the young (1).	1+1+1
	OR: Online learning through SWAYAM (1). Job portals (1). Access to knowledge and skills anywhere (1).	1+1+1

SECTION — D (Long Answer) — Answers — 1 × 5 = 5

Q.	Expected Answer / Value Points	Marks
24	Meaning (1). Failure to add value (1). Slow growth (1). India invests in industries (1). Role of knowledge and governance (1).	1+1+1+1+1
	OR: Definition of stewardship (1). Punjab case (1½). Cement case (1). Sikkim case (1½).	1+1½+1+1½

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option

attempted. Deduct up to ½ mark for missing units or figures where required.

MASTERMIND

THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET C

Chapters 1 & 7: **Natural Resources and Their Use, Factors of Production** | Class 8 Social Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 12 × 1 = 12

Q.	Correct Option	Brief Reasoning
1	**(b)** create new life and conditions for thriving	Goes beyond restoration
2	**(a)** Both A and R are true and R is the correct explanation of A	Higher prices explain higher incomes
3	**(d)** grow more slowly	They may not build industries
4	**(d)** their wood is used to make furniture	Use turns nature into a resource
5	**(a)** compost, neem and garlic repellents and multiple crops	Natural farming
6	**(a)** Karnataka, Tamil Nadu, Kerala and Puducherry	Needs negotiation
7	**(b)** physical and mental effort used in production	Carpenters, teachers, doctors
8	**(b)** Both A and R are true but R is not the correct explanation of A	Both true; R is a condition not the full reason
9	**(d)** halt production by breaking supply chains	Interconnected geography
10	**(a)** improving fitness and reducing absenteeism	Better productivity
11	**(a)** a network of people, organisations and activities in production and sale	Involves technology and resources
12	**(d)** rent	Businesses purchase or rent

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
13	When humans use or convert it (1). Trees into furniture (1).	1+1
14	Restoration returns to the original healthy state (1). Regeneration creates new life and thriving conditions (1).	1+1
15	Person who identifies a problem and takes risks to create something (1). Combines factors and makes decisions (1).	1+1
16	A new entrepreneurial venture with limited resources (1). Aims for rapid growth using technology (1).	1+1
17	Geographical land and soil (1). Forests, water, minerals, air and sunlight (1).	1+1

SECTION — C (Short Answer) — Answers — 6 × 3 = 18

Q.	Expected Answer / Value Points	Marks
18	Resource-rich areas may develop slowly (1). India invested in processing industries (1). Knowledge, governance and planning matter (1).	1+1+1
19	Resources essential for life: air, water (1). For materials: wood, marble (1). For energy: coal, sunlight (1).	1+1+1
20	Land – premises (1). Labour – cooks and waiters (1). Capital – kitchen equipment and money; entrepreneur – owner's decisions (1).	1+1+1
21	R&D plans the phone (1). Land, factory and raw materials (1). Assembly, testing, packaging and distribution (1).	1+1+1
22	Education builds knowledge and skills (1½). Healthcare ensures fitness and productivity (1½).	1½+1½
	OR: Identifies a need or problem (1). Takes risks and combines factors (1). Creates jobs and contributes to society (1).	1+1+1
23	HYV wheat and paddy need more water (1). Free power, pesticides and fertilisers (1). Water table fell, 80% area over-exploited (1).	1+1+1
	OR: Natural rhythm of restoration and regeneration must not be disturbed (1½). Harvesting timber faster than the forest grows depletes it (1½).	1½+1½

SECTION — D (Long Answer) — Answers — 1 × 5 = 5

Q.	Expected Answer / Value Points	Marks
24	65% below 35 (1). Potential for growth (1). Quality education (1). Health (1). Skilling and jobs (1).	1+1+1+1+1

	OR: Labour-intensive examples (1½). Capital-intensive examples (1½). Machines reduce labour (1). 3-D printing and handloom (1).	1½+1½+1+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
