2	10, Vidya Nagar Jaipur 18 November 2026 The Principal Mastermind Public School Jaipur Subject: Request to start a Computer Club Respected Madam/Sir, Many students of our school are keen on learning coding and designing. I therefore request you to start a Computer Club in the school. It can meet twice a week after school in the computer laboratory under the guidance of our computer teacher. The club can hold coding contests and teach basic programming. This will help students develop skills useful for their future. Yours obediently Pooja/Pankaj Class 9 C *(Format 1 · Content 2 · Organisation 1 · Language 1)*	5
	OR: **To:** principal@sunriseschool.example **From:** vishal.9@mastermindschool.example **Subject:** Request to participate in inter-school debate Respected Madam/Sir, I have learnt that your school is organising an inter-school debate on 5 December 2026 on the topic 'Technology: A Boon for Education'. I am a student of Class 9 at Mastermind Public School, Jaipur, and a member of our debating society. Our teacher has recommended me and another student to represent our school. I request you to allow us to participate and to send us the rules and the timing. We shall be grateful. Yours faithfully Vishal/Vandita *(Format 1 · Content 2 · Organisation 1 · Language 1)*	5
3	**Protect Our Earth** Good morning, respected teachers and dear students. We have only one Earth, and it is in danger. Rising pollution, melting glaciers and vanishing forests are warnings that we cannot ignore. The environment is not a problem for the government alone; every citizen has a role. We can save water, plant trees, avoid plastic and use public transport. Switching off unused lights saves energy; segregating waste helps recycling. If every student plants one tree this year, our school alone will add hundreds of trees. Let us also tell our families, because change begins at home. We have borrowed this planet from our children. Let us return it in better condition than we found it. Thank you. *(Content 2 · Organisation 1 · Expression/Style 1 · Accuracy 1)*	5

	OR: What Next After Class 10? by Rohan/Ria, Class 9 Class 10 is the first major turning point. Students must choose between Science, Commerce and Arts, or a vocational stream. The choice should depend on interest and aptitude, not on peer pressure. Science opens doors to engineering and medicine; Commerce leads to accountancy, banking and management; Arts offers law, journalism, civil services and design. Vocational courses can lead to jobs in technology and skilled trades. Before deciding, talk to teachers, parents and professionals. Take an aptitude test if available. Remember that every career has dignity, and success comes through effort. Do not choose a path simply because it is popular; choose it because you will enjoy working at it for years. *(Content 2 · Organisation 1 · Expression/Style 1 · Accuracy 1)*	5
4	It happened during the school annual function. I was to recite a poem on the stage, and I had practised it a hundred times. When my name was called, I walked confidently to the microphone. Just as I began, I tripped on the carpet and fell flat before the audience. For a second there was silence, and then laughter rose from the back rows. My face burned, and I wanted the ground to open and swallow me. But my teacher in the front row nodded and mouthed, 'Carry on.' I stood up, dusted my clothes and began again. This time the audience clapped even before I finished. Later my friends said they were impressed by my courage. That moment taught me that embarrassment is temporary, while giving up is permanent. Now I laugh whenever I remember it, and the fear of failure has left me. *(Content 2 · Organisation 1 · Expression 2 · Accuracy 1)*	6
	OR: Veena was a poor girl who loved to draw but had no money to buy pencils. One day, while walking home from school, she found a golden pencil lying near a pond. Whatever she drew with it became real. First she drew an apple, and a fresh apple lay on her palm. Then she drew a warm blanket for her sick grandmother. Very soon, she realised that the pencil's power was great, and she thought about drawing a palace for herself. But she saw the beggar children near the temple shivering in the cold. She drew blankets for them instead, and food for the hungry. That night, an old woman appeared in her dream and said, 'The pencil was a test. Only a kind heart deserves magic.' When Veena woke up, the pencil was still in her hand, and from that day she used it only to help others. Moral: Kindness is the real magic. *(Content 2 · Organisation 1 · Expression 2 · Accuracy 1)*	6

SECTION — B — Answers — 10 Marks
