THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 9 — SOCIAL SCIENCE CHAPTER TEST SET B

Chapter 9: **Oceans and Life** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Draw neat maps and diagrams wherever required.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. The deepest known place on Earth is the: 1

(a) Mid-Ocean Ridge **(b)** Abyssal Plain
(c) Mariana Trench **(d)** Continental Slope

2. An underwater mountain of volcanic origin that does not reach the sea surface is a: 1

(a) guyot **(b)** trench **(c)** seamount **(d)** abyssal plain

3. The correct sequence of wave-eroded features from a headland is: 1

(a) arch → crack → cave → stump → stack **(b)** stump → stack → arch → cave → crack
(c) crack → cave → arch → stack → stump **(d)** cave → crack → stump → arch → stack

4. Spring tides occur when: 1

(a) there is a solar eclipse only
(b) the Moon is far from the Earth always
(c) the Moon is at right angles to the Sun
(d) the Sun, Earth and Moon are in a straight line

5. Very large crude carriers wait for high tide in shallow channels such as the Singapore Strait to: 1

(a) meet customs officers
(b) avoid sea currents altogether
(c) save fuel on the return trip
(d) ensure enough water depth and avoid running aground

6. Fishing grounds are rich where: 1

(a) rivers meet mountains **(b)** warm and cold currents meet
(c) deserts meet forests **(d)** tides are absent

7. Marine resources are broadly classified into: 1

(a) natural and industrial resources **(b)** living and non-living resources
(c) land and air resources **(d)** renewable and cultural resources

8. One nautical mile is equal to: 1

(a) 1,000 metres **(b)** 2,000 metres **(c)** 1,852 metres **(d)** 1,609 metres

9. The principle that lets foreign ships pass through a country's territorial sea peacefully is: 1

(a) contiguous right **(b)** flag state rule **(c)** innocent passage **(d)** EEZ right

10. **Assertion (A):** Spring tides occur on full moon and new moon days. 1
Reason (R): On these days the Sun, Earth and Moon are aligned and their gravitational pulls add up.
(a) Both A and R are true and R is the correct explanation of A
(b) Both A and R are true but R is not the correct explanation of A
(c) A is true but R is false
(d) A is false but R is true

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 10–15 words each.

11. Define wavelength and wave period. 2

12. What is a tsunami? What is meant by its run-up height? 2

13. Distinguish between high tide and low tide. 2

14. When do spring tides occur and why are they unusually high? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 30–40 words each.

15. Explain how spring tides and neap tides differ. 3

16. State three ways in which high tides help human activities. 3

17. Why must a ship's captain check tide tables before berthing? 3

OR

Name three causes of ocean currents. 3

18. Differentiate warm and cold currents with one example each. 3

OR

How do ocean currents affect climate and life? Give two effects. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. (i) What are tides? 5
(ii) Explain with reasons spring and neap tides.
(iii) Why is tidal information useful to ports?

OR

(i) Describe four benefits of tides to human life. 5
(ii) Name two tidal energy sites in India.

20. **Case study:** A VLCC waits for several hours outside the Singapore Strait. 5
(i) Why does it wait?
(ii) Which tide does it use?
(iii) What is the tidal range at the Gulf of Khambhat?
(iv) How can tidal movements also be harmful?

OR

(i) What are ocean currents? 5
(ii) Explain the factors that cause them.
(iii) Distinguish warm and cold currents.

END OF QUESTION PAPER — Total: 40 Marks
