THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET A

Chapters 9 & 10: **Oceans and Life, Life on Earth** | Class 9 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** beneath the ocean as the Mid-Ocean Ridge	volcanic ridge on the ocean floor
2	**(c)** winds blowing across the water	wind transfers energy to water
3	**(d)** tsunamis	seismic sea waves
4	**(d)** first and third quarter of the Moon	pulls act in different directions
5	**(c)** continuous streams of water flowing in definite directions	movement along the surface
6	**(a)** terrestrial and aquatic	land-based and water-based
7	**(d)** savannas	home of lions and elephants
8	**(d)** tundra biome	soil frozen almost year-round
9	**(a)** it is lost as heat in metabolic processes	ten per cent flows upward
10	**(c)** ecosystem-based conservation on coasts	suited to geography

SECTION — B (Very Short Answer) — Answers 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	High tide raises water depth (1), allowing large ships to pass without grounding (1).	1+1
12	Any two: Gulf of Kutch, Gulf of Khambhat, Sundarbans (1+1).	1+1
13	The variety of life on Earth, including plants, animals, microorganisms and ecosystems (1), with genetic differences within species and variety of habitats (1).	1+1
14	Any two: Western Ghats, Himalaya, North-East India, Andaman & Nicobar Islands (1+1).	1+1

SECTION — C (Short Answer) — Answers 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Detection by seismic stations (1); confirmation by Ocean Bottom Pressure Recorders (0.5); tracking by tide gauges and radars (0.5); warning dissemination by satellite, SMS and display boards (1).	1+½+½+1
16	They collect fuelwood, fodder and NTFPs for households (1.5); they hold traditional knowledge and have led protection movements such as Bishnoi and Chipko (1.5).	1½+1½
17	INCOIS with IMD runs the Storm Surge Early Warning System forecasting inundation (1); IMD monitors cyclones and issues warnings (1); NCRMP builds shelters and strengthens warning and response (1).	1+1+1
	OR: (i) GEMINI (1). (ii) GAGAN (1). (iii) Up to 50 nautical miles into the sea (1).	1+1+1
18	It protects region-specific products from imitation (1); promotes cultural heritage (1); gives exclusive market recognition and better income to locals (1).	1+1+1
	OR: Ramban Sulai Honey is from Jammu and Kashmir (1); Tezpur Litchi from Assam (1); Kandhamal Haldi from Odisha with high curcumin (1).	1+1+1

SECTION — D (Long Answer) — Answers 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Gulf Stream keeps Norway's waters warm and ice-free; Labrador carries ice and icebergs to lower latitudes (3). (ii) Mixing brings nutrients that feed plankton and fish (2).	3+2
	OR: (i) Seismic detection, OBPR confirmation, tide-gauge and radar tracking, then dissemination through satellite, SMS and boards (3). (ii) ITEWC alerts the Government, states and response teams; trained communities respond correctly (2).	3+2
20	(i) Food, fuel, fodder, medicine, timber, NTFPs and ecotourism (2). (ii) Protect rare species, maintain water sources and preserve culture (2). (iii) Tendu leaves in Madhya Pradesh and bamboo in Assam (1).	2+2+1
	OR: (i) Livelihood, household needs, knowledge holders, protectors and cultural roles (3). (ii) Amrita Devi's Bishnoi sacrifice inspired Chipko, where women hugged trees to stop deforestation (2).	3+2

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET B

Chapters 9 & 10: **Oceans and Life, Life on Earth** | Class 9 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** GEMINI	uses GAGAN and Bluetooth
2	**(c)** Oil and natural gas	fossil fuels under the seabed
3	**(c)** 24 nautical miles from the baseline	limited control for customs and immigration
4	**(a)** flag state	country of registration
5	**(d)** A is false but R is true	the country has resource rights but does not fully own or control EEZ waters
6	**(b)** Gonds and Bhils	sustainable cultural practice
7	**(b)** Khasi Mandarin of Meghalaya	citrus from the Meghalaya hills
8	**(d)** our village, our rule	decisions through the Gram Sabha
9	**(c)** katas	traditional water storage
10	**(d)** A is false but R is true	A is false, R is true

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	A force due to Earth's rotation (1) that deflects moving objects to the right in the Northern and to the left in the Southern Hemisphere (1).	1+1
12	The warm Gulf Stream current flows towards it (1) and keeps its coastal waters warm (1).	1+1
13	Responsible travel to forest areas that enjoys nature without harming it (1) and supports local communities and conservation (1).	1+1
14	Forest items other than timber that give food or income (1); honey and tendu leaves (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Names are taken in sequence from a list of 169 submitted by 13 member countries including India (2); this helps clear communication and public awareness, e.g., Biparjoy (1).	2+1
16	Poor access to healthcare, education and clean water (1); floods, landslides and forest fires (1); human–wildlife conflict and restrictions on forest use (1).	1+1+1
17	Living resources: fish, seaweed, biodiversity (1.5); non-living resources: oil, gas, minerals, sand, gravel and tidal or wave energy (1.5).	1½+1½
	OR: Fish and aquaculture give food and livelihoods (1); oil, gas and minerals support the economy (1); ports and tourism along the long coastline create trade and jobs (1).	1+1+1
18	Elephants, monkeys and wild boars damage crops (1); sometimes people are attacked (1); it causes economic loss, fear and insecurity (1).	1+1+1
	OR: Human care and preventive measures like fire lines and awareness (1.5); community vigilance and early detection by satellites and local patrols (1.5).	1½+1½

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Indian Ocean tsunami (1). (ii) 26 December 2004 (1). (iii) Folk traditions can save lives by teaching warning signs (1). (iv) Tamil Nadu and Andaman & Nicobar Islands (2).	1+1+1+2
	OR: (i) Large rotating storm over warm ocean waters; named in order from 169 names supplied by 13 countries (2). (ii) IMD warnings, INCOIS SSEWS, NCRMP shelters and decision support system, GEMINI for fishermen (3).	2+3
20	(i) Label showing a product originates from a place with linked qualities (1). (ii) Protects products, promotes heritage and income (2). (iii) Ramban Sulai Honey, Tezpur Litchi, Channapatna toys with features (2).	1+2+2
	OR: (i) Poor services, restrictions on forest use, disasters, forest fires and wildlife conflict, low prices for produce (3). (ii) Processing and marketing support, awareness of rights, access to government schemes (2).	3+2

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

MASTERMIND

ANSWER KEY & MARKING SCHEME SET C

Chapters 9 & 10: **Oceans and Life, Life on Earth** | Class 9 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** continental shelf	rich in fish, oil and gas
2	**(c)** wavelength	anatomy of a wave
3	**(b)** run-up height	can be 30 m or more
4	**(c)** Gulf of Khambhat	also a tidal energy site
5	**(a)** Gulf Stream	warm current from the Gulf of Mexico
6	**(a)** Population of a country	climate and vegetation decide biome
7	**(a)** prairies	fertile and used for farming
8	**(d)** reindeer, arctic foxes and polar bears	adapted to freezing cold
9	**(c)** the variety of life including species, genes and ecosystems	richness of life forms
10	**(c)** minimal environmental impact and benefit to local people	responsible travel

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	The mixing of waters brings nutrients to the surface (1), which supports plankton and large shoals of fish (1).	1+1
12	A GAGAN-enabled handheld device that sends satellite alerts to mobile phones (1); it warns about cyclones, high waves and fishing zones in local languages (1).	1+1
13	Small forest patches protected by communities for religious and cultural reasons (1); Devrai and Kavu (1).	1+1
14	A product's quality is linked to its geographical origin (1); Tezpur Litchi (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Sustainable use of ocean resources for growth, jobs and livelihoods while keeping marine ecosystems healthy (2); SDG 14 ‘Life Below Water’ aims to reduce pollution and regulate fishing (1).	2+1
16	Forest Rights Act, 2006 (1); Joint Forest Management and PESA (1); welfare schemes such as PM JANMAN and DAJGUA, scholarships and health programmes (1).	1+1+1
17	They are linked to the Samudra Manthana as divine treasures (1.5); cowries were once used as currency, showing the sea's link with prosperity (1.5).	1½+1½
	OR: The territorial sea extends to 12 nautical miles where the country has near-complete control (1.5); the contiguous zone extends to 24 nautical miles where it has limited control over customs and immigration (1.5).	1½+1½
18	It gained rights over forest resources under the FRA, the first in India (1); decisions are taken by the Gram Sabha under ‘Mawa Nate Mawa Raj’ (1); it protects 1,800 hectares and uses revenue for education and infrastructure (1).	1+1+1
	OR: (i) Mendha Lekha (1). (ii) Forest Rights Act, 2006 (1). (iii) For education and infrastructure (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Living: fish, seaweed, biodiversity; non-living: oil, gas, minerals, sand, tidal and wave energy (2). (ii) Fish gives protein; about 90 per cent of trade is by sea; conch and cowrie hold cultural value (3).	2+3
	OR: (i) Sustainable use of ocean resources for growth and jobs (1). (ii) Reduce pollution, protect ecosystems, regulate fishing, conserve marine areas, remove harmful subsidies (2). (iii) Overuse harms fish stocks and future generations (2).	1+2+2
20	(i) Pradhan Mantri Ujjwala Yojana (1). (ii) It gives clean LPG fuel and cuts smoke (1). (iii) Landslides or floods (1). (iv) Community patrols, fire lines and awareness (2).	1+1+1+2
	OR: (i) Recognises rights of eligible communities over forest land and minor produce and grants small land patches (3). (ii) JFM, PESA, DAJGUA and PM JANMAN (2).	3+2

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET D

Chapters 9 & 10: **Oceans and Life, Life on Earth** | Class 9 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** detection → confirmation → tracking → warning	seismic stations first, public alerts last
2	**(c)** sustainable use of ocean resources for growth and jobs while keeping oceans healthy	World Bank idea
3	**(b)** 200 nautical miles from the baseline	UNCLOS
4	**(a)** Both A and R are true and R is the correct explanation of A	depth decides safe docking
5	**(a)** Both A and R are true and R is the correct explanation of A	timely information saves lives
6	**(a)** Amrita Devi	women hugged trees
7	**(b)** high curcumin content	turmeric of Odisha
8	**(c)** shared natural resources used collectively by a community	forests, rivers, grazing lands
9	**(a)** Both A and R are true and R is the correct explanation of A	climate supports life
10	**(d)** A is false but R is true	A is false; the Act recognises rights

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Foreign ships may pass through the territorial sea if they do not threaten peace or security (1); they must move continuously without fishing or military activity (1).	1+1
12	It is the international convention that defines maritime zones such as territorial sea and EEZ (1) and helps settle disputes among countries (1).	1+1
13	It recognises traditional rights over forest land and resources (1) and allows collection of minor forest produce like bamboo and honey (1).	1+1
14	Natural resources shared and used collectively by a community (1); forests and grazing lands or rivers (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	It extends to 200 nautical miles under UNCLOS (1); the country has special rights over fish, oil and gas (1); other countries' ships may still pass peacefully and the water is not fully owned (1).	1+1+1
16	Population growth and industrial use put pressure on shared resources (1); privatisation and encroachment shrink them (1); degradation harms livelihoods and ecological balance (1).	1+1+1
17	They lie beyond all EEZs and belong to no single country (1); all countries have equal rights of navigation, fishing and cables (1); overfishing, illegal fishing and weak enforcement cause problems (1).	1+1+1
	OR: COLREGs set rules of the road at sea to prevent collisions (1.5); MARPOL aims to prevent pollution of the sea from ships (1.5).	1½+1½
18	Earlier, landowners controlled water bodies and marginalised fishers (1.5); the Bihar Fish Jalkar Management Act, 2006, promotes community-led management and public access, with growing fish production (1.5).	1½+1½
	OR: Chandella and Bundela kings built about 8,000 tanks in Bundelkhand (1); keres in Karnataka, eri in Tamil Nadu and chevuru in Andhra Pradesh and Odisha (1); Gond kings built katas and Bihar had ahar pynes (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Internal waters, territorial sea 12 NM, contiguous zone 24 NM, EEZ 200 NM and high seas beyond (3). (ii) Foreign ships may pass peacefully and continuously without threatening security (2).	3+2

	OR: (i) To keep oceans safe, fair and clean and to avoid disputes and accidents (2). (ii) COLREGs prevent collisions; MARPOL prevents ship pollution (2). (iii) Its laws apply to the ship (1).	2+2+1
20	(i) Gond village in Gadchiroli with 1,800 ha forest and Gram Sabha governance (2). (ii) Collective rule, sustainable bamboo harvest, community welfare (2). (iii) Right to participate in governance and duty to protect biodiversity (1).	2+2+1
	OR: (i) Shared natural resources like forests, rivers and grazing lands (1). (ii) Population growth, industry and privatisation (1). (iii) Bihar Fish Jalkar Management Act, 2006; Bundelkhand tanks, eri, keres and katas (3).	1+1+3

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
