(a) daily rise and fall of the sea

(b) frozen ocean water

(c) continuous streams of water flowing in definite directions

(d) waves breaking on the beach

6. Biomes are broadly classified into: 1

(a) terrestrial and aquatic **(b)** hot and cold only

(c) plant and animal **(d)** Indian and foreign

7. Tropical grasslands with scattered trees are known as: 1

(a) steppes **(b)** prairies **(c)** tundra **(d)** savannas

8. Permafrost is found in the: 1

(a) savanna biome **(b)** desert biome **(c)** rainforest biome **(d)** tundra biome

9. Energy decreases at higher trophic levels because: 1

(a) it is lost as heat in metabolic processes

(b) the sun does not shine there

(c) plants grow upwards

(d) animals do not eat

10. Mangrove protection is an example of: 1

(a) urban planning **(b)** desert conservation

(c) ecosystem-based conservation on coasts **(d)** tundra restoration

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 10–15 words each.

11. Why do ships wait for high tide in shallow channels? 2

12. Name two tidal energy sites in India. 2

13. Define biodiversity. 2

14. Name two biodiversity hotspots of India. 2

SECTION — C (Short Answer Type) 4 × 3 = 12

Answer in about 30–40 words each.

15. Explain the four stages of the tsunami early warning system. 3

16. State the role of women forest dwellers. 3

17. What is the role of INCOIS, IMD and NCRMP in cyclone safety? 3

OR

Case study: A fisherman off Alappuzha receives an alert on his phone about high waves and a potential fishing zone. 3

(i) Name the device.

(ii) Which satellite system supports it?

(iii) How far can it currently communicate?

18. Explain how GI tagging helps forest communities. 3

OR

Match and explain: Ramban Sulai Honey, Tezpur Litchi, Kandhamal Haldi. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 100–150 words each.

19. (i) How do the Gulf Stream and Labrador Current affect climate? 5

(ii) Why are the meeting zones of currents important for fishing?

OR

(i) Explain how a tsunami early warning system works. 5

(ii) What are the roles of ITEWC and public awareness?

20. (i) How do forests support livelihoods? 5

(ii) Explain the importance of sacred groves.

(iii) Name two forest products with their states.

OR

(i) How do forest dwellers connect with forests? 5

(ii) Explain the contribution of the Bishnoi and Chipko movements.

END OF QUESTION PAPER Total: 40 Marks
