# THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

## CLASS 9 — SOCIAL SCIENCE CHAPTER TEST SET A

Chapter 1: **The Problem of Choice** | RBSE Pattern | Session 2026–27

**Time: 1 Hour 30 Minutes** Name: _____ Roll No.: _____ **Maximum Marks: 40**

**General Instructions:**

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Draw neat maps and diagrams wherever required.

## SECTION — A (Objective Type Questions) 10 × 1 = 10

*Choose the correct option and write it in your answer book.*

**1.** The opportunity cost when a farmer shifts one hectare from wheat to barley, losing 30 quintals of wheat is: 1

**(a)** 30 quintals of wheat **(b)** 60 quintals of wheat
**(c)** 30 quintals of barley **(d)** nothing, since barley is gained

**2.** The opportunity cost when a factory uses ₹10 lakh to buy a machine instead of hiring workers is: 1

**(a)** the benefit of hiring workers **(b)** nothing
**(c)** the machine **(d)** ₹10 lakh only

**3.** On a Production Possibility Curve, A: 60 rice, 10 pulses and B: 40 rice, 25 pulses. Moving from A to B, the opportunity cost of 15 more pulses is: 1

**(a)** 30 rice **(b)** 10 rice **(c)** 40 rice **(d)** 20 rice

**4.** Scarcity means: 1

**(a)** resources are unlimited
**(b)** resources are absent
**(c)** resources are limited in relation to wants
**(d)** resources are free

**5.** The question ‘for whom to produce’ concerns: 1

**(a)** choice of technology **(b)** distribution of goods among people
**(c)** foreign trade **(d)** the quantity of crops

**6.** A point outside the PPC is: 1

**(a)** not attainable with the present resources
**(b)** inefficient
**(c)** attainable
**(d)** the best point

**7.** India adopted a more market-oriented approach after: 1

**(a)** 1991 **(b)** 1971 **(c)** 1947 **(d)** 2008

**8.** The Economic Survey is useful because it: 1

**(a)** prints currency
**(b)** sets stock prices
**(c)** reports how the Indian economy is performing
**(d)** decides taxes

**9.** When resources have alternative uses, it becomes necessary to: 1

**(a)** print more money **(b)** make choices **(c)** avoid trade **(d)** stop production

**10.** **Assertion (A):** Pure economic systems rarely exist in reality. 1
**Reason (R):** Most economies combine features of market and planned systems.
**(a)** Both A and R are true and R is the correct explanation of A
**(b)** Both A and R are true but R is not the correct explanation of A
**(c)** A is true but R is false
**(d)** A is false but R is true

## SECTION — B (Very Short Answer Type) — 4 × 2 = 8

*Answer in about 10–15 words each.*

**11.** What is meant by scarcity? 2

**12.** Distinguish between needs and wants with an example each. 2

**13.** Define opportunity cost with an example. 2

**14.** What is the meaning of ‘Economics’ according to the Greek origin of the word? 2

## SECTION — C (Short Answer Type) — 4 × 3 = 12

*Answer in about 30–40 words each.*

**15.** Distinguish between scarcity and shortage with examples. 3

**16.** Explain why human wants are unlimited and how this affects production. 3

**17.** A farmer can produce 100 quintals of wheat or 40 of barley; he changes to 70 wheat and 30 barley. Explain opportunity cost using the PPC. 3

OR

A student has ₹100 and must choose between a notebook and a story book. Explain the opportunity cost. 3

**18.** Explain the problem ‘what to produce’ with an example from agriculture. 3

OR

Explain the problem ‘how to produce’ with the labour and capital-intensive techniques. 3

## SECTION — D (Long Answer Type) — 2 × 5 = 10

*Answer in about 100–150 words each.*

**19.** (i) Define scarcity. 5
(ii) How does scarcity give rise to choice?
(iii) Explain opportunity cost with two examples.

OR

**Case study:** A farm has resources to produce wheat and barley: A (100, 0), B (70, 30), C (40, 55), D (0, 70). 5
(i) What curve is formed?
(ii) Find the opportunity cost of moving A to B.
(iii) Find the opportunity cost of moving B to C per unit of barley.
(iv) What does a point inside the curve show?

**20.** (i) State the central problems of an economy. 5
(ii) Explain each with an example.
(iii) Why do they arise in all economies?

OR

**Case study:** A farmer in a dry region debates sugarcane (high profit, much water) and millets (less profit, little water). 5
(i) Which central problem is it?
(ii) State the opportunity cost of sugarcane.
(iii) Which choice is more sustainable?
(iv) How can government policy help?

## END OF QUESTION PAPER — Total: 40 Marks
