THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 9 — SOCIAL SCIENCE CHAPTER TEST SET A

Chapter 3: **Shaping the Earth's Surface** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Draw neat maps and diagrams wherever required.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. The theory that explains the movement of large pieces of the Earth's crust is: 1

(a) continental drift of oceans **(b)** plate tectonics
(c) big bang theory **(d)** theory of relativity

2. The layer between the crust and the core is the: 1

(a) lithosphere only **(b)** troposphere **(c)** mantle **(d)** atmosphere

3. Which is NOT a major tectonic plate? 1

(a) Pacific plate **(b)** Himalayan plate **(c)** African plate **(d)** Eurasian plate

4. The Himalayas were formed by the collision of: 1

(a) the Pacific and African plates **(b)** the Arabian and Antarctic plates
(c) the Indian plate and the Eurasian plate **(d)** two oceanic plates only

5. The breaking down of rocks on the Earth's surface in place is called: 1

(a) deposition **(b)** weathering **(c)** erosion **(d)** transport

6. Looped bends of a river in the middle course are called: 1

(a) meanders **(b)** gorges **(c)** deltas **(d)** cirques

7. Sea cliffs, sea caves and beaches are formed by: 1

(a) rivers only **(b)** wind **(c)** glaciers **(d)** waves

8. A deep narrow inlet formed when the sea floods a glacial valley is a: 1

(a) lagoon **(b)** fjord **(c)** gorge **(d)** delta

9. Karst topography forms in regions of: 1

(a) sand **(b)** volcanic rocks
(c) limestone rocks dissolved by water **(d)** ice

10. The Zabo system of farming is practised in: 1

(a) Kerala **(b)** Nagaland **(c)** Rajasthan **(d)** Punjab

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 10–15 words each.

11. What is a landform? Give two examples. 2

12. State the theory of plate tectonics in one line. 2

13. Name the three layers of the Earth. 2

14. Distinguish between continental and oceanic crust in thickness. 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 30–40 words each.

15. Describe the interior of the Earth in a table of the three layers. 3

16. Why does the Earth's surface keep changing? Mention two forces. 3

17. Explain the three types of plate boundaries with an effect of each. 3

OR

Explain how earthquakes and volcanoes are related to plates. 3

18. What is the difference between weathering and erosion? 3

OR

Explain how erosion affects human livelihoods. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. (i) Describe the structure of the Earth's interior. 5
(ii) How does the thickness of crust vary?
(iii) What is the lithosphere?

OR

(i) State the theory of plate tectonics. 5
(ii) Name the major plates.
(iii) Describe the boundary types with examples.

20. **Case study:** The Indian plate moving northwards collided with the Eurasian plate. 5
(i) Which boundary type?
(ii) Which landform resulted?
(iii) What kind of events still occur there?
(iv) How did the Himalayas protect India?

OR

(i) Define weathering, erosion and deposition. 5
(ii) Explain their roles in shaping landforms.
(iii) Give two examples of landforms from each process.

END OF QUESTION PAPER — Total: 40 Marks
